

2026-2027 APUSH Summer Assignment

1. Go to <https://www.apushreview.com/new-ap-curriculum/period-reviews-in-10-minutes/>
2. **Watch each unit review video** (there are 9 total units, with a review video for each one to be watched)
 - These videos are essentially a crash-course introduction to everything you will learn this year
 - **Take notes as you watch the videos**
 - Your **first test** when the semester starts will be **open-note** over these 9 videos using the notes you take
 - The test is designed to see if you watched the videos more than an expectation of strong content knowledge. If you watch the videos you should do well so don't stress on taking ultra-detailed notes. Just focus on watching the videos and recognizing major themes/topics
