## TESTING BRIEF

### Criterion-Referenced Competency Tests Spring 2013

---

The CRCT testing program serves a dual purpose – to provide a diagnosis of individual student and program strengths and areas of improvement as related to instructional standards, and a measure of the quality of education in the state. O.C.G.A. §20-2-283 states that no third grade student will be promoted to the fourth grade if the student does not achieve grade level performance on the third grade CRCT in Reading and no fifth or eighth grade student will be promoted to the next grade if the student does not achieve grade level performance on the CRCT in Reading and Mathematics. Tests were administered in April in the content areas of Reading, English/Language Arts, Mathematics, Science, and Social Studies to students enrolled in grades three through eight.

The scale score range for the CRCT is 650 to 900 or above. Scores are reported in three performance levels: Does Not Meet (650-799), Meets (800-849), and Exceeds (850 and above).

At the district level, the percentage of students meeting or exceeding standards was higher than the state percentage in every content area and grade level.

The following charts show the trend for student performance on the CRCT across all grade levels over the last three school years. Student pass rate, or percentage of students meeting and exceeding standards, has shown steady improvement in all content areas with the exception of a slight drop in English Language Arts for 2013. Scale Scores increased in all content areas over the three year period:

	<u>2011</u>	<u>2012</u>	<u>2013</u>		<u>2011</u>	<u>2012</u>	<u>2013</u>

By grade level, The percentage of all students in Cobb meeting or exceeding standards was mixed across content areas. The chart below shows gains and declines compared to the previous year by grade and content area:
