

BDF Review of Administrative Rules

11/10/22

The Cobb County Board of Education (Board) reserves the right to review Administrative Rules (Rules) at its discretion.

Proposed or revised Rules shall be sent to the Board for their review in advance of issuance. Specifically, Board review shall include at least the ten (10) days immediately prior to the next Board Work Session. If no objection is indicated by Board member(s) to the Chair prior to the adjournment of the Board Work Session, the Rule shall be deemed accepted.

If there is an objection, the objecting Board member shall notify the Chair of the objection, and the Chair shall add the proposed Rule to the Work Session agenda for discussion and action, if appropriate.

Changes in wording of a conforming or editorial nature such as the correction of scrivener errors, changes of personnel titles, wording clarifications, legal references, etc., which do not alter the intent or provisions of the Rule, may be made by administration but only published after such changes have been communicated to the Board. Changes required as a result of new or revised federal or state law, including State Board of Education rules are also considered conforming changes.
