

AP Chemistry

2025-2026 Summer Review

Pope High School

Dear AP Chemistry Students,

We are looking forward to the school year and the work we're going to do together.

This packet is meant to refresh or help instruct you on several things you will want to have firmly in mind for the start of school. We recommend that you review your Honors Chemistry notes and start looking at this material several weeks before school starts in the fall. If you have never had Chemistry before; online tutorials I like: Tyler DeWitt, The Organic Chemist, Khan Academy. There is a free textbook resource called OpenStax that has a Chemistry textbook you can use online.

Good luck and have a wonderful and productive summer!

I'm looking forward to a fantastic year in AP Chemistry!

Sincerely,

Chris Smith
