

SUMMER CAMP

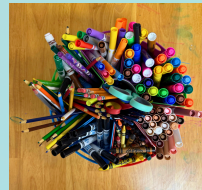

Grow social skills, confidence, and creativity.

Art It Out offers weekly social-emotional skills camps for children from Pre-K through entering 9th grade in a small group setting. Led by master-level clinicians, campers participate in evidence-based activities that strengthen social skills, peer interactions, and emotional regulation. Through creative expression and interactive games, children practice skills in a fun, hands-on environment. Our approach helps kids build meaningful connections, gain confidence, and develop tools they can carry with them long after camp ends—all while having a great time.
