## **SCHOOL COUNSELING DEPARTMENT**

Counselor Magnet..... Angela LaRoy, Lead Counselor

Counselor A-C..... Brittney Phillips

Counselor D-K..... Colleen Garcia

Counselor L-R..... Katherine Barrington

Counselor S-Z..... Senoria Cain

Registrar..... Heather Placie

## A few notes about this course guide:

- Academic classes have been recommended by your teachers after reviewing your grades, test scores and previous classroom performance. It is not the philosophy of the school to place students in classes which the school believes will be discouraging or overwhelming to students. While we do encourage students to challenge themselves with the most rigorous classes they can handle, please be careful if you decide to take a course different than what your teacher recommended.
- As you read the course catalog, please be attentive to the identified **pre-requisites** (required completed courses) for course enrollment. Based on past student performance, departments have carefully considered the skills and levels of readiness required to be successful in each course. **Academic balance is strongly encouraged and recommended for students when selecting core and elective classes.**
- **Please ask questions!** Your counselor is the best person to advise you as to what you need to take to meet your graduation requirements.
- Have a great 2025-2026 school year and, as always.....*Go Mustangs!!*

# Grades and Grading Scale

The Cobb County School District has set the following grade scale:

A: 90 – 100

B: 80 – 89

C: 74 – 79

D: 70 – 73

F: 69 and below

Classes meet for one (1) semester that consists of 18 weeks. **Final course grades are awarded at the end of each semester.**

The grade point average (**GPA**) is based on quality points awarded for each grade earned at the completion of the course.\*\*

A: 4 quality points

B: 3 quality points

C: 2 quality points

D: 1 quality point

F: 0 quality points

\*\*Honors courses receive an extra 0.5 quality point. Advanced Placement (AP) courses are awarded an extra 1.0 quality point. No extra quality points are awarded if a student fails the course.

*Examples:* A student earns an A (grade of 93) in Honors World Geography. The quality point awarded is 3.5 points.  
A student earns a B (grade of 88) in AP Human Geography. The quality point awarded is 4 points.

## Grade Promotion Requirements

To promote to the 10<sup>th</sup> grade at the end of the school year, students must earn a minimum of 5 credits. Required credits include passing freshman English, math and science courses. To promote to the 11<sup>th</sup> grade, a minimum of 10 credits, including two full credits in English, math and science. Promotion to 12<sup>th</sup> grade requires a minimum of 16 credits.

## Graduation Requirements

The Georgia State Board of Education has one common set of high school graduation requirements. Meeting all identified requirements will earn a high school diploma. To meet the credit requirement, students must complete (earn) a minimum of 23 credits as identified below. Students are encouraged to complete a Pathway in CTAE, Fine Arts or World Languages during high school.

Subject	Required Credits	Graduation Requirements
<b>English</b>	4	Must include 9 <sup>th</sup> Literature/Comp and American Literature
<b>Math</b>	4	Must include Algebra, Geometry and Advanced Algebra or their equivalencies
<b>Science</b>	4	Must include Biology, an Earth Science course, a Physical Science course and 1 additional science course
<b>Social Studies</b>	3	Must include World History, United States History, Government and Economics
<b>Health and PE</b>	1	.5 credit of Health and .5 credit of Personal Fitness
<b>Required Electives</b>	3	Courses from CTAE, Fine Arts and/or World Languages
<b>Additional Electives</b>	4	
<b>Total</b>	<b>23</b>	<b>Minimum required credits</b>

## Pathway Opportunities and Completion

Beginning with the Class of 2017, each student is encouraged to complete either an Advanced Academics, CTAE, Fine Arts, or World Languages pathway.

**Advanced Academics:** An Advanced Academic Pathway may be followed in any of the following content areas: English, math, science or social studies. Students complete an Advanced Academic Pathway when they have completed the required courses for graduation and one of the courses completed is either Advanced Placement (AP) or Dual Enrollment (DE). Additionally, students must earn credits in two (2) sequential courses in one world language.

**CTAE:** Students complete a series of three (3) or four (4) specific courses in a CTAE-approved pathway. Complete pathways are offered in the following areas: Architectural Drawing and Design, Carpentry, Business Accounting, Broadcast/Video Production, Graphic Design, Information Support and Services, Web and Digital Design, Computer Science, Engineering Drafting and Design, Culinary Arts, and Sports and Entertainment Marketing.

