## Kindergarten and New Student Registration

Cobb teachers are looking forward to helping your child begin their educational journey. So, do not delay, register your new student today! **Please share with your neighbors and friends!**

The online student registration, which is the same system used for all students who are new to the Cobb County School District, enables the enrolling adult to register all students in their family at one time. The safe and secure system allows parents to enter information, save it, and return later to complete the registration.

Enrolling adults who already have a current Cobb student will need to use their ParentVue account to register additional new students. If you are a parent with students currently enrolled in the school system and do not have access to your ParentVUE account, contact your local school to obtain the ParentVUE activation code.
