December 2, 2020

To the Members of the Cobb County Board of Education and Citizens of Cobb County, Georgia:

We are pleased to submit to you the comprehensive annual financial report (CAFR) of the Cobb County School District (District) for the fiscal year ended June 30, 2020. This report conforms to generally accepted accounting principles as applicable to governmental entities. The Financial Services Division prepared this report. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the District's administration and is presented for your careful review.

We believe the data, as presented, is accurate in all material aspects; that it is presented in a manner designed to fairly set forth the financial position and results of operations of the District as measured by the financial activity of its various funds; and that all disclosures necessary to enable the reader to gain the maximum understanding of the District's financial activity have been included. A comprehensive framework of internal control is in place to give reasonable assurance that the financial statements are free of any material misstatements. Because the cost of internal controls should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Readers of this report are encouraged to consider the information presented here in conjunction with additional information presented in the Management's Discussion and Analysis beginning on page five of this report.

PROFILE OF THE SCHOOL DISTRICT

Cobb County School District is one of two public school districts located in Cobb County, Georgia. The District serves the entire county area with the exception of the City of Marietta, which has its own independent school district. It provides a program of public education from kindergarten through grade twelve. The purpose and responsibility of the District is to provide a thorough and efficient educational system for the children enrolled in public schools within its boundaries whereby each child has access to programs and services that are appropriate to his or her educational needs.

The District is the second largest school system in Georgia and the 23rd largest in the United States with an active daily enrollment of 111,760. The District is governed by a Board of Education consisting of seven members elected from seven county posts. Members serve four-year terms and each year appoints a chairperson and vice-chairperson. The Board appoints a Superintendent to oversee the day-to-day administration of the School District.

 BOARD OF EDUCATION
 Brad Wheeler, Chair • David Banks, Vice Chair

 David Chastain • Charisse Davis • Jaha Howard • David Morgan • Randy Scamihorn

Mr. Chris Ragsdale currently serves as the Superintendent of the Cobb County School District. Mr. Ragsdale also previously served as the Deputy Superintendent for Operations and as the Chief Technology Officer. During his tenure with the District, he has managed plant operations, provided oversight for the District's technology integration, and been responsible for planning and execution of capital projects approved by Cobb voters and funded by the Special Purpose Local Option Sales Tax. Mr. Ragsdale holds a Bachelor of Science in Information Systems and a Master's Degree in Educational Leadership, both from Kennesaw State University and is also the recipient of Kennesaw State University's Distinguished Alumni Award. He has more than two decades of experience in school operations and information technology in the public and private sectors, including roles as Chief Information Officer for nearby Paulding County Schools and in network and database management for Bellsouth (AT&T) and IBM.

The District prides itself on providing a quality educational experience to all of our students, while efficiently managing our resources. Here are a few of the many accomplishments from the 2020 fiscal year:

- The District average score on the SAT of 1107 was 64 points higher than the state average and 77 points higher than the national average.
- The four-year graduation rate for Cobb high schools was 88.6% in 2020, an increase of 1.6% from 2019. Cobb exceeds the state graduation rate of 83.8% by 4.8 percentage points.
- Georgia Milestones testing was suspended for the 2019-2020 school year due to COVID-19.
- A key state performance measure for student academic achievement is the College and Career Readiness Performance Index (CCRPI). The District has outperformed the state average for eight consecutive years ending with the 2018-2019 school year. CCRPI testing and reporting was also suspended for the 2019-2020 school year, due to the COVID-19 pandemic.

Another notable achievement was the recognition of the Cobb County School District as one of America's "Best-in-State Employers" by Forbes. The District was recognized first in 2019, and again in 2020, and moved up from #23 to #22 this past year. It is one of only two school district to make the Top 25 in Georgia and landed ahead of notable Georgia companies such as The Home Depot, UPS, and Coca-Cola.

More details may be obtained through the District's Communications Department.

The District has reviewed its operating entity definition in order to ensure conformance with the Governmental Accounting Standards Board Statement No. 61, "The Financial Reporting Entity: Omnibus an Amendment of GASB Statements No. 14 and No. 34." This report includes all funds and account groups of the District. The District is not included in any other reporting entity, and no other entities are included within this report.

The District maintains budgetary controls to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Cobb County Board of Education. Activities of the General Fund and Special Revenue Funds are included in the annual appropriated budget. Capital Projects Funds are budgeted on a multi-year, project-length basis. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established by function within an individual fund.

ECONOMIC CONDITION AND OUTLOOK

The District is located in the northwest quadrant of the Atlanta metropolitan area. Metropolitan Atlanta is a national center for finance, transportation, distribution and communications. In 2019 (most recent figures available), Cobb County continued its trend of a growing population, which increased from 689,655 in 2010 to 760,141 in 2019. The unemployment rate remained low at 3.0%. Student enrollment for the 2020 fiscal year was 111,760.

We are pleased by the positive increase in property values in fiscal year 2020 and expect this trend to continue into fiscal year 2021. In fiscal year 2020 the District's gross property digest increased by 5.5% over the 2019 fiscal year's digest as compared to an increase of 8.5% the previous year. This sustained increase in property valuations provides a stable and growing revenue source.

LONG-TERM FINANCIAL PLANNING

The District anticipates continuing to meet its projected capital improvement needs by means of county special sales tax revenues. On March 21, 2017, the voters of Cobb County approved the continuation of the Education Special Purpose Local Option Sales Tax (Ed-SPLOST V), beginning January 1, 2019 and ending December 31, 2023. The revenue generated from the 1% special education sales tax has been or will be used to construct new schools, improve existing schools, construct major additions to many schools, improve technology and security throughout the District and acquire land for future expansion. A schedule of District school buildings and their ages can be found on pages 148-155, in the statistical section. The District anticipates acquiring a short-term construction loan in the next fiscal year, which will expedite the completion of various construction projects authorized by the new SPLOST V Special Sales Tax Initiative. The District's exceptional Aaa credit rating, first issued by Moody's in 2015, and reaffirmed in 2017, should qualify the District for a competitive interest rate.

OTHER INFORMATION

New Educational Model: The Cobb County School District has now completed its third year as a Strategic Waiver School System. A chief reason for selecting this model over the charter system model was the greater ability to develop customized student achievement plans for individual schools.

Independent Audit: The financial statements have been audited by Mauldin & Jenkins, LLC, whose opinion is expressed on page 1. The District complies with the requirements of the Single Audit Act and associated reports and schedules are presented in a separately issued Report of Independent Certified Public Accountants in Accordance with the Uniform Guidance and *Government Auditing Standards*.

Financial Reporting Awards: Every year since 1980, our comprehensive annual financial report has earned a Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association of the United States and Canada (GFOA). Additionally, the District's comprehensive annual financial report received the Association of School Business Officials' (ASBO) Certificate of Excellence in Financial Reporting every year since 1984.

These prestigious awards are made only to government units which publish a comprehensive annual financial report that is easily readable, efficiently organized, and conforming to program standards and satisfies generally accepted accounting principles and applicable legal requirements. The awards are valid for a period of one year only. We believe the accompanying report continues to conform to award eligibility and will submit it for determination as appropriate.

Budget Presentation Award: The District prepares an official budget document each year which is issued as a separate report. Since 1990, the district has received the Distinguished Budget Presentation Award from GFOA. In order to receive this award, the District must publish a budget document that meets program criteria as a policy document, a financial plan, an operations guide, and as a communications device. The award is valid for a period of one year only. We have received the Meritorious Budget Award from ASBO every year since 2005. The criteria required by ASBO includes an introductory, organizational, financial and information section. We believe the most recent budget continues to conform to program requirements, and we are submitting it to GFOA and ASBO to determine its eligibility for another award.

Acknowledgments: We wish to express our appreciation to Jan Hendrix, Director of Accounting Services, and to the entire staff of the Financial Services Division whose dedicated efforts have enabled this report to be prepared on a timely basis.

The active involvement and professional support of Mauldin & Jenkins, LLC Audit Director, Christopher McKellar, and his auditing staff have been instrumental in the prompt completion of the associated audit of this report.

In closing, sincere gratitude is expressed to the Board of Education for their leadership and dedication to the Cobb County School District, its taxpayers, employees, and, most importantly, its students. To the citizens of the Cobb County School District, please accept our gratitude for your support of our successful school district.

Respectfully submitted,

Chris Ragsdale Superintendent

Bradley Reuben Johnson Chief Financial Officer

Government Finance Officers Association

Certificate of Achievement for Excellence in Financial Reporting

Presented to

Cobb County School District Georgia

For its Comprehensive Annual Financial Report For the Fiscal Year Ended

June 30, 2019

Christophen P. Morrill

Executive Director/CEO

David J. Lewis Executive Director

COBB COUNTY SCHOOL DISTRICT FUNCTION AND COMPOSITION JUNE 30, 2020

All matters relating to education and operations in the Cobb County School District are governed and controlled by the Board of Education as provided by Georgia law. The Board has the responsibility to maintain a uniform system of public schools providing quality education for all young people of Cobb County. With the advice of the superintendent, the Board must determine the policies and prescribe the rules and regulations for the management and administration of the school system.

Generally, the Board holds public meetings twice a month to conduct normal business with special sessions as needed. The Board is composed of seven members who are each elected for four years from one of seven geographical districts in the county. The Board elects a chairman and vice-chairman from the seven members to govern the body for a one year period. As of June 30, 2020, the members of the Board and years of expiration of their terms are as follows:

<u>Title</u>	Name	<u>Term Expires</u>
Chair	Mr. Brad Wheeler	December 31, 2020
Vice-Chair	Mr. David Banks	December 31, 2020
Board Member	Mrs. Charisse Davis	December 31, 2022
Board Member	Dr. Jaha Howard	December 31, 2022
Board Member	Mr. David Morgan	December 31, 2020
Board Member	Mr. David Chastain	December 31, 2022
Board Member	Mr. Randy Scamihorn	December 31, 2020

COBB COUNTY SCHOOL DISTRICT ORGANIZATIONAL CHART JUNE 30, 2020

INDEPENDENT AUDITOR'S REPORT

To the Superintendent and Members of the Cobb County Board of Education Marietta, Georgia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the **Cobb County Board of Education** as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Cobb County Board of Education's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Cobb County Board of Education as of June 30, 2020, and the respective changes in financial position, and, where applicable, cash flows thereof and the budgetary comparison for the General Fund, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 16, the Cobb County Board of Education implemented Governmental Accounting Standards Board (GASB) Statement No. 84, *Fiduciary Activities*, as of July 1, 2019. This standard significantly changed the accounting for the Cobb County Board of Education's fiduciary activities. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Schedule of Proportionate Share of Net Pension Liability – Teacher Retirement System of Georgia, Schedule of Contributions – Teacher Retirement System of Georgia, Schedule of Proportionate Share of Net Pension Liability – Public School Employee Retirement System of Georgia, Schedule of Proportionate Share of the Net OPEB Liability – School OPEB Fund, and the Schedule of Contributions – School OPEB Fund, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Cobb County Board of Education's basic financial statements. The combining and individual fund financial statements and schedules, the SPLOST IV schedule of expenditures of Special Purpose Local Option Sales Tax Projects, the SPLOST V schedule of expenditures of Special Purpose Local Option Sales Tax Projects and the introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules, the SPLOST IV schedule of expenditures of Special Purpose Local Option Sales Tax Projects, and the SPLOST V schedule of expenditures of Special Purpose Local Option Sales Tax Projects are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules, the SPLOST IV schedule of expenditures of Special Purpose Local Option Sales Tax Projects, and the SPLOST V schedule of expenditures of Special Purpose Local Option Sales Tax Projects, are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 2, 2020 on our consideration of the Cobb County Board of Education's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Cobb County Board of Education's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Cobb County Board of Education's internal control over financial reporting and compliance.

Mauldin & Jerkins, LLC

Atlanta, Georgia December 2, 2020

MANAGEMENT'S

DISCUSSION

AND ANALYSIS

COBB COUNTY SCHOOL DISTRICT Management's Discussion and Analysis JUNE 30, 2020

The discussion and analysis of the Cobb County School District's (subsequently referred to as the District) financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2020. The intent of this discussion and analysis is to look at the District's financial performance as a whole. Readers should also review the transmittal letter and complete financial statements, with notes, to enhance their understanding of the District's financial performance.