**Fine Arts:** Students complete three (3) courses in either Band, Chorus, Orchestra, Visual Arts, or Journalism/Yearbook.

**World Language:** The World Language Pathway is completed when students complete three (3) courses in the same world language. Students must maintain a 3.0 average in Spanish I, II, III, and IV or French I, II and II or American Sign Language I, II, III.

## Interested in Registering for a P.E. Class and/or You are an Athlete?

During elective registration students will have the opportunity to select eight (8) courses for elective registration.

**Students interested in registering for P.E. activity classes, including students who plan to play a high school sport, can request only two (2) P.E. classes as part of their total elective course selection. A student cannot be registered for two (2) P.E. classes in the same semester.**

## Academic Electives

Course Name/ Description	Course Number	Credit	Prerequisite
<p><b><u>Speech and Debate (Oral Written Communication)</u></b>            This course focuses on developing public speaking skills. The students will identify effective methods to arrange ideas and information in written form and then convert the written form into an effective oral delivery. The course focuses on critically thinking, organizing ideas, researching counter viewpoints, and communicating appropriately for different audiences and purposes. The students analyze professional speeches to enhance their knowledge of solid speech writing.</p>	<b>23.0420011</b>	1.0	Earned credit in two (2) high school level English classes
<p><b><u>US &amp; World Affairs</u></b>            U. S. &amp; World Affairs is an in-depth examination of contemporary local, state, national, and international issues. The main purpose of this course is to assess and analyze social, political, and economic issues involved in current events, and American involvement in international events since World War II.</p>	<b>45.0910099</b>	1.0	11 <sup>th</sup> and 12 <sup>th</sup> Grades Only
<p><b><u>Individual and the Law</u></b>            Individual and the Law concentrates on constitutional and criminal law including the constitutional amendments, student constitutional rights (rights retained in school and those forfeited), and various aspects of criminal law. The course also reflects the vast topic of civil law including family law, rights in the workplace, housing, torts, consumer rights, and more. Students take appropriate law-related field trips, conduct a mock trial, and have a number of guest speakers who are directly involved in law including judges, attorneys, mediators, and probation officer.</p>	<b>45.0560099</b>	1.0	11 <sup>th</sup> and 12 <sup>th</sup> Grades Only
<p><b><u>Sociology</u></b>            Sociology is a study of human society and social behavior. The purpose of the course is to provide students with a basic understanding of how humanity is shaped largely by the groups to which people belong and by the social interaction that take place within those groups. Societal problems in the United States will also be discussed.</p>	<b>45.0310099</b>	1.0	11 <sup>th</sup> and 12 <sup>th</sup> Grades Only
<p><b><u>Psychology</u></b>            Psychology gives a general overview of the principles and concepts of psychology, including learning theory, perception, intellectual, and social development, abnormal behavior, and interpersonal relationships. The purpose of this course is to provide students with a better understanding of the dynamics that shape our own behaviors as well as the behaviors of others.</p>	<b>45.0150099</b>	1.0	11 <sup>th</sup> and 12 <sup>th</sup> Grades Only
<p><b><u>AP Psychology</u></b>            AP Psychology is a college level survey course with study in Learning Theory, Abnormal Behavior, and Social Psychology. Extensive reading, writing and statistical analysis are required by students.</p>	<b>45.0160095</b>	1.0	11 <sup>th</sup> and 12 <sup>th</sup> Grades Only Previous AP course credit strongly recommended

<p><b><u>Scientific Research II (Magnet)</u></b>  Research II course will develop projects based on their interests. These projects may be related to topics that they are covering in any of their science courses or could expand on those ideas. It is expected that the students will receive some support from their teachers, but they will be working mostly independently. Projects at this level could be completed on a time frame of weeks to months. Presentations of the projects developed at this level will take place at regional or state science fair competitions for example.</p>	<p><b>40.0922003</b></p>	<p>1.0</p>	<p>10<sup>th</sup> &amp; 11<sup>th</sup> Grade Magnet Students Only</p>
<p><b><u>Scientific Research III (Magnet)</u></b>  Research III course will develop projects based on their interests. Projects at this level would be original in nature and will investigate students' ideas to solve a particular problem. It is expected that the students will work with someone outside the school setting as they work towards the solution of their problem. This type of project may take the whole length of the course to be completed. Students completing these projects are expected to present their solutions to the appropriate interest groups or on settings like the Best Robotics competitions, Siemens, the High School Engineering Competition, etc.</p>	<p><b>40.0923003</b></p>	<p>1.0</p>	<p>10<sup>th</sup> &amp; 11<sup>th</sup> Grade Magnet Students Only</p>

