Family Math Night

Mark your calendar for January 25 and join us for Keheley Math Night featuring Kids Chess and Mathnasium, along with other games and activities for the entire family! More information next week!

Parent Literacy Night

Have you noticed a shift in your students reading instruction and want to know more?

Join us on January 31 at 5:30pm to learn more about the changes to our literacy instruction and how Keheley aligns with the latest research to support student learning.

RSVP to Megan.Arocho@cobbk12.org prior to January 24.

Math Fact Fluency

It's essential that our students build a strong foundation in math fluency, particularly in addition, subtraction and multiplication.

This proficiency is crucial for their success in future math content and assessments. While many of you are already incorporating math fluency practice at home, try to carve out 10 minutes at home for explicit math fluency practice as through games, challenges or other engaging activities to memorize facts...no counting on fingers. 😊

The investment of a few minutes each day will yield outstanding results and contribute to your children's overall academic achievements. Thank you for ongoing commitment and support in preparing our Comets for a bright future.