Financial Highlights

Key financial highlights for fiscal year 2020 are as follows:

- Total net position, as restated, increased from \$122.8 million in fiscal year 2019 to \$175.2 million in fiscal year 2020, an increase of \$52.4 million, primarily due to the combined increase in District cash and capital assets of \$169 million, due to increased state instructional funding and the completion of several large District building construction projects. This was largely offset by a \$134.6 million increase in long-term liabilities, primarily due to actuarially estimated increases in future long-term pension and post-employment costs.
- Total revenue increased from \$1,428.8 million in fiscal year 2019 to \$1,518.2 million in fiscal year 2020, an increase of \$89.4 million. The revenue increase was mainly from an increase in state funding and also from increased local property taxes due to higher property valuations.
- Total expenses increased from \$1,288.3 million in fiscal year 2019 to \$1,465.5 million in fiscal year 2020, an increase of \$177.2 million. The increase in expense was largely due to a 8.0% salary increase to all permanent employees, as well as a higher actuarial estimate of future pension and post-employment benefit costs.

Overview of the Financial Statements

This discussion and analysis serves as an introduction to the District's basic financial statements. The basic financial statements comprise three components: 1) District-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

District-wide Financial Statements

The District-wide financial statements provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

COBB COUNTY SCHOOL DISTRICT Management's Discussion and Analysis JUNE 30, 2020

The Statement of Net Position presents information on all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the difference between them reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The Statement of Activities presents information showing how the District's net position changed during the most recent fiscal year. Changes in net position appear as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses appear in this statement for some items that will result in future fiscal period cash flows (e.g., uncollected taxes and earned but unused vacation leave).

Fund Financial Statements

A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with financerelated legal requirements. District funds are in one of two categories: governmental funds and proprietary funds.

Governmental Funds

Most of the District's activities are reported in governmental funds. The governmental fund statements focus on how money flows in and out of those funds and on the balances left at year-end that are available for spending in future periods. These statements also provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The District maintains numerous governmental funds with the majority of activity occurring in the General Fund.

Proprietary Funds

Proprietary funds are those used to account for ongoing organizations and activities which are similar to those found in the private sector. The District's proprietary funds are internal service funds and report activities that provide supplies and services for its other programs and activities. The District's internal service funds consist of the Unemployment Compensation Fund and the Self-Insurance Fund.

District-wide Financial Analysis

The Condensed Statement of Net Position Table (Table I), presented on the following page, summarizes and compares the Statement of Net Position for fiscal year 2019 and fiscal year 2020.

In fiscal year 2020, the District's net position increased 42.7%, or \$52.4 million, over the prior year, as restated. This resulted primarily from a net increase of both assets and liabilities as described below.

Total current and other assets reflected a net increase of 14.1%, or \$72.6 million, largely due to an increase in cash as a result of higher state educational funding and increased property tax revenue due to an increase in property values. Capital Assets increased by 7.1%, or \$110.6 million, which was chiefly attributable to both new construction and capital improvements to local school buildings financed by SPLOST sales taxes.

Governmental accounting standards require the District to report its proportional liability of state-administered pension plans and now the proportional liability of post-employment Benefits, namely retiree health insurance.

Changes in Net Position from Operating Results

The Changes in Net Position from Operating Results Table (Table II), presented on the following page, summarizes and compares the Statement of Activities for fiscal year 2019 and fiscal year 2020.

Revenues

In fiscal year 2020, the District's total revenues increased 6.3%, or \$89.3 million, over the prior year due primarily to increases in state funding and increased property tax revenue.

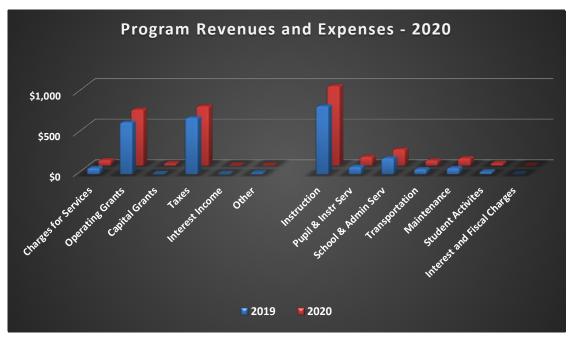

- Charges for services decreased by 10.6% or \$8.0 million primarily due to the premature closing of schools in March due to the pandemic. Local school nutrition revenue decreased \$3.9 million and ASP revenue decreased by \$1.9 million.
- Operating grants and contributions increased by 8.4%, or \$53.3 million, largely due to an increase in state instructional program revenue.
- Capital grants and contributions increased by 371.4%, or \$20.8 million, primarily due to state grants to fund new school construction and improvements.
- General property taxes increased 6.2%, or \$34.0 million, mainly due to a 6.0% increase in the real property tax digest.
- Interest income decreased 19.1%, or \$1.3 million, due primarily due to the decline in market interest rates.
- Other revenue decreased by 79.7%, or \$12.2 million. This was primarily due to the absence of large gains on sale of capital assets that were realized in fiscal year 2019.

Expenses

In fiscal year 2020, the District's total expenses increased 13.8%, or \$177.2 million, due primarily to higher salary costs from the 8% raise, and higher pension and post-employment benefit costs due to a higher actuarial estimate of future pension and retiree benefit costs.

- Instruction increased by 17.1%, or \$142.8 million, largely due to the 8% salary raise and higher pension and post-employment benefit costs as compared to last year.
- Pupil and instructional services increased by 17.9%, or \$16.2 million, also due to the 8.0% salary raise and higher pension and post-employment benefit costs.
- School and administrative services increased 1.4%, or \$2.7 million.
- Student transportation increased by 3.1%, or \$1.9 million, primarily from the 8.0% salary raise received by the bus drivers.
- Maintenance and operations increased by 21.0% or \$15.7 million, primarily from the salary increase and higher pension and retiree benefit costs.
- Student activities decreased by 7.0% or \$2.2 million, primarily from COVID 19 as field trips and other activities were cancelled.

Table III

Net Cost of Governmental Activities (amounts expressed in thousands)

Governmental Activities

The Net Cost of Governmental Activities Table (Table III) presents the total and net cost of eight major District activities for fiscal year ended June 30, 2020: Instruction, Pupil Services, Instructional Services, School and Administrative Services, Student Transportation, Maintenance and Operations, Student Activities, and Interest and Fiscal Charges.

COBB COUNTY SCHOOL DISTRICT Management's Discussion and Analysis JUNE 30, 2020

Net Cost of Services is the total cost less fees generated by the activities and intergovernmental revenue provided for specific programs. The net cost shows the financial burden on the District's taxpayers by each activity. The total cost of governmental services in fiscal year 2020 was \$1,465.5 million. Users of the District's programs financed \$67.4 million of the costs. Federal and State grants, subsidized programs and contributions funded \$714.1 million of the costs. Lastly, District taxpayers financed the remaining costs of fiscal year 2020, which totaled \$675.4 million.

The School District's Funds

The District ended fiscal year 2020 with a healthy fund balance in its governmental funds. The combined balance of all governmental funds, at \$285.8 million, was 6.9% lower than 2020's ending balance, as restated, of \$301.0 million. The General Fund's fund balance increased by \$36.9 million, or 19.7%, due primarily to increased state funding and greater property tax revenue. SPLOST V, the District's primary capital improvement fund, had an ending fund balance of \$0.2 million, which was 97.2% lower than 2020's ending balance of \$7.8 million, due to extensive capital investment in multiple District construction projects. The System Wide/County-Wide Fund decreased its fund balance by 68.3% from the prior year, or \$0.5 million. The nonmajor governmental fund balances increased in the aggregate by \$50.0 million, or 45.1%. This increase was due to the reclassification of SPLOST IV from a major fund to a nonmajor fund in the current fiscal year, as SPLOST IV had a fund balance of \$27.6 million, pending the completion of specific capital improvement projects.

General Fund Budgetary Highlights

The most significant fund for the District is the General Fund, funded primarily through state revenue and local property tax revenue. The State of Georgia is required to maintain a balanced budget (a constitutional requirement in Georgia), as are all state-funded school districts.

The District transitioned to an all virtual instructional model on March 16, 2020, due to the COVID-19 pandemic. Despite this hardship, District administration chose to continue to pay the salaries of all permanent employees through the end of the school year. We are very pleased with the financial results of the General Fund in such unusual circumstances.

The final amended budget for revenues was unchanged from the original budget, at just under \$1.2 billion. The final amended budget for expenditures was only 1.2% greater in total than the original budget, with an amended final expenditure budget of \$1.2 billion, with a forecasted decrease in Fund Balance of \$33.4 million. Actual revenue exceeded budgeted revenue by \$32.2 million, primarily from greater property tax revenue. Actual expenditures were \$38.0 million less than budgeted. The net effect of these favorable variances totaled \$70.2 million, and resulted in a net increase to fund balance of \$36.9 million.

General Fund Balance

The unassigned General Fund balance at June 30, 2020 was \$139.7 million. This represents approximately 44 days of general fund expenditures. The Board of Education made a concerted effort to maintain adequate reserves for the District.

Other Governmental Funds

Capital Projects Funds

The District uses Capital Projects Funds to account for school construction and improvement projects which, prior to 1999, were financed primarily through bond issues. SPLOST IV and V focus on revitalizing schools.

The SPLOST IV special sales tax began January 1, 2014 and ended on December 31, 2018. The SPLOST V special sales tax began January 1, 2019 and will end on December 31, 2023. The SPLOST IV fund had expenditures of \$62.5 million and an ending fund balance of \$27.6 million. SPLOST V had expenditures of \$154.8 million and an ending fund balance of \$0.2 million. A full listing of SPLOST IV and SPLOST V projects can be located on pages 112-115.

The System Wide/County-Wide Fund had no expenditures and an ending fund balance of \$0.3 million.

Nonmajor Governmental Funds

The Nonmajor Governmental Funds, had aggregate expenditures of \$217.3 million and aggregate fund balances of \$60.7 million in fiscal year 2020. Within the Nonmajor Governmental Funds, the Funds with the highest expenditures in fiscal year 2020 were SPLOST IV at \$62.5 million, School Nutrition at \$54.7 million, Local School Funds at \$29.4 million, Title I (of the Elementary and Secondary Education Act) at \$18.6 million, and Special Education at \$23.8 million. Nonmajor Governmental Funds ending the year with the highest fund balances were SPLOST IV at \$27.6 million, School Nutrition at \$8.3 million, Local School Funds at \$11.8 million, and After School Program at \$4.3 million. The fund balance of Nonmajor Governmental Funds, in aggregate, increased from \$109.1 million in fiscal year 2019 to \$60.7 million in fiscal year 2020, an increase of \$50.0 million. Descriptions of these funds can be located on pages 77-79.

Capital Assets and Debt Administration

Capital Assets

The Capital Assets, Net of Depreciation (Table IV), presented on the following page, summarizes and compares the capital assets for fiscal year 2019 and fiscal year 2020.

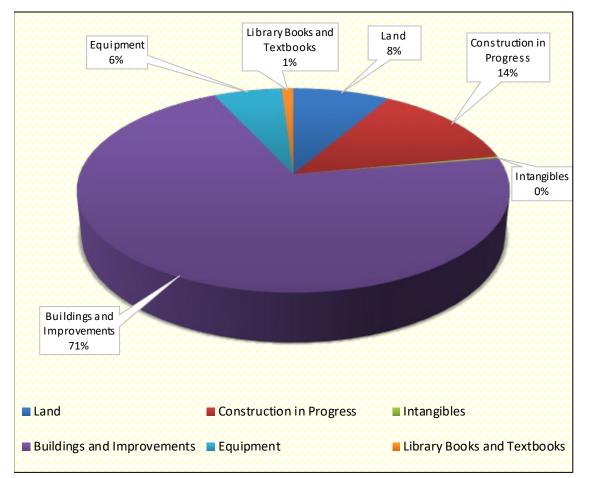

Capital assets increased 7.1% from \$1,558.7 million in fiscal year 2019 to \$1,669.3 million in fiscal year 2020, an increase of \$110.6 million. Construction in Progress increased by \$46.3 million, or 25.5%. Land increased by \$4.3 million, or 3.1%, as land was acquired for future school expansion. Buildings and Improvements increased by \$58.6 million, or 5.2%. Furthermore, Library and Textbooks decreased by \$6.4 million, or 27.9%. Equipment increased by \$9.3 million, or 10.3%.

