

Dear Parents,

In compliance with the Federal Elementary and Secondary Education Act (ESEA) and Georgia HB244, students in grades three through five will be assessed with Georgia Milestones End of Grade (EOG) assessments in English Language Arts and Mathematics, and students in grade five will also be assessed in Science.

These assessments measure how well students have mastered the state-adopted content standards. Cobb County teachers and students have been working all year to ensure that students are prepared to take these assessments. Preparations have included teaching students to answer more complex questions and to provide supporting evidence.

Georgia Milestones EOG assessments are administered on the computer. These assessments include selected-response (multiple-choice) and technology-enhanced items in all grades and courses, as well as constructed response (open-ended), extended constructed response, and extended writing-response items in English Language Arts.

Students will take these assessments following the schedule below. Please remind your student of the importance of doing their best on each section of the test and ensure your child reports promptly to school on the scheduled test days.

After Cobb County School District receives the test results, you will be able to access them via CTLS Parent. If you have any questions about Georgia Milestones assessment administration, please contact the Test Coordinator at your child's school. Information regarding the Georgia Milestones Assessment System can be found at [www.gadoe.org](http://www.gadoe.org).

### 2024 Georgia Milestones End of Grade Assessment Schedule
