What if you need help in your math class?

1) Ask more questions during class.
2) Take good notes – write down **_everything_** your teacher writes on the board.
3) Do **_all_** your homework.
4) Form a Study Group with other students in your math course – they don't have to be in your same class period.
5) See your teacher before or after school for extra help.
6) See other math teachers on the list above outside of class for extra help.
7) Take advantage of online resources for your textbook.
8) Don't wait until the morning of a test or quiz to start getting help – plan ahead!