More detailed information about capital assets can be found in Note 5 of the *Notes to the Basic Financial Statements*.

Long-Term Obligations

As of June 30, 2020, the District had \$13.1 million in outstanding long-term obligations for compensated absences, a net pension liability of \$1,158.5 million, and other post-employment benefits of \$755.7 million. More detailed information about long-term obligations can be found in Notes 10, 11, 14 and 15 of the *Notes to the Basic Financial Statements*.

Factors Bearing on the District's Future

The economic consequences and fluctuations in the U.S. and global stock markets resulting from the spread of COVID-19, and responses thereto by local, State, and the federal governments could have a material impact on the investments in the TRS pension plan, which could materially increase the School District's required contribution rates in future fiscal years.

The COVID-19 pandemic is having a negative effect on the State's finances which is likely to affect the amount of State funding appropriated in current and possibly future fiscal years to public schools, including the School District. The School District lost approximately \$59 million in State funding for the fiscal year 2021 budget due to state austerity reductions. Additionally, the School District budgeted approximately \$15 million in COVID-19 related expenditures, offset by a one-time CARES Act federal stimulus grant of approximately \$15.7 million to help with COVD-19 response efforts. As a result of the School District's careful implementation of significant budget reductions over the past years and prudent fiscal management, the School District was well positioned to budget approximately \$31 million in revenue reserve to offset the shortfall in revenue due to the reduction in state funding, and School District's fiscal year 2021 budget includes step increases for all eligible staff members and the School District does not anticipate furloughs or pay cuts.

We are fortunate that the Cobb County School District has no issued long-term debt, allowing us to devote our financial resources to providing a quality education for our students. We are also grateful for our citizens' approval of the Ed-SPLOST V capital financing initiative that will enable the financing of new schools for the approximate 2,000 new students projected to enter the District in the next five years and for needed building improvements to existing schools. Our District remains committed to working as one team for the goal of student success, and we greatly appreciate the support of our schools by the public and by local community organizations.

Contacting the District's Financial Management

This financial report is designed to provide a general overview of Cobb County School District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Financial Services Division, Cobb County School District, 440 Glover Street, Marietta, Georgia, 30060.

COBB COUNTY SCHOOL DISTRICT RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2020

(amounts expressed in thousands)

Total Net Change in Fund Balances-Governmental Funds		\$ (21,214)
Amounts reported for governmental activities in the statement of activities are different because:		
Capital assets are reported as expenditures in governmental funds. However, in the statement of activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:		
Capital outlay Depreciation expense	\$ 211,528 (89,217)	122,311
In the governmental funds, current year expenditures related to pensions are comprised solely of amounts contributed to the plan for the current year. However, in the statement of activities, expenses related to pensions include amounts that do not require the use of current financial resources. This amount represents the difference in the required accounting treatment of pensions		
and related items.		(46,780)
In the governmental funds, current year expenditures related to OPEB are comprised solely of amounts contributed to the plan for the current year. However, in the statement of activities, expenses related to OPEB include amounts that do not require the use of current financial resources. This amount		
represents the difference in the required accounting treatment of OPEB and related items.		6,220
Revenues in the statement of activities that do not provide current financial resources are considered as unavailable revenues in the governmental funds. Property taxes Sales taxes		(532) 4,128
The net effect of various miscellaneous transactions involving capital assets (i.e., sales and disposals) is to decrease net position.		(11,677)
Internal service funds are used by management to charge the costs of insurance to individual funds. The net expenses of the internal service funds is reported with governmental activities.		1,844
Some items reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. This activity consists of the increase in compensated absences.		 (1,857)
Change in Net Position of Governmental Activities		\$ 52,443

Note 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The Cobb County School District (District) was established under the laws of the State of Georgia and operates under the guidance of a school board elected by the voters of Cobb County and has a superintendent appointed by the Board. The Board is organized as a separate legal entity and has the power to levy taxes and issue bonds. Its budget is not subject to approval by any other entity. Accordingly, the District is a primary government and consists of all the organizations that compose its legal entity.

A financial reporting entity consists of a primary government and its component units. A component unit is a legally separate entity that must be included in the reporting entity of a primary government in conformity with generally accepted accounting principles. Based on the guidance of the Governmental Accounting Standards Board (GASB) Statements No. 14 and No. 61, there are no component units combined with the District for financial statement presentation purposes, and the District is not included in any other governmental reporting entity.

B. Basis of Presentation

The District's basic financial statements are collectively comprised of the District-wide financial statements, fund financial statements and the notes to the basic financial statements of the Cobb County School District.

District-wide Statements

The Statement of Net Position and the Statement of Activities display information about the financial activities of the overall District. Eliminations have been made to minimize the double counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and non-exchange transactions.

The Statement of Activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities.

• Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expenses (expenses of the District related to the administration and support of the District's programs, such as office and maintenance personnel and accounting) are not allocated to programs, except for federal indirect costs allocated to federal grant programs.

Note 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

• Program revenues include charges paid by the recipients of goods or services offered by the programs as well as grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements

The fund financial statements provide information about the District's funds. Separate statements for each category (governmental and proprietary) are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The District reports the following major governmental funds:

- General Fund is the District's primary operating fund. It accounts for all financial resources of the District, except those resources required to be accounted for in another fund.
- Special Purpose Local Option Sales Tax V Fund (SPLOST V) accounts for salestax proceeds required to be used for capital outlay for educational purposes as authorized by local referendum.
- System Wide/Countywide Building Fund accounts for the proceeds of short-term construction notes used for temporarily financing capital outlay in the SPLOST V fund.

Additionally, the District reports the following fund types:

- Special revenue funds account for restricted or committed specific revenues and their related expenditures. Special revenues for the District include various federal and state grants, donations to the District, rental of District facilities, charges for after-school programs, adult high school, and performing arts.
- Capital project funds account for restricted and assigned revenues and related capital expenditures. The expenditures are used for capital outlays for educational purposes as authorized by local referendum and management's decision.
- Internal service funds (proprietary funds) account for insurance and unemployment compensation provided to other funds of the District on a cost reimbursement basis.

Note 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Basis of Accounting/Measurement Focus

The basis of accounting determines when transactions are reported on the financial statements. The District-wide governmental activities and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place.

Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, sales taxes, grants and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from sales taxes is recognized in the fiscal year in which the underlying transaction (sale) takes place. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The District uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain governmental functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all non-grant revenues reported in the governmental funds to be available if they are collected within 60 days after year-end. The District considers all intergovernmental revenues to be available if they are collected within 120 days after year-end. Property taxes, sales taxes, intergovernmental and interest are considered to be subject to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term liabilities and acquisitions under capital leases are reported as other financing sources.

Note 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The State of Georgia reimburses the District for teachers' salaries and operating costs through the Quality Basic Education (QBE) Formula Earnings program. State of Georgia law defines the formula driven grant that determines the cost of an academic school year and the State of Georgia's share in this cost. Generally, teachers are contracted for the school year (July 1 – June 30) and paid over a twelve-month contract period, generally August 1 through July 31. In accordance with the requirements of the enabling legislation of the QBE program, the State of Georgia reimburses the District over the same twelvemonth period in which teachers are paid, funding the academic school year expenditures. At June 30, the amount of teachers' salaries incurred but not paid until July of the subsequent year are accrued as the State of Georgia has only postponed the final payment of their share of the cost until the subsequent appropriations for cash management purposes. By June 30 of each year, the State of Georgia has a signed appropriation that includes this final amount, which represents the State of Georgia's intent to fund this final payment. Based on guidance in Government Accounting Standards Board (GASB) Statement No. 33, paragraph 74, the State of Georgia recognizes its QBE liability for the July and August salaries at June 30, and the District recognizes the same QBE as a receivable and revenue, consistent with symmetrical recognition.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants, categorical grants, and general revenues. Thus, when program costs are incurred, there are both restricted and unrestricted net position available to finance the program. It is the District's policy to first apply grant resources to such programs, followed by cost-reimbursement grants, then general revenues.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses result from providing services. Operating revenues in the internal service funds are charges to customers for services. Operating expenses for internal service funds consist of the cost of services and administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

D. Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on-hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition in authorized financial institutions. Georgia Law OCGA 45-8-14 authorizes the District to deposit its funds in one or more solvent banks or insured Federal savings and loans associations.

Note 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Investments

Included in cash equivalents are items such as deposits with the Georgia local government investment pool and certificates of deposit. All of the District's investments as of June 30, 2020, have a maturity date of less than three months.

Investments made by the District in nonparticipating interest-earning contracts (such as certificates of deposit) and repurchase agreements are reported at cost. Both participating interest-earning contracts and money market investments with a maturity at purchase greater than one year are reported at fair value. Investment income is reported in the fund containing the invested assets which generated the income. The Official Code of Georgia Annotated Section 36-83-4 authorizes the District to invest its funds. In selecting among options for investment or among institutional bids for deposits, the highest rate of return shall be the objective, given equivalent conditions of safety and liquidity. Funds may be invested in the following:

- (1) Obligations issued by the State of Georgia or by other States,
- (2) Obligations issued by the United States government,
- (3) Obligations fully insured or guaranteed by the United States government or a United States government agency,
- (4) Obligations of any corporation of the United States government,
- (5) Prime banker's acceptances,
- (6) The Local Government Investment Pool administered by the State Treasurer of the State of Georgia.
- (7) Repurchase agreements, and,
- (8) Obligations of other political subdivisions of the State of Georgia.

Note 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

F. Receivables

Receivables consist of amounts due from property and sales taxes, grant reimbursements due on Federal, State or other grants for expenditures made but not reimbursed and other receivables disclosed from information available. Receivables are recorded when either the asset or revenue recognition criteria has been met. Intergovernmental and Taxes Receivables at June 30, 2020 were as follows:

(amounts expressed in thousands)

	Sp General L Fund S				Total
Taxes Receivables	\$	12,312	\$	16,635	\$ 28,947

Note 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

G. Property Taxes

The Cobb County Board of Commissioners fixed the property tax levy for the 2019 tax digest year (calendar year) in July 2019 (levy date) based on property values as of January 1, 2019. Taxes were due on October 15, 2019 (lien date). Taxes collected within the current fiscal year or within 60 days after year-end on the 2019 tax digest are reported as revenue in the governmental funds for fiscal year 2020. The Cobb County Tax Commissioner bills and collects the property taxes for the School District, withholds 1.6% of taxes collected as a fee for tax collection and remits the balance of taxes collected to the District. Property tax revenues during the fiscal year ended June 30, 2020 totaled \$580,813,000.

School tax by law cannot be greater than 20 mills per dollar for the support and maintenance of education. Tax millage rates levied for the 2019 tax year (calendar year) for the Cobb County School District were as follows (a mill equals \$1 per thousand dollars of assessed value):

School Operations

18.90 mills

H. Sales Taxes

A one percent Special Purpose Local Option Sales Tax is to be used for capital outlay for educational purposes and debt service. The State will terminate collection of this tax once an additional \$581,988,435 has been collected or on December 31, 2023, whichever occurs first.

I. Tax Abatements

Cobb County, through the Development Authority of Cobb County, allows for taxable revenue bond financing, pursuant to the Georgia Development Authorities Law, under Title 36 Chapter 62 of the Official Code of Georgia, in order to promote the creation of jobs and stimulate development activity within Cobb County. The taxable revenue bond financings result in the reduction of ad valorem (real and/or personal property) taxes.