## CTAE

Course Name/ Description	Course Number	Credit	Prerequisite
<p><b><u>Introduction to Business &amp; Technology</u></b>            Introduction to Business &amp; Technology is the foundational course for Advanced Accounting, Business Accounting, and Financial Services pathways. The course is designed for high school students as a gateway to the career pathways above and provides an overview of business and technology skills required for today's business environment. Knowledge of business principles, the impact of financial decisions, and technology proficiencies demanded by business combine to establish the elements of this course. Emphasis is placed on developing proficient fundamental computer skills required for all career pathways. Students will learn essentials for working in a business environment, managing a business, and owning a business.</p>	<b>07.4413099</b>	1.0	N/A
<p><b><u>Financial Literacy</u></b>            Step into this course specifically designed for high school students to understand the importance of the financial world, including planning and managing money wisely. Areas of study taught through application in personal finance include sources of income, budgeting, banking, consumer credit, credit laws and rights, personal bankruptcy, insurance, spending, taxes, investment strategies, savings accounts, mutual funds and the stock market, buying a vehicle, and living independently. Based on the hands-on skills and knowledge applied in this course, students will develop financial goals, and create realistic and measurable objectives to be MONEY SMART! Through project-based learning activities and tasks, students will apply mathematical concepts in realistic scenarios and will actively engage by applying the mathematics necessary to make informed decisions related to personal finance. Financial Literacy places great emphasis on problem solving, reasoning, representing, connecting, and communicating financial data.</p>	<b>07.4260099</b>	1.0	Introduction to Business & Technology
<p><b><u>Principles of Accounting I</u></b>            Principles of Accounting 1 is a skill-level course that is of value to all students pursuing a strong background in business, marketing, and management. Using financial information, students will learn how to make decisions about planning, organizing, and allocating resources using accounting procedures. Performing accounting activities for sole proprietorships and corporations following generally accepted accounting procedures are included in the course. Students analyze business transactions and financial statements, perform payroll, and evaluate the effects of transactions on the economic health of a business.</p>	<b>07.4110099</b>	1.0	Financial Literacy

<p><b><u>Marketing Principles</u></b>  Marketing Principles is the foundational course for the Marketing and Management, Fashion Merchandising and Buying, and Marketing Communications and Promotion Pathways. Marketing Principles addresses all the ways in which marketing satisfies consumer and business needs and wants for products and services. Students develop a basic understanding of Employability, Foundational and Business Administration skills, Economics, Entrepreneurship, Financial Analysis, Human Resources Management, Information Management, Marketing, Operations, Professional Development, Strategic Management, and Global Marketing strategies. Instructional projects with real businesses, work-based learning activities including School-Based Enterprises, and DECA application experiences should be incorporated in this course.</p>	08.4740099	1.0	N/A
<p><b><u>Introduction to Sports &amp; Entertainment Marketing</u></b>  This course introduces the student to the major segments of the Sports and Entertainment Industry and the social and economic impact the industry has on the local, state, national, and global economies. The products and services offered to consumers and the impact of marketing on these products and services are examined. Units include: Business Fundamentals, Product Mix, Product Knowledge, Product/Service Management, Business Regulations, Interpersonal Skill, Selling, Marketing Information Management, Economics, Distribution, Pricing, Advertising, Publicity/Public Relations, Sales Promotion, Business Risks, and Organization.</p>	08.4780099	1.0	Marketing Principles
<p><b><u>Advanced Sports &amp; Entertainment Marketing</u></b>  This course provides students opportunities to develop managerial and analytical skills and deepen their knowledge in sports/entertainment marketing. Topical units include: Marketing-Information Management, Selling, Publicity/Public Relations, Sales Promotion, Management of Promotion, Product Mix, Pricing, Positioning, and Marketing Planning.</p>	08.4850099	1.0	Introduction to Sports & Entertainment Management
<p><b><u>Introduction to Software Technology</u></b>  This course is the foundational course for many Georgia IT pathways. It is designed for high school students to understand, communicate, and adapt to a digital world as it impacts their personal life, society, and the business world.</p>	11.4460099	1.0	N/A
<p><b><u>Digital Design</u></b>  Using web design as the platform for product design and presentation, students will create and learn digital media applications using elements of text, graphics, animation, sound, video and digital imaging for various format. The digital media and interactive media projects developed and published showcase the student skills and ability. Emphasis will be placed on effective use of tools for interactive multimedia production including storyboarding, visual development, project management, digital citizenship, and web processes. Students will create and design web sites that incorporate digital media elements to enhance content of web site. This is the second course in the Web &amp; Digital Design pathway.</p>	11.4510099	1.0	Introduction to Software Technology

