

Honors Advanced Algebra Summer Assignment 2025

Welcome to Honors Advanced Algebra!

This DeltaMath review is required and represents the skills we expect our students to know before taking Honors Advanced Algebra. Mastery of these skills is necessary for success in this course.

Please use these questions as a review to help you identify the areas where you may need some extra practice. While you may only be required to do 3 or 4 problems in each section, you can always do more! During the first week of school, you will take a prerequisite skills quiz covering these topics. This quiz will come directly from the material covered in this DeltaMath review assignment. We look forward to an amazing year filled with lots of learning!!

The assignment will be posted on 5/26/25 and due 8/4/25. There will be a quiz on Friday, 8/8/25 covering these skills.

If you already have a DeltaMath account through Clever (CCSD):

1. Login to your Clever Account
2. Select the DeltaMath icon
3. Select "Add New Class" on the right
4. Enter Code: [QW3S-N4VX](#)
5. Complete "Honors Advanced Algebra Summer Assignment 2025"

If you do not have a DeltaMath account:

1. [DeltaMath.com](#)
2. Students
3. Register
4. Class Code: [QW3S-N4VX](#)
5. Select "Honors Advanced Algebra Summer Assignment 2025"
6. Register with Email
7. Password (We suggest your Student ID)
8. Sign in and Register

Any questions? Email Erica.Cason@cobbk12.org. Email will be checked weekly throughout the summer.

Please come prepared with the TI-84 Plus CE calculator.

Students will be permitted to use a scientific and/or graphing calculator for most units.
