

## Honors Chemistry- Summer Assignment

Welcome to Honors Chemistry,

Honors chemistry is for the student who desires a more in-depth study of science that will incorporate various aspects of science and math with an emphasis on both mastery and critical thinking/application skills. This is a fast-paced course that requires much outside classroom preparation. This summer assignment is essential to a good foundation as we will be using these elements for the ENTIRE SCHOOL YEAR! This class requires a strong work ethic and the ability to work independently. Let's start strong by getting a head start!

The elements on the periodic table are essential to everything we will do this school year in Honors Chemistry. Knowing the elements by NAME and SYMBOL is crucial to your success in ALL future units. Therefore, you are expected to MEMORIZE the following elements' names and corresponding symbols. There are practice pages at the end of this document to help you study the element names and symbols. [Element Flash Cards](#) is also a GREAT website to help you learn the element names and symbols. Click the link to the [Element Flash Cards Website](#) and click "More options, please" and you can choose exactly what elements you want to study. Do not wait until the end of the summer to begin this assignment! Memorize a few elements every day!

**Memorize the 81 required elements – expect an assessment** during the second full week of school over the required elements

- You must memorize elements 1-95 on the periodic table (H through Am)
- You are NOT responsible for elements 58-71 (Ce through Lu)
- You must memorize symbol (capitalization is important) and correct spelling of the element
- You do NOT need to know the numbers nor the location of the elements.

## Honors Chemistry- Summer Assignment

### Practice Pages

These pages are to help you learn the required 81 elements. For each element 1-95 (excluding elements 58-71), you must correctly spell the name of the element and recall the element symbol with proper capitalization. These pages are not to be turned in. Making flashcards is also recommended as a study tool.