<p><b><u>Web Design</u></b>  Can you think of any company that does not have a web presence? Taking this course will equip students with the ability to plan, design, and create a web site. Students will move past learning how to write code and progress to designing a professional looking web site using graphical authoring tools that contains multimedia elements. Working individually and in teams, students will learn to work with web page layout and graphical elements to create a professional looking web site. This is the third course in the Web &amp; Digital Design pathway.</p>	<p><b>11.4520099</b></p>	<p>1.0</p>	<p>Digital Design</p>
<p><b><u>Computer Science Principles</u></b>  Computer Science (CS) Principles is an intellectually rich and engaging course that is focused on building a solid understanding and foundation in computer science. This course emphasizes the content, practices, thinking and skills central to the discipline of computer science. Through both its content and pedagogy, this course aims to appeal to a broad audience. The focus of this course will fall into these computational thinking practices: connecting computing, developing computational artifacts, abstracting, analyzing problems and artifacts, communicating, and collaborating. <i>This course meets fourth science requirement and the fourth mathematics set by the Board of Regents or the world language requirement by completing two computer science courses from the same pathway will satisfy two years of sequenced foreign language courses.</i></p>	<p><b>11.4710099</b></p>	<p>1.0</p>	<p>Introduction to Software Technology</p>
<p><b><u>AP Computer Science Principles</u></b>  The course will introduce students to the creative aspects of programming, abstractions, algorithms, large data sets, the Internet, cybersecurity concerns, and computing impacts. AP Computer Science Principles will give students the opportunity to use technology to address real-world problems and build relevant solutions. Together, these aspects of the course make up a rigorous and rich curriculum that aims to broaden participation in computer science. <i>This course has been approved to meet the 4<sup>th</sup> Science requirement for graduation.</i></p>	<p><b>11.0190099</b></p>	<p>1.0</p>	<p>Introduction to Software Technology  Earned credit in Algebra</p>
<p><b><u>AP Computer Science A</u></b>  AP Computer Science A is equivalent to a first- semester, college-level course in computer science. The course introduces students to computer science with fundamental topics that include problem solving, design strategies and methodologies, organization of data (data structures), approaches to processing data (algorithms), analysis of potential solutions, and the ethical and social implications of computing. The course emphasizes both object- oriented and imperative problem solving and design using Java language. These techniques represent proven approaches for developing solutions that can scale up from small, simple problems to large, complex problems. <i>This course has been approved to meet the 4<sup>th</sup> Science requirement for graduation.</i></p>	<p><b>11.0160099</b></p>	<p>1.0</p>	<p>AP Computer Science Principles</p>