The County offers a reduction in property taxes through the structure of these financing arrangements. Specifically, the Development Authority of Cobb County, a tax-exempt public organization created independently from the County, may enter into agreements with private individuals or entities in order to incentivize these businesses to build, relocate, expand, or renovate in Cobb County. The agreements involve a bond issuance and sale-leaseback transaction, whereby the Development Authority takes title to property and leases it back to the company. The business or individual is responsible for making ad valorem tax payments on its leasehold interest. The rental payments for the leasehold offset the debt service on the bonds over a fixed 10-year term, so that at the end of the incentive period,

Note 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

the bonds are fully retired and the company regains title of the property through an option to purchase.

The Development Authority considers the fiscal impacts of a proposed project and weighs such benefits against the costs of reduced revenue impacts when considering whether to enter into a taxable revenue-bond deal with an individual or entity. Generally, eligible projects involve a commitment of significant capital investment and/or the creation of net new jobs to the County, which propose a favorable return on investment for the County. There are no additional commitments other than to provide favorable tax treatment. There are provisions for recapturing some portion of the value of these incentives in the event capital investment and job creation numbers are not met during the incentive period; however, the Development Authority can immediately return title to a company for a nonperforming project, which cancels the incentive going forward. There are no amounts receivable from other governments.

For the fiscal year ended June 30, 2020, the tax abatement programs noted above abated property taxes due to the School District that were levied on January 1, 2019 and due on October 15, 2019 totaling \$3,052,590. Included in the amount abated, the following are individual tax abatement agreements that each exceeded 10 percent of the total amount abated:

Tax Abatement Project	% Abated	Amount	of Taxes Abated
Home Depot USA	70	\$	471,066
Home Depot USA - Real	80		319,405
HighWoods Realty LP	80		567,000
Akers 75, LLC	90		324,426
Greenstone Encore Center	100		459,733

J. Inventories

On the District-wide financial statements, inventories of donated food commodities used in the preparation of meals are reported at their Federally-assigned value and purchased foods inventories are reported at cost (first in, first out). The District uses the consumption method to account for inventories; whereby; donated food commodities are recorded as an asset and as revenue when received, and expenses are recorded as the inventory items are used. Purchased foods are recorded as an asset when purchased and expenses are recorded as the inventory items are used.

On the fund statements, inventories of governmental funds are reported at cost (first in, firstout). The District uses the consumption method to account for inventories whereby expenditures are recorded when inventory items are used.

Note 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

K. Prepaid Items

Payments made to vendors for services that will benefit periods subsequent to June 30, 2020, are recorded as prepaid, according to the consumption method.

L. Capital Assets

Capital assets purchased, including capital outlay costs, are recorded as expenditures in the fund financial statements at the time of purchase. On the District-wide financial statements, all purchased capital assets are valued at cost where historical records are available and at estimated historical cost based on appraisals or deflated current replacement cost where no historical records exist. Donated capital assets are recorded at estimated acquisition value on the date donated. Disposals are deleted at depreciated recorded cost. The cost of normal maintenance and repairs that do not add to the value of assets or materially extend the useful lives of the assets is not capitalized. Depreciation is computed using the straight-line method.

Capitalization thresholds and estimated useful lives of capital assets reported in the Districtwide statements are as follows:

	General	Useful
	Policy	Life
Land	All	N/A
Buildings and Improvements	\$50,000	20 to 50 Years
Equipment	\$10,000	5 to 10 Years
Intangible Assets	\$1,000,000	10 Years
Library Books and Textbooks	All	5 Years

Depreciation expense is used to allocate the actual or estimated historical cost of all capital assets over estimated useful lives.

M. Deferred Outflows/Inflows of Resources

Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expenses/ expenditures) until then.

Deferred inflows of resources represent an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Other than pensions and OPEB (described in Note 1.N, Note 1.O, Note 14 and Note 15), Cobb County School District measures unavailable revenue, which arises under a modified accrual basis of accounting and qualifies for reporting in this category. Accordingly, unavailable revenue is reported only in the governmental funds balance sheet.

Note 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Governmental funds report unavailable revenues from one source: property taxes. These amounts are deferred and recognized as inflows of resources in the period that the amounts become available.

The District reports a deferred outflow of resources for employer contributions made to the pension and OPEB plans subsequent to the measurement date, as these will be recognized as a reduction to the District's net pension liability and net OPEB liability in the year ended June 30, 2021. The District also reports deferred outflows of resources and deferred inflows of resources for experience gains or losses, assumption changes, and for the change in the District's proportionate share based on actual contributions towards the pension and OPEB plans, which are amortized into pension and OPEB expense over the expected remaining service lives of plan members. Finally, the District reports deferred outflows of resources and actual earnings on pension and OPEB investments. These items will be amortized against pension and OPEB expense over a five year period.

N. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teachers Retirement System of Georgia (TRS) and additions to/deductions from TRS's fiduciary net position have been determined on the same basis as they are reported by TRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public School Employees Retirement System (PSERS) and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

O. Other Postemployment Benefits (OPEB)

For purposes of measuring the net OPEB liability (asset), deferred outflows of resources and deferred inflows of resources related to OPEB and OPEB expense, information about the fiduciary net position of the Georgia School Employees Postemployment Benefit Fund (School OPEB Fund) and additions to/deductions from the School OPEB Fund's fiduciary net position have been determined on the same basis as they are reported by the School OPEB Fund. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Note 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

P. Net Position

The School District's net position in the District-wide Statements are classified as follows:

Net investment in capital assets – This represents the School District's total investment in capital assets, net of outstanding debt obligations, as applicable, related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of net investment in capital assets.

Restricted net position – These amounts represent resources for which the School District is legally or contractually obligated to spend resources for capital projects and support of Federal Programs in accordance with restrictions imposed by external third parties.

Unrestricted net position – Unrestricted net position represents resources derived from property taxes, sales, taxes, grants and contributions not restricted to specific programs, charges for services, and miscellaneous revenues. These resources are used for transactions relating to the educational and general operations of the School District, and may be used at the discretion of its Board to meet current expenses for those purposes.

Q. Fund Balance

Fund equity at the governmental fund financial reporting level is classified as "fund balance". Fund equity for all other reporting is classified as "net position".

Generally, fund balance represents the difference between the assets, liabilities, and deferred inflows of resources under the current financial resources measurement focus of accounting. In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The District's fund balances per Cobb County School District Board Policy DI, Accounting and Reporting, are classified as follows:

- 1) *Non-spendable Fund Balance* Non-cash assets such as inventories or prepaid items.
- 2) **Restricted Fund Balance** Funds with limitations imposed on their use by external restrictions imposed by creditors, grantors, or laws or regulations of other governments.
- 3) *Committed Fund Balance* Amounts that must be used for specific purposes pursuant to a formal action of the Board of Education through a majority vote by June 30. Only the Board may modify or rescind the commitment, through resolution by the Board of Education.

Note 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

- 4) *Assigned Fund Balance* Amounts that are intended by the Board of Education for specific purposes, but are neither restricted nor committed. The Board of Education can choose to delegate this authority. The Board and the Chief Financial Officer have the authority to assign fund balances.
- 5) *Unassigned Fund Balance* Residual spendable fund balance after subtracting all above amounts. Positive unassigned values are only reported in the General Fund.

Committed Fund Balances

The Board of Education, as the government's highest level of decision-making authority, may commit fund balance by a formal majority vote prior to the District's fiscal year-end. Likewise, future modification or rescission of committed funds must be accomplished by a formal majority vote of the Board of Education prior to fiscal year-end. Pursuant to the requirements of GASB Statement No. 54, the Board of Education, on June 8, 2011, committed substantially all of the revenue received by the following Special Revenue funds to be used exclusively for each respective program's expenditures.

Special Revenue Fund	Revenue Source				
Donations	Donations by individuals or organizations to				
Donations	benefit school programs.				
Facility Use / Public Safety	User rental fees and student parking permit				
	fees.				
	Funds earned or donated at local schools				
After School Program	used by local principals to benefit students				
	and faculty subject to District policy.				
Performing Arts / Art Career and	Voluntary student contributions to fund				
Cultural	Performing Arts Programs and donations to				
Cultural	fund artist workshops at local schools.				
Tuition School / Adult High School	User tuition charges and GED fees.				
	Funds earned or donated at local schools				
Local Schools	used by local principals to benefit students				
	and faculty subject to District policy.				

Assigned Fund Balances

The District's Board of Education, through resolution, delegates to the Superintendent, through the Chief Financial Officer, the authority to assign funds for particular purposes.

Spending Prioritization

When expenditures are incurred by the District that would qualify for payment with either restricted or unrestricted funds, they will be paid from restricted funds.

Note 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

When an expenditure is incurred that qualifies for payment from either of the three unrestricted fund balance categories, it will be applied in the following order:

- 1) Committed
- 2) Assigned
- 3) Unassigned

Minimum Unassigned General Fund Balance

The Board of Education will strive to maintain a minimum unassigned general fund balance, less encumbrances, equivalent to a range of 30 to 55 days of annual expenditures unless this is unfeasible due to circumstances beyond its control such as:

- a) A substantial decrease in the county property tax digest
- b) A substantial decrease in State funding
- c) An unanticipated fiscal necessity

Schedule of Fund Balances

	Gene	ral Fund	Loc	ial Purpose cal Option les Tax V	System Wide/ ountywide	Nonmajor overnmental Funds	Total
Fund Balances:		<u></u>			 Juney Mac	 1 41145	 1000

Note 2. LEGAL COMPLIANCE – BUDGETS

The Board of Education budgets its operations on an annual basis for the General Fund and for all Special Revenue Funds except the Local Schools Fund. Capital Projects Funds are budgeted on a multi-year, project-length basis. Prior to July 1 each year, the administration of the District submits a proposed budget to the Board of Education, which conducts public hearings and legally adopts the budget. The administration then submits the adopted budget to the Georgia Department of Education for final approval.

The District prepares its annual budget using the budgetary basis of accounting, which differs from generally accepted accounting principles in the United States of America (GAAP) as allowed by the State of Georgia. Under the budgetary basis of accounting, the District does not budget for other financing sources and uses, but rather budgets those as revenues and current expenditures of the funds. Appropriations not spent or encumbered lapse at year-end and encumbrances outstanding at that time are rebudgeted in the following fiscal year. Budget amendments that are funded through a decrease in fund balance must be approved by the Board of Education. All other budget amendments may be approved by the Superintendent or his designee.

The level of legal budgetary control (the level at which expenditures may not exceed appropriations) is at the function level within individual funds. The District makes certain reclassification of revenues and expenditures presented on a budgetary basis conform to GAAP basis financial statements. Several supplementary appropriations were necessary during the fiscal year ended June 30, 2020.

