Principal's Message

This has been such a wonderful start to the school year! We have held several successful events, including Meet and Greet, Pastries with the Principal and Volunteer Night. As we continue this journey together, we want to thank you for your partnership and support. Your encouragement at home makes such a difference in helping our students feel confident, motivated, and ready to learn. Please continue to make time for reading, practicing skills, asking about their school day, and celebrating their efforts.

A friendly reminder: Progress Reports will be sent home next week. Please take some time to review your child's progress, celebrate their successes, and talk with them about areas where they can continue to grow. Progress reports are a great opportunity for families and teachers to work together to support each child's continued success.

Thank you for trusting us with your children and for being such an important part of the Keheley family. We are proud of our Comets and excited about all the learning and growth still ahead!

Spirit Wear

This is the last weekend to order and pay for your student's class spirit shirt. Remember, these shirts are encouraged to be worn every Friday, as well as on field trips. Parents, feel free to order one or two for yourself to show your Keheley pride when you are at school or out and about.

PTA and Foundation

Announcements and Shoutouts

The Cognia Student, Parent, and Staff Surveys are designed to collect data on student academic learning and wellness during the current school year. Participation in each survey is anonymous and voluntary, and participation is highly encouraged. The survey results will provide the Cognia Accrediting Agency, Cobb County School District, and local schools with data regarding student learning environment, staff input, and parent feedback to support continuous learning. Please [Click Here](#) to complete this year's Parent Survey.

Screen Smart Families is our district's monthly family challenge program that helps families understand and explore purposeful technology use. Each month, families complete a short, hands-on challenge in which students use technology to create, design, solve, communicate, or teach. Students submit the challenge, and they will receive a certificate and a sticker badge. [Click Here](#) for this month's challenge!
