

# LEGO STEM ROBOTICS @ BELLS FERRY

**Mondays, January 27 - April 28, 2025, 2:45-3:45 pm**

**Excluding No school & Early Release Days (K-5<sup>th</sup>)**

Bricks 4 Kidz Classes build on the universal popularity of LEGO® Bricks to deliver a high quality of educational play. Each class is a fun, enriching experience for your child. Kids build a new project each class using the classic and technic LEGO® pieces such as gears, axles and electric motors loved by generations of children.

Bricks 4 Kidz LEGO® Robotics provides invaluable opportunities for students to build upon skills such as reading, writing, research and problem-solving. We seek to combine fun team building and memory-making with learning, discovery and innovation.

.....  
 Under the guidance of experienced teachers, our LEGO®-based engineering gives kids the chance to apply real-world STEM concepts. Kids work together to build their own Bricks 4 Kidz models and embrace their own creativity through free play periods. For bonus fun, projects are often tied to popular themes like robotics, space, parks, movies and games. Kids build a LEGO mini figure to take home.

**we learn, we build, we play with**  
**LEGO® Bricks**
