# COBB SCHOOLS
NEW STUDENT REGISTRATION

Step One:
Go to: olr.cobbk12.org

Step Two:
Complete: Online Registration
You can register using most internet enabled devices

Optional:
If you are not able to register online, contact your local school.

Our goal is to register your student efficiently and effortlessly through this safe and secure system. The enrolling adult can register all students in their family at one time. This tool will provide the convenience of entering information with the ability to save the work for later completion.

If you have a current Cobb county student, you will need to use your ParentVue account to register additional new students. Current families that do not have a ParentVue account will need to contact their local school to receive a ParentVue activation code prior to completing the Online Registration for your new student.

Check the school website for more information.