<p><b>Programming, Games, Apps, and Society</b>  The course is designed for high school students to strategize, design, and develop games and mobile and desktop applications that can be produced in the real world. Students will learn about life-cycles of project development and use models to develop applications. Attention will be placed on how user interfaces affect the usability and effectiveness of a game or an application. Programming constructs will be employed which will allow students' applications to interact with "real world," stimuli. The course exposes students to privacy, legality, and security considerations with regards to the software industry. This is the third course in the Programming pathway.</p>	<p><b>11.4720099</b></p>	<p>1.0</p>	<p>Computer Science Principles and/or AP Computer Science Principles and/or AP Computer Science A</p>
<p><b><u>Introduction to Culinary Arts</u></b>  Introduction to Culinary Arts is the foundational course designed to introduce students to fundamental food preparation terms, concepts, and methods in Culinary Arts where laboratory practice will parallel class work. Fundamental techniques, skills, and terminology are covered and mastered with an emphasis on basic kitchen and dining room safety, sanitation, equipment maintenance and operation procedures.</p>	<p><b>20.5310099</b></p>	<p>1.0</p>	<p>N/A</p>
<p><b><u>Culinary Arts I</u></b>  As the second course in the Culinary Arts Career Pathway, Culinary Arts I is designed to create a complete foundation and understanding of Culinary Arts leading to postsecondary education or a food-service career. This fundamentals course begins to involve in-depth knowledge and hands-on skill mastery of culinary arts.</p>	<p><b>20.5321099</b></p>	<p>1.0</p>	<p>Introduction to Culinary Arts</p>
<p><b><u>Culinary Arts II</u></b>  As the third course in the Culinary Arts Pathway, Culinary Arts II is an advanced and rigorous in-depth course designed for the student who is continuing in the Culinary Arts Pathway and wishes to continue their education at the postsecondary level or enter the food-service industry as a proficient and well-rounded individual. Strong importance is given to refining hands-on production of the classic fundamentals in the commercial kitchen.</p>	<p><b>20.5331099</b></p>	<p>1.0</p>	<p>Introduction to Culinary Arts and Culinary Arts I</p>
<p><b><u>Occupational Safety and Fundamentals (IFOS)</u></b>  This course is designed as the foundational course in the Carpentry, Plumbing, Electrical, Masonry, Machining, Welding, Sheet Metal, Heating, Ventilation, Air Conditioning and Refrigeration, and HVACR Electrical pathways to prepare students for pursuit of any career in construction.</p>	<p><b>46.5450099</b></p>	<p>1.0</p>	<p>N/A</p>

<p><b><u>Introduction to Construction</u></b>  This course offers an opportunity for students to build on their knowledge and skills developed in Occupational Safety. It introduces them to four construction craft areas and is also the second course towards gaining a Level One Industry Certification in one of the craft areas. The goal of this course is to introduce students to the history and traditions of the carpentry, masonry, plumbing, and electrical craft trades. Students will explore how the various crafts have influenced and been influenced by history. The student will also learn and apply knowledge of the care and safe use of hand and power tools as related to each trade. In addition, students will be introduced to, and develop skills to differentiate between blueprints, as is related to each individual craft area.</p>	46.5460099	1.0	IFOS
<p><b><u>Carpentry I</u></b>  This course is the third of four courses that provides the student a solid foundation in carpentry skills and knowledge. It is the third course in gaining a Level One Industry Certification in Carpentry. This course provides an overview of the building materials used in the carpentry craft. It teaches techniques for reading and using blueprints and specifications especially as related to the carpentry craft. It provides specific knowledge and skills in site layout and floor and wall framing systems. It includes the basic industry terminology for a carpentry craftsman.</p>	46.5500099	1.0	IFOS and Introduction to Construction
<p><b><u>Introduction to Drafting &amp; Design</u></b>  Introduction to Drafting and Design is the foundational course for the Architectural Drafting and Design and Engineering Drafting and Design pathways. Emphasis is placed on safety, geometric construction, fundamentals of computer- aided drafting, and multi-view drawings. Students learn drafting techniques through the study of geometric construction at which time they are introduced to computer-aided drafting and design. The standards are aligned with the national standards of the American Design Drafting Association (ADDA).</p>	48.5410099	1.0	N/A
<p><b><u>Survey of Engineering Drawing</u></b>  Survey of Engineering Drawing is the second course in the Engineering Drafting and Design Career Pathway. The course is designed to build student skills and knowledge in the field of engineering graphics/technical drafting. The course focus includes employability skills, career opportunities, applied math, working drawings that include sectional, auxiliary, detail and pictorial views, and pattern developments. In addition, elements in applied mathematics are integrated throughout the course.</p>	48.5420099	1.0	Introduction to Drafting & Design
<p><b><u>3-D Modeling and Analysis</u></b>  Three-Dimensional (3D) Modeling and Analysis is a one-credit course that completes the pathway in Engineering Drafting and Design. Reverse engineering strategies are recommended for third level working drawings. Computer-aided design (CAD) is recommended for use extensively with each standard in the course. Focus is on employability strategies, career studies, applied math, fasteners, working drawings, and assembly drawings. Students will have the opportunity to take the</p>	48.5430099	1.0	Introduction to Drafting & Design and Survey of Engineering Graphics