The District's budgetary statements for the General Fund differ somewhat from generally accepted accounting principles (GAAP) prepared statements. The dollar effect for these differences are detailed in the following reconciliation for the year-end net change in fund balance (budgetary basis) to the year-end net change in fund balance (GAAP basis):

Reconciliation of GAAP to Budget Basis	General Fund				
Actual Revenues GAAP Basis	\$	1,192,743,000			
Other Financing Sources budgeted as revenues	_	426,000			
Budgeted Revenues, Budgetary Basis		1,193,169,000			
Actual Expenditures GAAP Basis		1,153,249,000			
Other Financing Uses budgeted as expenditures		3,019,000			
Budgetary Expenditures, Budgetary Basis		1,156,268,000			
Net Change in Fund Balance, Budgetary Basis	\$	36,901,000			
Net Change in Fund Balance, GAAP Basis	\$	36,901,000			

Note 2. LEGAL COMPLIANCE – BUDGETS (Continued)

For the year ended June 30, 2020, expenditures exceeded appropriations in several function areas (the legal level of budgetary control). These over-expenditures were offset by underexpenditures in other function areas within the same fund, or by revenues collected in excess of budgeted collections. The over-expenditures are identified in the following schedule:

Fund/Function	Overexpenditure		
General Fund:			
Pupil Services	\$	6,194,000	
Business Services		719,000	
Maintenance and Operation of Plant		2,247,000	
Student Transportation		309,000	
School Nutrition		471,000	
Facility Use/Public Safety:			
Maintenance and Operation of Plant		159,000	
After School Program:			
Pupil Services		7,000	
Maintenance and Operation of Plant		165,000	
Tuition School/Adult High School:			
Instruction		384,000	
Maintenance and Operation of Plant		7,000	
Pre K Lottery:			
Instruction		4,000	
GNETS:			
School Administration		4,000	
Special Education:			
Instruction		1,585,000	
Improvement of Instructional Services		323,000	
General Administration		104,000	
Student Transportation		23,000	

Note 3. CASH EQUIVALENTS, DEPOSITS AND INVESTMENTS

COLLATERALIZATION OF DEPOSITS

Official Code of Georgia Annotated (OCGA) Section 45-8-12 provides that there shall not be on deposit at any time in any depository for a time longer than ten days a sum of money which has not been secured by surety bond, by guarantee of insurance or by collateral. The aggregate of the face value of such surety bond and the market value of securities pledged shall be equal to not less than 110 percent of the public funds being secured after the deduction of the amount of deposit insurance. If a depository elects the pooled method (OCGA 45-8-13.1) the aggregate of the market value of the securities pledged to secure a pool of public funds shall be not less than 110 percent of the daily pool balance. OCGA Section 45-8-11 (b) provides an officer holding public funds may, in his discretion, waive the requirement for security in the case of operating funds placed in demand deposit checking accounts. State statutes also allow deposits and investments (other than federal or state government instruments) amounts that exceed standard depository insurance limits to be collateralized by participation in the State of Georgia Secure Deposit Program. As of June 30, 2020, the financial institution holding some of the District's deposits is a participant in the State of Georgia Secure Deposit Program, which is administered by the Office of the State Treasurer, requires participating banks holding deposits of public funds to pledge collateral at varying rates depending on the tier assigned by the State.

Acceptable security for deposits consists of any one of or any combination of the following:

- (1) Surety bond signed by a surety company duly qualified and authorized to transact business within the State of Georgia,
- (2) Insurance on accounts provided by the Federal Deposit Insurance Corporation,
- (3) Bonds, bills, notes, certificates of indebtedness or other direct obligations of the United States or of the State of Georgia,
- (4) Bonds, bills, notes, certificates of indebtedness or other obligations of the counties or municipalities of the State of Georgia,
- (5) Bonds of any public authority created by the laws of the State of Georgia, providing that the statute that created the authority authorized the use of the bonds for this purpose,
- (6) Industrial revenue bonds and bonds of development authorities created by the laws of the State of Georgia, and

Note 3. CASH EQUIVALENTS, DEPOSITS AND INVESTMENTS (Continued)

(7) Bonds, bills, notes, certificates of indebtedness, or other obligations of a subsidiary corporation of the United States government, which are fully guaranteed by the United States government both as to principal and interest or debt obligations issued by the Federal Land Bank, the Federal Home Loan Bank, the Federal Intermediate Credit Bank, the Central Bank for Cooperatives, the Farm Credit Banks, the Federal Home Loan Mortgage Association, and the Federal National Mortgage Association.

Cash Equivalents and Deposits

Cash equivalents consist of bank checking, savings, money-market accounts, and certificate of deposits.

Custodial credit risk-deposits and investments

Custodial credit risk is the risk that in the event of bank failure, the District's cash equivalents and deposits may not be returned to the District. At June 30, 2020, the District had deposits with a carrying amount of \$162,077,947 and a bank balance of \$165,681,360. The bank balance was covered entirely by Federal depository insurance, by collateral held by the District or the District's agent in the District's name, or by a multiple financial institution collateral pool authorized by the State of Georgia that insures public deposits.

The District has no custodial credit risk since there are no uncollateralized or uninsured securities not in the District's name.

Investments

As of June 30, 2020, the District's investments included \$296,648,467 in a local government investment pool account called Georgia Fund 1, the combined state general fund and local government investment pool managed by the Office of the State Treasurer. On that date, these funds had a weighted average maturity of 38 days. In addition, the District had \$275,828 in certificates of deposit in various financial institutions. These investments are reported as cash equivalents.

The District's investment in Georgia Fund 1, the State of Georgia Investment Pool, was rated AAAf by Standard & Poor's. The Office of the State Treasurer is the oversight agency for Georgia Fund 1. Georgia Fund 1, created by OCGA 36-83-8, is a stable asset value investment pool.

Note 3. CASH EQUIVALENTS, DEPOSITS AND INVESTMENTS (Continued)

Georgia Fund 1's primary objectives are safety of capital, investment income, liquidity and diversification while maintaining principal (\$1 per share value). The pool is not registered with the SEC as an investment company. Asset value is calculated weekly to ensure stability. The pool distributes earnings (net of management fees) on a monthly basis and determines participant's shares sold and redeemed based on \$1 per share. The pool also adjusts the value of its investments to fair market value as of year-end and the District's investment in the Georgia Fund 1 is reported at fair value. As of June 30, 2020, the District considers amounts held in Georgia Fund 1 as cash equivalents for financial statement presentation.

Fair Value Measurements

Georgia Fund 1 is an investment pool that does not meet the criteria of GASB Statement No. 79 and is thus valued at fair value in accordance with GASB Statement No. 31. As a result, the District does not disclose investment in Georgia Fund 1 within the fair value hierarchy.

Credit Risk

The District's investment policy is to apply the prudent investor rule which states "investments shall be made with judgment and care, under circumstances when prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the primary objective of safety of capital as well as the objective of obtaining a market rate of return."

The policy of the District is to invest funds with larger banking institutions that are able to collateralize the public funds at 110%. Any bid to purchase securities must be from a broker/dealer who is a member of the NASD and SIPC and have a major presence in the metropolitan area.

Concentration of Credit Risk

Concentration of credit risk is defined as investments of more than 5% in any one issuer. Georgia Fund 1 is excluded from the requirement of disclosing concentration of credit risk.

Note 3. CASH EQUIVALENTS, DEPOSITS AND INVESTMENTS (Continued)

Interest Rate Risk

In accordance with its investment policy, the District will minimize interest rate risk, which is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates, by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities in the open market, and investment operating funds primarily in money market funds or similar investment pools and limiting the average maturity in accordance with the District's cash requirements.

Foreign Currency Risk

The District is not authorized to invest in investments that have this type of risk.

Note 4. NON-MONETARY TRANSACTIONS

The District received food commodities from the United States Department of Agriculture (USDA) for school breakfast and lunch programs. See Note 1 – Inventories

Remainder of Page Intentionally Left Blank

Note 5. CAPITAL ASSETS

The following is a summary of changes in the capital assets during the fiscal year, rounded to the thousands:

	Balance June 30, 2019	Increases	Decreases	Balance June 30, 2020
Governmental Activities	June 30, 2017		Detteases	June 30, 2020
Capital Assets, Not Being Depreciated:				
Land	\$ 136,711,000	\$ 4,299,000	\$ -	\$ 141,010,000
Construction In Progress	181,345,000	168,448,000	(122,126,000)	227,667,000
Total Capital Assets Not Being Depreciated	318,056,000	172,747,000	(122,126,000)	368,677,000
Capital Assets Being Depreciated:				
Buildings and Improvements	2,021,392,000	123,319,000	(33,995,000)	2,110,716,000
Intangibles	10,479,000	-	-	10,479,000
Equipment	241,562,000	35,901,000	(15,643,000)	261,820,000
Library/Textbooks	79,139,000	1,687,000	(2,659,000)	78,167,000
Total Capital Assets Being Depreciated	2,352,572,000	160,907,000	(52,297,000)	2,461,182,000
Less Accumulated Depreciation for:				
Buildings and Improvements	899,986,000	54,079,000	(23,366,000)	930,699,000
Intangibles	4,528,000	1,494,000	-	6,022,000
Equipment	151,182,000	25,571,000	(14,594,000)	162,159,000
Library/Textbooks	56,242,000	8,073,000	(2,660,000)	61,655,000
Total Accumulated Depreciation	1,111,938,000	89,217,000	(40,620,000)	1,160,535,000
Total Capital Assets Being Depreciated Net	1,240,634,000	71,690,000	(11,677,000)	1,300,647,000
Governmental Capital Assets,Net	\$ 1,558,690,000	\$ 244,437,000	\$ (133,803,000)	\$ 1,669,324,000

Current year depreciation expense by function for governmental activities is as follows:

Instruction	\$ 77,787,000
Pupil Services	2,422,000
School and Administrative Services	2,662,000
Pupil Transportation	4,870,000
Maintenance and Operations	1,359,000
School Nutrition Services	 117,000
	\$ 89,217,000

Note 6. INTERFUND ASSETS AND LIABILITIES

Interfund receivable and payable balances result from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. All interfund balances will be paid within one year. The \$8,905,000 receivable due to the General Fund from various nonmajor governmental funds was primarily for the financing of federal and state grant expenditures whose reimbursements were pending at year-end, as detailed below. The \$993,000 receivable due to Local Schools from the General Fund largely represented local school excess cash reserves invested with interest, net of the interfund payable. Interfund receivable and payable balances by fund as of June 30, 2020 are disclosed in the following schedule, rounded to the thousands:

	Receivable		Payable
Governmental Funds:			
General Fund	\$	8,905,000	\$ 993,000
Nonmajor Governmental Funds:			
Miscelleous Grants		-	-
Adult Education		-	89,000
GNETS		-	660,000
Title I		-	2,844,000
Special Ed Federal Grant		-	3,973,000
Vocational Education		-	109,000
Title II		-	418,000
Homeless Grant		-	1,000
Title III		-	653,000
Title IV		-	158,000
Local Schools		993,000	-
Total Nonmajor Governmental Funds		993,000	 8,905,000
Total	\$	9,898,000	\$ 9,898,000

Note 7. INTERFUND TRANSFERS

Interfund transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and (2) to use unrestricted revenues in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. The transfer amount from the General Fund to the Countywide Building Fund was for the purchase of land for future use at a school site and for portable classroom expenditures. The remaining transfers out of the General Fund were to provide needed supplemental funding of various school support services. The transfer into the General Fund from nonmajor governmental funds represents excess uncommitted revenue above program expenditures that was moved to benefit the various instructional and support services of the District.

Interfund transfers for the year ended June 30, 2020, consisted of the following, rounded to the thousands:

Transfers Out:	Transfers In:	 Amount
General Fund:		
General Fund	Facility Use / Public Safety Fund	1,118,000
General Fund	Tuition School / Adult High School Fund	279,000
General Fund	District Building Fund	 1,622,000
Total General Fund		\$ 3,019,000
Major Governmental Funds:		
System Wide/County-Wide	Special Purpose Local Option Sales Tax V	1,168,000
Total Major Governmental Funds		\$ 1,168,000
Nonmajor Governmental Funds:		
Facility Use / Public Safety Fund	General Fund	123,000
Total Nonmajor Governmental Funds		\$ 123,000
Total for All Funds		\$ 4,310,000

Note 8. RISK MANAGEMENT

The District is self-insured for all claims under general liability, vehicle accidents and workers compensation. The District maintains a policy for excess workers compensation. The District is commercially insured for property, contents and boiler, and carries fidelity bond coverage for employee dishonesty, in addition to a state-mandated Superintendent's bond and school principals' bond. The District has not had any significant reductions in insurance coverage from coverage in the prior year.

Note 8. RISK MANAGEMENT (Continued)

Premiums are paid into Internal Service funds by user funds and are available to pay claims and administrative costs of the program and establish claim reserves. These interfund premiums are recognized as revenue in the internal service funds. Actuarial analysis provides estimated ultimate losses for workers compensation and automobile liability, which are converted to present value using an interest rate of 3%.

Estimated claims for the next fiscal year total \$3,192,000 and the non-current liability for succeeding years is \$5,397,000. In the past, the amount of any insurance settlements has not exceeded the insurance coverage for the past three years.

