**Hints if you’re struggling in your math class:**

- 1) Ask more questions during class and do **all** your homework.
- 2) Take good notes – write down **everything** your teacher places on your screen.
- 3) Take advantage of online resources such as provided materials or Khan Academy or [www.mathispower4u.com](http://www.mathispower4u.com).
- 4) Form a Study Group with students in your math course – they don’t have to be in your same period.
- 5) See your teacher or other math teachers for extra help.
- 7) Don’t wait until the morning of a test or quiz to start getting help – plan ahead!

*\*If **all** the above isn’t enough, consider hiring a math tutor to address specific weaknesses.*
