Class Participation Policy:

Students should follow the Class Schedule (located in Class Information area of class) and all class work must be submitted no later than 11:59 PM on the due date.

After the due date has passed, instructors will check the "Missing" box in the Grade Center for work not submitted by the deadline. This populates an orange question mark icon, and calculates as a 0 into the overall class average. During student breaks and toward the end of the semester, students may have the opportunity to improve their class grade by completing and submitting work with grades of zero from earlier in the semester. Missing work will remain in the Grade Center until class work is submitted and evaluated by the instructor.

The CVA term ends prior to the end of the traditional school semester. The final date work will be accepted each term is posted on the CVA website (cobbvirtualacademy.org).

Tips For Success:

To achieve success, students are expected to submit work in each class weekly. Students can learn at their own pace; however, "any pace" still means that students must make progress in the class every week. To measure learning, students complete self-checks, practice lessons, multiple choice questions, projects, discussion-based assessments, and discussions. Students are expected to maintain regular contact with teachers; the minimum requirement is monthly. When teachers, students, and parents work together, students are successful.

Class Specific Information

- Pay special attention to the tips for online language learning that the first lesson provides.
- The Introduction to Online Language Learning provides step by step instructions for how to use the Speech Practice Tool within the class. Pay special attention to the instructions about browser compatibility and device microphone settings.
- You will need to learn and use keyboard codes (shortcuts) for special symbols and characters in the French alphabet. These are linked for you in the Class Information link of your CTLS class. It may help to download and print them to post in the area where you complete your assignments for this class.
- Resist the temptation to use online translators – these are designed to help people in day-to-day life situations that don't require language fluency. Online translators are inaccurate and hinder language learning.