	Clain	mated Unpaid 18 at Beginning Fiscal Year	(Claims and Changes in Estimates	 Claim Payments	Estimated Unpaid Claims at End of Fiscal Year		
2019	\$	6,853,000	\$	5,124,000	\$ (4,675,000)	\$	7,302,000	
2020	\$	7,302,000	\$	4,645,000	\$ (3,358,000)	\$	8,589,000	

Note 9. SHORT-TERM NOTES

In January 2020, the District issued \$99,260,000 in revenue-anticipation notes to be applied to the current expenses of constructing, equipping and upgrading various school facilities and improvements as voted upon by District stakeholders in the Special Purpose Local Option Sales Tax referendum on March 21, 2017. The short-term construction notes bear an interest rate of 2.0% with a maturity date of December 16, 2020. The District will repay the notes with proceeds from the local option sales tax collected in calendar year 2020. If the proceeds are not sufficient to pay the entire principal and interest on the notes, property taxes within the 20 mil limitation prescribed by law may be levied upon all taxable property within Cobb County and immediately due. The principal and interest payment on December 16, 2020, will total \$101,002,564.

The following represents the activity related to short-term notes during fiscal year ended June 30, 2020.

Beginning			Ending			
Balance	Additions	Deletions	Balance			
\$ 89,110,000	\$ 99,260,000	\$ (89,110,000)	\$ 99,260,000			

Note 10. COMPENSATED ABSENCES

It is the District's policy to allow employees to accumulate earned but unused vacation benefits. Employees are compensated for qualifying vacation benefits upon termination of their employment with the District. A liability for these vacation benefits are accrued and includes social security, medicare, and workers compensation. Employees are not compensated for sick leave benefits upon termination of their employment. Therefore, no liability is reported for earned but unused sick leave benefits.

Note 11. LONG-TERM OBLIGATIONS

Fiscal year 2020 long-term obligations are as follows:

	Ba	lance 6/30/2019	Increases	Decreases	Ba	lance 6/30/2020	C	urrent Amounts Due Within One Year	-	Long-term Amounts Due After One Year
Accrued Vacation Pay	\$	11,202,000	\$ 6,303,000	\$ 4,446,000	\$	13,059,000	\$	5,183,000	\$	7,876,000
Net OPEB Liability	\$	786,663,000	\$ 68,278,000	\$ 99,218,000	\$	755,723,000	\$	-	\$	755,723,000
Net Pension Liability	\$	996,094,000	\$ 300,195,000	\$ 137,776,000	\$	1,158,513,000	\$	-	\$	1,158,513,000
Total	\$	1,793,959,000	\$ 374,776,000	\$ 241,440,000	\$	1,927,295,000	\$	5,183,000	\$	1,922,112,000

Accrued vacation pay, pension, and OPEB obligations are largely liquidated by the General Fund.

Note 12. ON-BEHALF PAYMENTS

The State of Georgia makes certain health insurance and pension plan payments on behalf of the District for its employees. The District records these payments as both a revenue and expenditure in the General Fund. The total of the on-behalf payments for the fiscal year ended June 30, 2020 was \$1,909,123.

Note 13. COMMITMENTS AND CONTINGENCIES

The District makes various contractual commitments on an ongoing basis for construction and remodeling of its capital assets. The major outstanding commitments as of June 30, 2020, included additions and renovations at two elementary school, four high schools and one central office location. As of June 30, 2020, the contract price and expenditures to date for the largest projects were as follows:

	Cor	ntract	Expenditures			
<u>Project</u>	<u>Pric</u>	<u>ee</u>	<u>To</u>	Date		
Additions/Modifications 514 Glover Street	\$	26,354,433	\$	19,068,447		
Additions/Modifications Campbell HS		42,451,462		9,187,252		
Additions/Modifications Pebblebrook HS		51,445,775		2,149,895		
New Replacement School Clay-Harmony Leland ES		29,450,919		29,272,311		
New Replacement School King Springs		37,332,082		31,076,131		
New Replacement School Cobb Career		15,894,881		15,077,079		
New Replacement School Osborne HS		57,666,212		44,874,940		

The District participates in numerous state and federal grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, refunds of any money received may be required. In addition, the collectability of any related receivable at June 30, 2020, may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; for this reason, no provision has been recorded in the accompanying combined financial statements for such contingencies.

The District is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the District's attorney and management, the resolution of these matters will not have a material adverse effect on the financial condition of the District.

Note 14. RETIREMENT PLANS

Teachers Retirement System of Georgia (TRS)

Plan Description

Substantially all teachers, administrators and clerical personnel are members of this costsharing multiple-employer defined benefit public employee retirement system. TRS was created in 1943 by an act of the Georgia General Assembly and is administered by a ten member Board of Trustees. TRS is funded by a combination of employee, employer and State of Georgia contributions. Benefits are established and may be amended by State statute and provide retirement, death, long-term disability, survivor and health insurance premium benefits. TRS issues a publicly available financial report that can be obtained at www.trsga.com/publications.

Benefits Provided

TRS retirement benefits are determined as 2 % of the average of the employee's two highest paid consecutive years of service, multiplied by the number of years of creditable service up to 40 years. An employee is eligible for normal service retirement after 30 years of creditable service, regardless of age, or after 10 years of service and attainment of age 60. Ten years of service is required for disability and death benefits eligibility. Disability benefits are based on the employee's creditable service and compensation up to the time of disability. Death benefits equal the amount that would be payable to the employee's beneficiary had the employee retired on the date of death. Death benefits are based on the employee retired on the date of death.

Contributions

Per Title 47 of the O.C.G.A., contribution requirements of active employees and participating employers, as actuarially determined, are established and may be amended by the TRS Board. Pursuant to O.C.G.A. §47-3-63, the employer contributions for certain full-time public school support personnel are funded on behalf of the employer by the State of Georgia. Contributions are expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Plan members are currently required to contribute 6.00 percent of their annual covered payroll and the District is currently required to contribute 21.14 percent of the covered payroll. The District's contributions to TRS for the year ended June 30, 2020 was \$151,993,730.

Note 14. RETIREMENT PLANS (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for support provided to the District by the State of Georgia for certain public school support personnel. The amount recognized by the District as its proportionate share of the net pension liability, the related State of Georgia support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the net pension liability	\$ 1,158,513,225
State of Georgia's proportionate share of the net pension liability associated with the District	220,188
Total	\$ 1,158,733,413

The net pension liability was measured as of June 30, 2019. The total pension liability used to calculate the net pension liability was based on an actuarial valuation as of June 30, 2018. An expected total pension liability as of June 30, 2019 was determined using standard roll-forward techniques. The District's proportion of the net pension liability was based on contributions to TRS during the fiscal year ended June 30, 2019. At June 30, 2019, the District's proportion was 5.387756%, which was a increase of 0.021487% from its proportion measured as of June 30, 2018.

For the year ended June 30, 2020, the District recognized pension expense of \$198,773,980 and revenue of \$188,527 for support provided by the State of Georgia for certain support personnel. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the sources on the following page.

Note 14. RETIREMENT PLANS (Continued)

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 65,299,710	\$ 343,469
Changes of Assumptions	111,174,459	-
Net difference between projected and actual earnings on pension plan investments	-	27,587,735
Changes in proportion and differences between District contributions and proportionate share of contributions	10,051,940	21,079,989
District contributions subsequent to the measurement date	151,993,730	
Total	\$ 338,519,839	\$ 49,011,193

District contributions subsequent to the measurement date of \$151,993,730 are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June	e 30:	
2021		\$ 62,637,625
2022		5,058,310
2023		31,551,993
2024		38,266,988
Total		\$ 137,514,916

Note 14. RETIREMENT PLANS (Continued)

Actuarial assumptions: The total pension liability as of June 30, 2019 was determined by an actuarial valuation as of June 30, 2018 using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Salary increases	3.00-8.75%, average, including inflation
Investment rate of return	7.25%, net of pension plan investment expense
	including inflation
Post retirement benefit increases	1.50% semi-annually

Post-retirement mortality rates were based on the RP-2000 White Collar Mortality Table with future mortality improvement projected to 2025 with the Society of Actuaries' projection scale BB (set forward one year for males) for service retirements and depended beneficiaries. The RP-2000 Disable Mortality Table with future mortality improvement projected to 2025 with Society of Actuaries' projection scale BB (set forward two years for males) was used for death after disability retirement. Rates of mortality in active service were based on the RP-2000 Employee Mortality Table projected to 2025 with projection scale BB.

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of an actuarial experience study for the period July 1, 2009 - June 30, 2014, with the exception of the long-term assumed rate of return on assets (discount rate), which was changed from 7.50% to 7.25%, and the assumed annual rate of inflation, which was changed from 2.75% to 2.50%, effective with the June 30, 2018 valuation.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Remainder of Page Intentionally Left Blank

Note 14. RETIREMENT PLANS (Continued)

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset class	Target allocation	Long-term expected real rate of return*
Fixed income	30.00 %	(0.10) %
Domestic large equities	51.00	8.90
Domestic small equities	1.50	13.20
International developed market equities	12.40	8.90
International emerging market equities	5.10	10.90
Total	100.00 %	

* Rates shown are net of the 2.50% assumed rate of inflation

Discount rate: The discount rate used to measure the total pension liability was 7.25%, which was a decrease from the discount rate of 7.50% utilized in the previous valuation. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer and State of Georgia contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long- term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate: The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.25%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.25%) or one percentage point higher (8.25%) than the current rate:

	1%	Current	1 %
	Decrease	discount rate	Increase
	(6.25%)	(7.25%)	 (8.25%)
District's proportionate share of the net pension liabilit \$	1,880,606,038	\$ 1,158,513,225	\$ 564,696,364

Note 14. RETIREMENT PLANS (Continued)

Pension plan fiduciary net position: Detailed information about the pension plan's fiduciary net position is available in the separately issued TRS financial report which is publically available at www.trsga.com/publications.

Payables to the pension plan

At June 30, 2020, the District reported a payable of \$16,373,541 for the outstanding amount of contributions to the TRS pension plan required for the year ended June 30, 2020.

Public School Employee Retirement System of Georgia (PSERS)

Plan Description

PSERS is a cost-sharing multiple-employer defined benefit pension plan established by the Georgia General Assembly in 1969 for the purpose of providing retirement allowances for public school employees who are not eligible for membership in the Teachers Retirement System of Georgia. These employees include bus drivers, maintenance, custodial, and lunchroom personnel. The ERS Board of Trustees, plus two additional trustees, administers PSERS. Title 47 of the O.C.G.A. assigns the authority to establish and amend the benefit provisions to the State Legislature. PSERS issues a publicly available financial report that can be obtained at <a href="http://www.ers.ga.gov/formspubs/forms

Benefits Provided

A member may retire and elect to receive normal monthly retirement benefits after completion of ten years of creditable service and attainment of age 65. A member may choose to receive reduced benefits after age 60 and upon completion of ten years of service.

Upon retirement, the member will receive a monthly benefit of \$15.25, multiplied by the number of years of creditable service. Death and disability benefits are also available through PSERS. Additionally, PSERS may make periodic cost-of-living adjustments to the monthly benefits. Upon termination of employment, member contributions with accumulated interest are refundable upon request by the member. However, if an otherwise vested member terminates and withdraws his/her member contribution, the member forfeits all rights to retirement benefits.

Funding Policy

The general assembly makes an annual appropriation to cover the employer contribution to PSERS on behalf of local school employees (bus drivers, cafeteria workers, and maintenance staff). The annual employer contribution required by statute is actuarially determined and paid directly to PSERS by the State Treasurer in accordance with O.C.G.A. §47-4-29(a) and 60(b). Contributions are expected to finance the costs of benefits earned

Note 14. RETIREMENT PLANS (Continued)

by employees during the year, with an additional amount to finance any unfunded accrued liability.

Plan members who became members prior to July 1, 2012 contribute \$4 per month for nine months each fiscal year. Individuals who became members on or after July 1, 2012 contribute \$10 per month for nine months each fiscal year. The State of Georgia, although not the employer of PSERS members, is required by statute to make employer contributions actuarially determined and approved and certified by the PSERS Board of Trustees. The District does not make an annual contribution to PSERS.

Employees who are covered by PSERS are eligible to participate in a supplemental defined contribution plan. If the employee contributes 1% of salary to the 403b plan administered by VALIC, s/he will receive a contribution equal to 2% of salary each month to match, for a total contribution of 3% of salary. The District's contributions to the supplemental defined contribution plan for the year ended June 30, 2020 was \$469,860 with an average number of participants of 854.

