

Debt Management & Millage Rate Long-Term Debt

The Cobb County School District has an extremely conservative approach to the topic of long-term debt.

The District has **NO LONG-TERM DEBT.**

The District has a well-developed multi-year capital plan, as presented previously in this presentation, where the funding source methodology is a pay-as-you-go philosophy associated with the Special Purpose Local Option Sales Tax revenues and State of Georgia Capital Project funding.

Note – The District has had no Long-Term Debt since FY2007.
