Cognia Surveys

The Cobb County School District is fully accredited by Cognia, the world's largest educational accrediting agency. Maintaining district accreditation requires adherence to stringent standards and a full audit of the school district every six years. The Cognia Student, Parent, and Staff Surveys are designed to collect data on student academic learning and wellness during the current school year. Participation in each survey is anonymous and voluntary, and participation is highly encouraged. The survey results will provide Cognia Accrediting Agency, Cobb County School District, and local schools with data regarding student learning environment, staff input, and parent feedback to support continuous learning.

3rd – 5th grade students will participate in the survey during STEM between Aug. 14 through Aug. 21. Link to the parent survey will be available to parents from Aug. 14 through Aug. 21.
