TESTING BRIEF

Criterion-Referenced Competency Tests

Spring 2012

Georgia law (O.C.G.A. §20-2-281) provides legislation for the development and administration of Criterion-Referenced Competency Tests (CRCT) to measure student acquisition of the knowledge and skills set forth in the Georgia Performance Standards (GPS). The CRCT testing program serves a dual purpose – to provide a diagnosis of individual student and program strengths and areas of improvement as related to instruction of the GPS, and a measure of the quality of education in the state. O.C.G.A. §20-2-283 states that no third grade student will be promoted to the fourth grade if the student does not achieve grade level performance on the third grade CRCT in Reading and no fifth or eighth grade student will be promoted to the next grade if the student does not achieve grade level performance on the CRCT in Reading and Mathematics. Tests were administered in April in the content areas of Reading, English/Language Arts, Mathematics, Science, and Social Studies to students enrolled in grades three through eight.

The scale score range for the CRCT is 650 to 900 or above. Scores are reported in three performance levels: Does Not Meet (650-799), Meets (800-849), and Exceeds (850 and above).

At the district level, the percentage of students meeting or exceeding standards was higher than the state percentage in every content area and grade level.

The percentage of all students in Cobb meeting or exceeding standards was the same or higher than last year across all grades and content areas with the exception of 3rd Grade Science, where there was a decline of 1%:
