## New Staff Spotlight

Mrs. Maxine, Custodian

## Cognia Surveys

The Cobb County School District is fully accredited by Cognia, the world's largest educational accrediting agency. Maintaining district accreditation requires adherence to stringent standards and a full audit of the school district every six years. The Cognia Student, Parent, and Staff Surveys are designed to collect data on student academic learning and wellness during the current school year.

Please take a moment to complete the Cognia Parent Survey for Keheley here:

## National Hispanic Heritage Month

HHM is a time to recognize and celebrate the many contributions, diverse cultures, and extensive histories of the Hispanic and Latino communities. We celebrate from Sep. 15 to Oct. 15 to coincide with the many Latin American Independence Days that occur during the timeframe.

## Science Olympiad

See the flyer below for more information! Keheley is bringing back the Science Olympiad and we are looking for parent coaches. Science Olympiad is a fun science competition for kids! It brings students together in teams to explore exciting hands-on scientific activities and challenges. Science Olympiad not only encourages teamwork and critical thinking but also helps students develop a deeper understanding of scientific concepts, making it an engaging and educational experience. Our students will participate in various events that cover a wide range of scientific topics, from biology and chemistry to physics and earth science. Parents, please consider becoming a Science Olympiad coach at Keheley this year. It's a fantastic opportunity to support our students' passions for science and create memorable experiences that will inspire a lifelong love for learning.