national Autodesk Industry Certification at the end of the course.			
<p><b><u>Architectural Drawing/Design I</u></b>  Architectural Drawing and Design I is the second course in the Architectural Drawing and Design pathway and introduces students to the basic terminology, concepts, and principles of architectural design. Emphasis is placed on house designs, floor plans, roof designs, elevations (interior and exterior), schedules, and foundations. The standards are aligned with the drafting and design standards in Georgia’s technical colleges, thus helping students qualify for advanced placement to continue their education at the postsecondary level.</p>	<b>48.5450099</b>	1.0	Introduction to Drafting & Design
<p><b><u>Architectural Drawing/Design II</u></b>  Architectural Drawing and Design II is the third course in the Architectural Drawing and Design pathway and builds on the skills developed in Architectural Drawing and Design I. Emphasis is placed on the design process, site plans, electrical plans, plumbing plans, sections and details, project presentations, and a course portfolio. Students who successfully complete this and other drafting courses should be prepared to take an End of Pathway Assessment. Students will have the opportunity to take the national Autodesk Industry Certification at the end of the course.</p>	<b>48.5460099</b>	1.0	Introduction to Drafting & Design And Architectural Draw/Design I
<p><b><u>Introduction to Graphics &amp; Design</u></b>  This course is designed as the foundational course for both the Graphics Production and Graphics Design pathways. The Graphics and Design course provides students with the processes involved in the technologies of printing, publishing, packaging, electronic imaging, and their allied industries. In addition, the Graphics and Design course offers a range of cognitive skills, aesthetics, and crafts that includes typography, visual arts, and page layout.</p>	<b>48.5610099</b>	1.0	N/A
<p><b><u>Graphic Design &amp; Production</u></b>  As the second course in the Graphics Communication and Graphics Design Pathways, this course builds on knowledge and skills learned in the Introduction to Graphics and Design course and focuses on procedures commonly used in the graphic communication and design industries. Students will gain more experience in creative problem solving and the practical implementation of those solutions across multiple areas of graphic design and graphic communications.</p>	<b>48.5620099</b>	1.0	Introduction to Graphics & Design

<p><b><u>Advanced Graphic Design</u></b>  Students will continue to explore in an increasingly independent manner, the principles of design and layout procedures relating to the field of graphic design. Content will cover electronic systems and software programs used in graphic design, page composition, image conversion, and digital printing.</p>	<p><b>48.5280099</b></p>	<p>1.0</p>	<p>Introduction to Graphics &amp; Design and Graphic Design &amp; Production</p>
<p><b><u>Advanced Graphic Output Processes</u></b>  As the third course in the Graphics Communication Pathway, students will gain more advanced levels of experience to complete the output processes of various projects in an increasingly independent manner. Students also learn to manage the output and completion process as a whole including customer relations management, printing, finishing, and binding. Students will continue to accumulate work samples that will constitute their personal portfolio.</p>	<p><b>48.5700099</b></p>	<p>1.0</p>	<p>Advanced Graphic Design &amp; Production</p>
<p><b><u>Audio &amp; Video Tech &amp; Film I</u></b>  This course will serve as the foundational course in the Audio &amp; Video Technology &amp; Film pathway. The course prepares students for employment or entry into a postsecondary education program in the audio and video technology career field. Topics covered may include, but are not limited to: terminology, safety, basic equipment, script writing, production teams, production and programming, lighting, recording and editing, studio production, and professional ethics.</p>	<p><b>10.5181099</b></p>	<p>1.0</p>	<p>N/A</p>
<p><b><u>Audio &amp; Video Tech &amp; Film II</u></b>  This one credit course is the second in a series to prepare for a career in Broadcast/Video production and/or to transfer to a postsecondary program for further study. Topics include: Planning, Writing, Directing and Editing a Production; Field Equipment Functions; Operational Set-Up and Maintenance; Advanced Editing Operations; Studio Productions; Performance; Audio/Video Control Systems; Production Graphics; Career Opportunities; and Professional Ethics.</p>	<p><b>10.5191099</b></p>	<p>1.0</p>	<p>Audio Video Tech Film I</p>
<p><b><u>Audio &amp; Video Tech &amp; Film III</u></b>  This one credit transition course is designed to facilitate student-led broadcasts/videos under the guidance of the instructor. Students work cooperatively and independently in all phases of broadcast/video production.</p>	<p><b>10.5201099</b></p>	<p>1.0</p>	<p>Audio Video Tech Film II</p>
<p><b><u>Broadcast/Video Applications</u></b>  BVP Applications designed to assist students in mastering skills necessary to gain entry level employment or to pursue a post-secondary degree or certificate. Topics include advanced camcorder techniques, audio production, scriptwriting, producing, directing, editing, employability skills, and development of a digital portfolio to include resume', references, and production samples. This course is laboratory based and allows the student to further develop skills and competencies learned in earlier courses. Emphasis is on performing at an independent level of proficiency and refine building a digital portfolio of his/her work for college entrance or industry placement. Topics of this laboratory-based course include specialization selection, production, career portfolio, communication skills, and professional ethics.</p>	<p><b>10.5141099</b></p>	<p>1.0</p>	<p>Audio Video Tech Film III</p>

