

Welcome to Math 6/7

We are very excited to meet you and work with you in the upcoming year!

Please use the following problems to practice the prerequisite skills needed to be most prepared for math 6/7. Your student should work through the following pages and **SHOW ALL** work. Please do not use a calculator. There are some helpful math tips included as you work through the pages to provide reminders on different topics.

When you have completed the summer packet, you may use the following website to preview the units we will cover in math 6/7. You will want to go through all the units of 6th grade and all the units of 7th grade.