Pension Liabilities and Pension Expense

At June 30, 2020, the District did not have a liability for a proportionate share of the net pension liability because of the related State of Georgia support. The amount of the State's proportionate share of the net pension liability associated with the District is as follows:

State of Georgia's porportionate share of the Net	
Pension Liability associated with the District	\$10,813,343

The net pension liability was measured as of June 30, 2019. The total pension liability used to calculate the net pension liability was based on an actuarial valuation as of June 30, 2018. An expected total pension liability as of June 30, 2019 was determined using standard roll-forward techniques. The State's proportion of the net pension liability associated with the District was based on actuarially determined contributions paid by the State during the fiscal year ended June 30, 2019.

For the year ended June 30, 2020, the District recognized pension expense of \$3,334,705 and revenue of \$3,334,705 for support provided by the State of Georgia.

Note 14. RETIREMENT PLANS (Continued)

Actuarial assumptions: The total pension liability was determined by an actuarial valuation as of June 30, 2018, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75%
Salary increases	N/A
Investment rate of return	7.30%, net of pension plan investment expense,
	including inflation
Post retirement benefit increase	1.50% semi-annually

Post-retirement mortality rates were based on the RP-2000 Combined Mortality Table projected to 2025 with projection scale BB (set forward 3 years for males and 2 years for females) for the period after service retirements and for dependent beneficiaries. The RP-2000 Disabled Mortality Table projected to 2025 with projection scale BB (set forward 5 years for both males and females) was used for death after disability retirement. There is a margin for future mortality improvement in the tables used by the System. Based on the results of the most recent experience study adopted by the Board on December 17, 2015, the numbers of expected future deaths are 9-11% less than the actual number of deaths that occurred during the study period for healthy retirees and 9-11% less than expected under the selected table for disabled retirees. Rates of mortality in active service were based on the RP-2000 Employee Mortality Table projected to 2025 with projection scale BB.

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of an actuarial experience study for the period July 1, 2009 – June 30, 2014.

Remainder of Page Intentionally Left Blank

Note 14. RETIREMENT PLANS (Continued)

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset class	Target allocation	Long-term expected real _rate of return*_
Fixed income	30.00 %	(0.10) %
Domestic large equities	46.20	8.90
Domestic small equities	1.30	13.20
International developed market equities	12.40	8.90
International emerging market equities	5.10	10.90
Alternatives	5.00	12.00
Total	100.00 %	

* Rates shown are net of the 2.75% assumed rate of inflation

Discount rate: The discount rate used to measure the total pension liability was 7.30%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer and nonemployer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Pension plan fiduciary net position: Detailed information about the pension plan's fiduciary net position is available in the separately issued PSERS financial report which is publicly available at <u>www.ers.ga.gov/formspubs/.</u>

Note 15. OTHER POST EMPLOYMENT BENEFITS (OPEB)

Plan Description

The District participates in the State of Georgia School Employees Postemployment Benefit Fund (the School OPEB Fund) which is another postemployment benefit (OPEB) plan administered by the State of Georgia Department of Community Health (DCH). Certified teachers and non-certified employees of the District as defined in §20-2-875 of the *Official Code of Georgia Annotated* (O.C.G.A.) are provided OPEB through the School OPEB Fund - a cost-sharing multiple-employer defined benefit postemployment healthcare plan, reported as an employee trust fund of the State of Georgia and administered by a Board of Community Health (DCH Board). Title 20 of the *O.C.G.A.* assigns the authority to establish and amend the benefit terms of the group health plan to the DCH Board. The School OPEB Fund is included in the State of Georgia Comprehensive Annual Financial Report which is publicly available and can be obtained at <u>https://sao.georgia.gov/comprehensive-annual-financial-reports</u>.

Benefits

The School OPEB Fund provides healthcare benefits for retirees and their dependents due under the group health plan for public school teachers, including librarians, other certified employees of public schools, regional educational service agencies, and non-certified public school employees. Retiree medical eligibility is attained when an employee retires and is immediately eligible to draw a retirement annuity from Employees' Retirement System (ERS), Georgia Judicial Retirement System (JRS), Legislative Retirement System (LRS), Teachers Retirement System (TRS) or Public School Employees Retirement System (PSERS). If elected, dependent coverage starts on the same day as retiree coverage. Medicare-eligible retirees are offered Standard and Premium Medicare Advantage plan options. Non-Medicare eligible retiree plan options include Health Reimbursement Arrangement (HRA), Health Maintenance Organization (HMO) and a High Deductible Health Plan (HDHP). The School OPEB Fund also pays for administrative expenses of the fund. By law, no other use of the assets of the School OPEB Fund is permitted.

Contributions

As established by the Board of Community Health, the School OPEB Fund is substantially funded on a pay-as-you-go basis; that is, annual cost of providing benefits will be financed in the same year as claims occur. Contributions required and made to the School OPEB Fund from the District were \$20,940,906 for the year ended June 30, 2020. Active employees are not required to contribute to the School OPEB Fund.

Note 15. OTHER POST EMPLOYMENT BENEFITS (OPEB) (Continued)

OPEB Liabilities, **OPEB** Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to **OPEB**

At June 30, 2020, the District reported a liability of \$755,722,646 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2019. The total OPEB liability used to calculate the net OPEB liability was based on an actuarial valuation as of June 30, 2018. An expected total OPEB liability as of June 30, 2019 was determined using standard roll-forward techniques. The District's proportion of the net OPEB liability was actuarially determined based on employer contributions to the School OPEB Fund during the fiscal year ended June 30, 2019. At June 30, 2019, the District's proportion was 6.158032%, which was a decrease of 0.031439% from its proportion measured as of June 30, 2018.

For the year ended June 30, 2020, the District recognized OPEB expense of \$14,719,925. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ 82,214,757
Changes of Assumptions	26,244,771	106,533,029
Net difference between projected and actual earnings on OPEB plan investments	1,645,732	-
Changes in proportion and differences between District contributions and proportionate share of contributions	-	13,752,483
District contributions subsequent to the measurement date	20,940,906	
Total	\$ 48,831,409	\$ 202,500,269

Note 15. OTHER POST EMPLOYMENT BENEFITS (OPEB) (Continued)

District contributions subsequent to the measurement date of \$20,940,906 are reported as deferred outflows of resources and will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended June 30:	
2021	\$ (39,355,822)
2022	(39,355,822)
2023	(39,419,085)
2024	(34,124,210)
2025	(18,377,265)
2026	 (3,977,562)
Total	\$ (174,609,766)

Actuarial assumptions: The total OPEB liability as of June 30, 2019 was determined by an actuarial valuation as of June 30, 2018 using the following actuarial assumptions and other inputs, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2019:

Inflation Salary increases	2.75% 3.25 – 8.75%, including inflation
Long-term expected rate of return	7.30%, compounded annually, net of investment expense, and including inflation
Healthcare cost trend rate:	
Pre-Medicare Eligible	7.250%
Medicare Eligible	5.375%
Ultimate trend rate	
Pre-Medicare Eligible	4.75%
Medicare Eligible	4.75%
Year of Ultimate trend rate	
Pre-Medicare Eligible	2028
Medicare Eligible	2022
Pre-Medicare Eligible Medicare Eligible Ultimate trend rate Pre-Medicare Eligible Medicare Eligible Year of Ultimate trend rate Pre-Medicare Eligible	5.375% 4.75% 4.75% 2028

Note 15. OTHER POST EMPLOYMENT BENEFITS (OPEB) (Continued)

Mortality rates were based on the RP-2000 Combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale BB as follows:

- For TRS Members: The RP-2000 White Collar Mortality Table projected to 2025 with projection scale BB (set forward 1 year for males) was used for death after service retirement and beneficiaries. The RP-2000 Disabled Mortality Table projected to 2025 with projection scale BB (set forward 2 years for males and four years for females) was used for death after disability retirement.
- For PSERS Members: The RP-2000 Blue Collar Mortality Table projected to 2025 with projection scale BB (set forward 3 years for males and 2 years for females) was used for the period after service retirement and for beneficiaries of deceased members. The RP-2000 Disabled Mortality Table projected to 2025 with projection scale BB (set forward 5 years for both males and females) was used for the period after disability retirement.

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of an actuarial experience study for the pension system, which covered the five-year period ending June 30, 2014, and adopted by the pension Board on December 17, 2015. The next experience study for TRS will be for the period ending June 30, 2018.

The remaining actuarial assumptions (eg., initial per capita costs, healthcare cost trends, rate of plan participation, rates of plan election, etc.) used in the June 30, 2017 valuation were based on a review of recent plan experience done concurrently with the June 30, 2018 valuation.

Projection of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the Board and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculation.

Note 15. OTHER POST EMPLOYMENT BENEFITS (OPEB) (Continued)

The long-term expected rate of return on OPEB plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Long-Term Expected

Asset class	Target allocation	_	Long-term expected real rate of return*
Fixed income	30.00	%	(0.10) %
Domestic large equities	46.20		8.90
Domestic small equities	1.30		13.20
International developed market equities	12.40		8.90
International emerging market equities	5.10		10.90
Alternatives	5.00	_	12.00
Total	100.00	%	

* Net of inflation

Discount rate: The discount rate has changed since the prior measurement date from 3.87% to 3.58%. In order to measure the total OPEB liability for the School OPEB Fund, a single equivalent interest rate of 3.58% was used as the discount rate. This is comprised mainly of the yield or index rate for 20 year tax-exempt general obligation municipal bonds with an average rating of AA or higher (3.50% per the Bond Buyer Index). The projection of cash flows used to determine the discount rate assumed that the current sharing of costs between the employer and the member will continue and that contributions from the employer will be made at the current level as averaged over the last five years, adjusted for annual projected changes in headcount. Projected future benefit payments for all current plan members were projected through 2119. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make OPEB payments for inactive employees through year 2026. Therefore, the calculated discount rate of 3.58% was applied to all periods of projected benefit payments to determine the total OPEB liability.

Note 15. OTHER POST EMPLOYMENT BENEFITS (OPEB) (Continued)

Sensitivity of the District's proportionate share of the net OPEB liability to changes in the discount rate:

The following presents the District's proportionate share of the net OPEB liability calculated using the discount rate of 3.58%, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.58%) or 1-percentage-point higher (4.58%) than the current rate:

	1%			Current	1 %
	Decrease		Discount Rate		Increase
		(2.58%)		(3.58%)	 (4.58%)
District's proportionate share					
of the net pension liability	\$	878,399,149	\$	755,722,646	\$ 655,930,818

Sensitivity of the District's proportionate share of the net OPEB liability to changes in the healthcare cost trend rate:

The following table presents the District's proportionate share of the net OPEB liability, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower and 1-percentage-point higher than the current healthcare cost trend rates:

	1%		Current	1 %
	 Decrease	D	Discount Rate	 Increase
District's proportionate share of				
the net pension liability	\$ 636,616,261	\$	755,722,646	\$ 906,996,793

OPEB plan fiduciary net position: Detailed information about the OPEB plan's fiduciary net position is available in the Comprehensive Annual Financial Report which is publicly available and can be obtained at <u>https://sao.georgia.gov/comprehensive-annual-financial-reports</u>.

Note 16. CHANGE IN ACCOUNTING PRINCIPLE

In conjunction with the implementation of Governmental Accounting Standards Board (GASB) Statement No. 84, Fiduciary Activities, the School District is required to reevaluate the accounting treatment of fiduciary activities. The new standard requires the School District to determine if funds are still considered fiduciary, and if so, if they are considered custodial funds under the new definitions of GASB Statement No. 84. Therefore, in conjunction with the implementation of GASB Statement No. 84 the following restatements were required to the beginning fund balance of the governmental funds and net position of governmental activities to properly report the District's student activities and payroll withholdings.