<p><b><u>Broadcast/Video Production Lab</u></b>  This course is laboratory based and allows the student to further develop skills and competencies learned in earlier courses. Emphasis is on performing at an independent level of proficiency and refine building a digital portfolio of his/her work for college entrance or industry placement. Topics of this laboratory based course include specialization selection, production, career portfolio, communication skills, and professional ethics.</p>	<p><b>10.5151099</b></p>	<p>1.0</p>	<p>Broadcast Video Applications  Teacher Recommendation</p>
<p><b><u>Broadcast Production/Research</u></b>  Production Research is an advanced course in broadcast producing and directing and is intended to provide great challenge and sense of accomplishment. The course is intended to prepare the student to thoroughly design and successfully execute a series of advanced broadcasting productions. This course stimulates the student to explore the potentials of the medium and to discover those materials, instruments, and techniques that are unique to the broadcasting medium.</p>	<p><b>10.5161099</b></p>	<p>1.0</p>	<p>Broadcast/Video  Teacher Recommendation</p>
<p><b><u>Broadcast/Video Production Management</u></b>  This course is designed to allow students to experience the workplace through management opportunities. Throughout the management course, the student will gain interpersonal skills, demonstrate work ethics, and work with various broadcasting processes related to the field of broadcast/video production.</p>	<p><b>10.5171099</b></p>	<p>1.0</p>	<p>BVP Lab</p>
<p><b><u>NJROTC I-IV</u></b>  The purpose of this course is to help students understand the missions, goals, and opportunities available as members of the NJROTC program. This course will also introduce students to the basic principles of leadership, which combined with the many opportunities for practical experience in the NJROTC program will prepare them for leadership roles in school and upon graduation. Students will gain an understanding of our nation, our values, traditions, heritage, respect for our laws, as well as becoming involved, responsible citizens. Course level to be determined by instructor.</p>	<p><b>Yearlong Course</b>   <b>28.0230099</b></p>	<p>1.0</p>	<p>NJROTC I – N/A  Level II and higher courses –  NJROTC I and the appropriate courses for the level of course</p>

## Fine Arts

Course Name/ Description	Course Number	Credit	Prerequisite
<p><b><u>Band</u></b> are band performance classes that focus on the fundamentals of tone, production, music reading and performance. <b>(Level to be determined by director)</b></p>	<b>53.0361099</b>	1.0	N/A <b>YEAR LONG COURSE</b>
<p><b><u>Chorus</u></b> provides performers opportunities to increase performance skills and knowledge in choral singing. Covers performance and production, analysis and theoretical studies, historical and cultural contributions and influences, creative aspects of music, and appreciation of music. <b>(Level to be determined by director)</b></p>	<b>54.0211099</b>	1.0	N/A <b>YEAR LONG COURSE</b>
