COBB CHEROKEE

K - 2ND

Jr Programming
2:45 - 3:45 Fridays

Introduce your child to STEM and simple programming with this exciting tablet-based course. Students will create interactive images, computer games, and story animations.

While they are busy creating and having fun, students will be learning basic programming, critical thinking, and problem-solving skills that will benefit them long after the course is over.
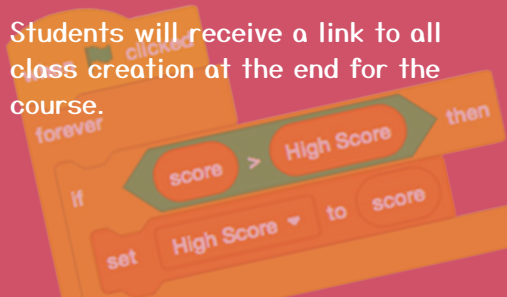

3RD - 5TH

Game Creation 101
4:00 - 5:00 Fridays

Why just play video games when you can learn to code your own?! Using Scratch 3, you will learn how to create your very own games from beginning to end. Learn essential programming terminology and skills as you build multiple games with varying play styles.

Students will receive a link to all class creation at the end for the course.