	G	Activities
Net Position - Beginning of Year, As Originally Presented	\$	121,136,000
Restatements for Implementation of GASB No. 84		1,647,000
Net Position, Beginning of Year, Restated	\$	122,783,000

Notes to Required Supplementary Information For the Year Ended June 30

Teacher Retirement System of Georgia

Changes of assumptions: In 2010 and later, the expectation of retired life mortality was changed to the RP-2000 Mortality Tables rather than the 1994 Group Annuity Mortality Table, which was used prior to 2010. In 2010, rates of withdrawal, retirement, disability and mortality were adjusted to more closely reflect actual experience. In 2010, assumed rates of salary increase were adjusted to more closely reflect actual and anticipated experience.

On November 18, 2015, the Board adopted recommended changes to the economic and demographic assumptions utilized by the System. Primary among the changes were the updates to rates of mortality, retirement, disability, withdrawal and salary increases. The expectation of retired life mortality was changed to RP-2000 White Collar Mortality Table with future mortality improvement projected to 2025 with the Society of Actuaries' projection scale BB (set forward one year for males).

On May 15, 2019, the Board adopted recommended changes from the smoothed valuation interest rate methodology that has been in effect since June 30, 2009, to a constant interest rate method. In conjunction with the methodology, the long-term assumed rate of return in assets (discount rate) has been changed from 7.50% to 7.25%, and the assumed rate of inflation has been reduced from 2.75% to 2.50%.

Public Schools Employees Retirement System

Changes of assumptions: In 2010 and later, the expectation of retired life mortality was changed to the RP-2000 Mortality Tables rather than the 1994 Group Annuity Mortality Table, which was used prior to 2010. In 2010, rates of withdrawal, retirement, disability and mortality were adjusted to more closely reflect actual experience.

On December 17, 2015, the Board adopted recommended changes to the economic and demographic assumptions utilized by the System. Primary among the changes were the updates to rates of mortality, retirement and withdrawal. The expectation of retired life mortality was changed to the RP-2000 Blue Collar Mortality Table projected to 2025 with project scale BB (set forward 3 years for males and 2 years for females).

On March 15, 2018, the Board adopted a new funding policy. Because of this new funding policy, the assumed investment rate of return was reduced from 7.50% to 7.40% for June 30, 2017 actuarial valuation. In addition, based on the Board's new funding policy, the assumed investment rate of return was further reduced by 0.10% from 7.40% to 7.30% as of the June 30, 2018 measurement date.

Notes to Required Supplementary Information For the Year Ended June 30

School OPEB Fund

Changes of benefit terms: There have been no changes in benefit terms.

Changes in assumptions: The June 30, 2017 actuarial valuation was revised, for various factors, including the methodology used to determine how employees and retirees were assigned to each of the OPEB Funds annd anticipated participation percentages. Current and former employees of State organizations (including technical colleges, community service boards and public health departments) are now assigned to the State OPEB fund based on their last employer payroll location irrespective of retirement affiliation.

The discount rate was updated from 3.07% as of June 30, 2016 to 3.58% as of June 30, 2017 to 3.87% as of June 30, 2018, and back to 3.58% as of June 30, 2019.

In the June 30, 2015 actuarial valuation, decremental and underlying inflation assumptions were changed to reflect the Retirement Systems' experience studies.

In the June 30, 2012 actuarial valuation, a data audit was performed and data collection procedures and assumptions were changed.

COMBINING AND INDIVIDUAL FUND STATEMENTS AND SCHEDULES

Nonmajor Governmental Funds

Special Revenue Funds

These funds are used to account for proceeds of specific revenue sources that are legally restricted or committed to expenditures for specified purposes other than debt service or capital projects. These funds also account for receipts and expenditures of resources transferred from the General Fund where revenues are inadequate to finance specified activities.

Donations	This fund is created to provide accounting of donations which are made to the District for specific purposes by individuals or organizations.
Facility Use/Public Safety	This fund is created to provide accounting of the Facility Use program which organizes the rental of school facilities during non-instructional hours to provide the community with a place to hold activities at a nominal fee and to account for funds collected for parking decals sold to students, which are used to pay for campus police officers. In addition to parking decals sold to students, funds are transferred from the General fund.
After School Program	This fund is created to provide accounting of funds for the After School Program which utilizes designated school facilities for the purpose of providing supervision to children from school release time until 6:00 p.m. These revenues have been committed by the Board for use by local principals to benefit students and faculty subject to District policy.
Performing Arts/Art Career and Cultural	This fund is created to account for funds for the Performing Arts Program which offers an opportunity for students in kindergarten through eighth grade to experience professional quality performing arts experiences. These experiences include off-campus trips to art museums, symphony concerts, ballet and theater performances, as well as in-house musical and dramatic presentations. The program is funded through voluntary student contributions and charges for participation. Art Career and Cultural fund is created to provide accounting of funds which are provided to local artists as compensation for workshops held in the district's schools.
Tuition School/Adult High School	This fund is created to provide accounting for the Tuition School Program which provides the opportunity for students to make up school classes and provide enrichment and remedial work at various instructional levels. This program is supported by user tuition charges. This fund is created to account for funds for the Adult High School Program which provides the opportunity for students 16 years of age, and older, who are not enrolled in a regular high school, to improve their basic educational skills and work towards high school completion.
Miscellaneous Grants	This fund is established to provide accounting of funds received and represent a compilation of several grants which are awarded for educational purposes.

School Nutrition/FNS Catered Food Service	This fund is established to provide accounting of funds which are used for the operation of school lunchrooms. All lunches and breakfasts provide at least one-third of each student's nutritional needs and are available at a minimal cost. Free and reduced meals are provided for qualifying students. All lunchrooms are regularly inspected by the Cobb County Health Department and meet prescribed standards of the State Department of Education. The FNS Catered Food Service fund is established to offer additional revenue and staff training.
Pre-Kindergarten (Lottery)	This fund is established to prepare children for Kindergarten. This program is funded by the Georgia lottery and is a voluntary for all eligible four year olds residents.
Adult Education	This fund is established to provide accounting for grant funds via the Georgia Department of Technical and Adult Education which are used to educate adults and is a part of the national effort to ensure that all adults are literate and able to compete in the global economy.
GNETS	This fund is established to provide accounting for grant funds via the Georgia Department of Education which are used to provide appropriate education for students identified as severely emotionally behavior disordered, or autistic. This fund reports a restricted fund balance due to an MOU with other metro school districts.
Title I	This fund is established to provide accounting of Title I funds which are provided as part of the No Child Left Behind Act of 2001. This act provides federal funds through the Georgia Department of Education to local school districts to help disadvantaged children meet high standards. The goal is to have a quality education for all children by having local schools and state departments work together.
Special Education	This fund is established to provide accounting of federal revenues received to provide programs for direct and related support services for handicapped children.
Vocational Education	This fund is established to provide accounting of federal grant revenues provided for career training and opportunities to students.
Title II	This fund is established to provide accounting of federal categorical grant funds which flow through the Georgia Department of Education to our school district. The funds are used to advance teacher quality through professional learning, preparation, recruitment and retention as well as upgrading teachers' skills in science and math through training.
Homeless Grant	This fund is established to provide accounting of funds for federal categorical grant funds which flow through the Georgia Department of Education and are used to provide educational services to homeless children.
USDA Fruits and Vegetables	This fund is established to provide accounting of federal grant funds which flow through the Georgia Department of Education Food and Nutrition Program. The funds provide free fresh fruits and vegetables to school children outside of the lunch or breakfast food service periods.
Title III	This fund is established to provide accounting of federally funded grants for programs that support Limited English Proficiency (LEP) students and their families, through language instructional programs. These programs include community participation programs, family literacy services, parent outreach and training activities to improve the English language skills of limited English proficient children and assistance for parents in helping their children to improve their academic achievement.

Title IVThis fund is established to provide accounting of federal categorical grant funds which are
directly funded from the U.S. Department of Education and may flow through the Georgia
State Department of Education. The funds are used to promote the Safe and Drug Free
Schools Program, the Mentoring Program and the 21st Century Community Learning
Centers Program for students in our schools.Local School FundsThis fund is established to provide accounting for local school resources generated through
ticket sales, commissions, vending, donations, etc. in which the administration has a
material degree of involvement. These revenues have been committed by the Board for use
by local principals to benefit students and faculty subject to District policy. Beginning in
FY20, Student activity funds are reported in this fund.

Capital Projects Funds

These funds are established to provide accounting for financial resources to be used for the acquisition and construction of major capital facilities. The District has two nonmajor funds used for those purposes; the District Building Fund and the Special Purpose Local Option Sales Tax IV Fund.

Internal Service Funds

These funds are established to account for the financing of goods or services provided by one department to other departments on a cost-reimbursement basis. The District has two individual funds in the Internal Service Funds category. The Unemployment Compensation and Self-Insurance are used to account for the District's self-insurance programs.

COBB COUNTY SCHOOL DISTRICT COMBINING STATEMENT OF FUND NET POSITION INTERNAL SERVICE FUNDS JUNE 30, 2020

STATISTICAL SECTION (Unaudited)

This part of the District's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information says about the District's overall financial position.

Contents

Financial Trends

These schedules contain trend information to help the reader understand how the District's financial performance has changed over time.

Revenue Capacity

These schedules contain information to help the reader understand and assess the District's most significant own-source revenue, the property tax.

Debt Capacity

These schedules present information to help the reader assess the affordability of the District's current level of outstanding debt and the District's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.

Operating Information

These schedules contain operating statistics, capital asset data, staffing information and key performance indicators to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.

Sources:

Unless otherwise noted, the information contained here is derived from comprehensive annual financial reports for the indicated years. The District began implementation of GASB Statement No. 54 as of July 1, 2010, implementation of GASB Statements No. 63 and 65 as of July 1, 2012, implementation of GASB Statements No. 68 and 71 as of July 1, 2014, and the implementation of GASB Statement No. 75 as of July 1, 2017.

										Concluded.

(a) Original Clarkdale building destroyed by flood fall 2009. Clarkdale Replacement school opened for school year 2012-13.

(b) In fiscal year 2016, Haven Academy combined its two campuses (Fitzhugh Lee and Hawthorne) to become a one campus program at the Sky View facility.

(c) Haven @ Fitzhugh Lee enrollment is included with Hawthorne until school year 2010-11.

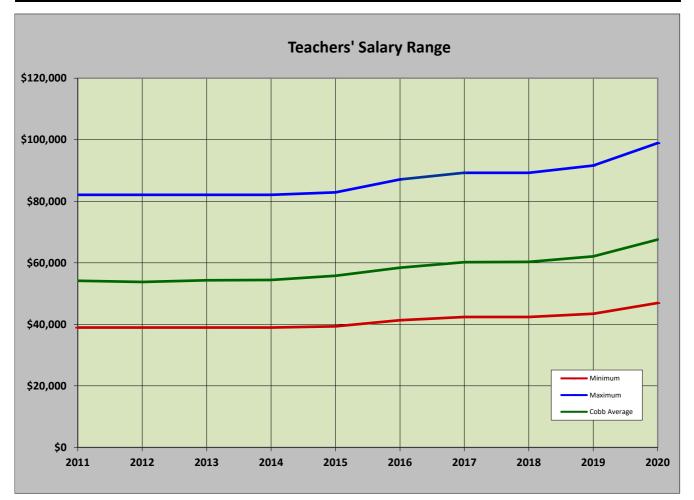

(d) Operated by a nonprofit, enrollment reported by CCSD; buildings do not belong to CCSD. Mableton Charter closed May 2012.

(e) Oakwood and the Performance Learning Center opend as Cobb Horizon High School on the Oakwood campus August 2018.

Data reflects the new Five-Year Local Facilities Plan approved by the Board on April 28, 2016. The 2016 - 2020 Local Facilities Plan has been approved by the Georgia Department of Education and validated by a Facilities Survey Team as required by State BOE rules.

(a) Occupied year represents the year during which the school was initially opened and utilized for instructional purposes, but does not reflect the most recent year of subsequent additions, improvements, or renovations, if any.

- (b) With the opening of Smyrna Elementary for school year 2013-14, Brown Elementary closed at the end of 2012-13. During fiscal year ended 2015, Brown facilities were used to house Teasley primary grades during construction of new classrooms at Teasley Elementary.
- (c) Operated by unaffiliated non-profit entities. Enrollment reported by Cobb County School District; buildings do not belong to the district.
