

## Our Mission

Our vision of “maximizing student achievement in a culture of caring”, has led us to our focus on Mabry’s HEART: High Expectations, Achievement, Relationships, and Technology”. “Mabry has HEART” is widely recognized by the community as symbolic of the collaborative work of teachers, students, and the community.

The acronym can be used to capture the essence of the school’s focus for continued improvement in preparing students for college and career readiness, as well as our priority of supporting our students through intentional, social-emotional learning.

**Respectful.  
Responsible.  
Safe.**

**Join a school where your child can grow  
academically, creatively, and emotionally.**

**Maximizing student  
achievement in a  
culture of caring**

## About Mabry

Located in Northeast Cobb County, Mabry Middle School is known for academic excellence, award-winning fine arts, STEM innovation, and a strong, supportive community. We prepare students for success—in school and in life—with a balance of rigor, creativity, and care.

Mabry is widely acknowledged for excellence in music, with nearly 90% of 6th grade students enrolling in the music programs each year. Our Band, Orchestra, and Chorus programs consistently earn Superior Ratings at Georgia Music Educator's Performance Evaluations, and as a result, they receive invitations to perform at district, state and national conferences and events each year. In addition, individual students routinely earn spots in district and state honor ensembles.

Mabry is also a STEM-focused school and we have earned CCSD and Advanced Ed STEM certifications. In addition to our focus on STEM (Science, Technology, Engineering, and Math), we believe strongly in the importance of arts-integration.

Therefore, because STEAM embeds the concepts of STEM and recognizes the importance of the fine art programs such as music and visual arts for the creative processes that lead to innovation and invention, STEAM certification is Mabry's next step. Through our focus on STEAM concepts, we will continue to prepare students to be divergent, innovative thinkers as we increase our emphasis on collaborative, cross-curricular approaches to problem and project-based learning.

## 4 Pillars That Make Mabry Unique:

### Award-Winning Fine Arts

- 90% of 6th graders participate in music
- Chorus, Band, and Orchestra earn state and national honors

### STEM + STEAM Certified

- STEM-certified; pursuing STEAM certification
- Project-based learning that blends science, arts, and innovation

### Positive School Culture

- “Mabry has HEART”: High Expectations, Achievement, Relationships, Technology
- Programs like Sources of Strength and Second Step support student wellness and leadership

### Future-Ready Technology

- 1:1 device access, computer labs, and BYOD program
- Digital citizenship and hands-on tech integration across subjects

**STEAM is the future—and it's happening now at Mabry!**
