

Friday Challenges at COLA

Friday, 12/1

Challenge: Design and build something new to solve a problem you are having with 3D pens.

Ideas: Build a new phone case or pen holder for your desk!

**High School Students*
10:00 am-11:30 am
Middle School Students 11:30-1:00 pm**

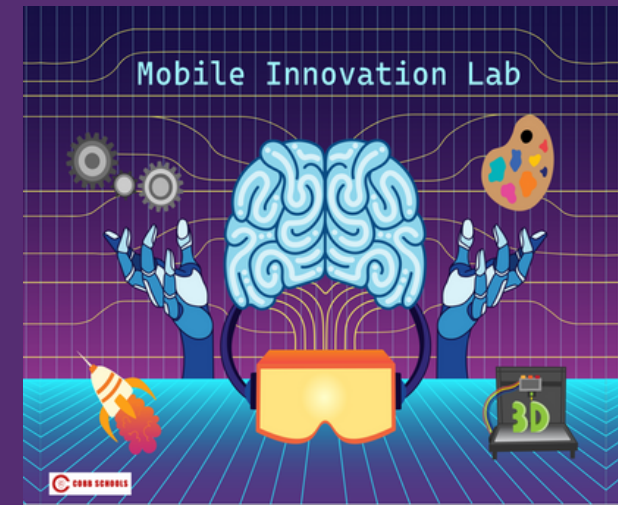

**High Schoolers-Looking for service hours? Stay and help out with the middle school challenge!*

Bring your ideas! We will brainstorm possible problems and design solutions! Then, all students will have a chance to design and build their solution using a 3D pen. Students can also build their design in Tinkercad and some prototypes will be printed on a 3D printer.

Free Merch and drawings for prizes!

Can't attend in person?

No worries, online challenges will be posted after each Friday event!
