

# School Improvement Plan

## Title I, Part A

School Year:	2025 - 2026
School Name:	Osborne High School
Principal Name:	Dr. Troy Jones
Date Submitted:	
Revision Date(s):	

<i>District Name</i>	Cobb County School District
<i>School Name</i>	Osborne High School
<i>Team Lead</i>	Sherrye Tillman
<i>Position</i>	Instructional Coach
<i>Email</i>	Sherrye.tillman@cobbk12.org
<i>Phone</i>	770 437 5900 ext. 039
<b>Federal Funding Options to Be Employed in This Plan (SWP Schools. Select all that apply.)</b>	
X	Traditional funding (all Federal funds budgeted separately)
	Consolidated funds (state/local and federal funds consolidated) - Pilot systems <b>ONLY</b>
	"Fund 400" - Consolidation of Federal funds only
<b>Factor(s) Used by District to Identify Students in Poverty (Select all that apply.)</b>	
X	Free/Reduced meal applications
	Community Eligibility Program (CEP) - Direct Certification <b>ONLY</b>
	Other (if selected, please describe below)

<p>In developing this plan, briefly describe how the school sought and included advice from individuals (teachers, staff, other school leaders, paraprofessionals, specialized instructional support personnel, parents, community partners, and other stakeholders).  <i>References: Schoolwide Checklist 3.b.[Sec. 2103(b)(2)]</i></p>
<p><b>School Response:</b></p> <p>In developing this plan, the school actively sought input from a diverse group of stakeholders. Instructional coaches and administrators first collaborated to identify key committee members who could provide meaningful input on the graduation rate goal. Each core content department then held a minimum of three structured meetings. During these sessions, teachers and staff analyzed relevant data, identified root causes of performance gaps, and collaboratively developed one to two targeted action steps aligned with their departmental goals. This inclusive process ensured that the voices of educators, support personnel, parents and students were central to shaping the plan's direction and evidence-based strategies.</p>

## IDENTIFICATION of STAKEHOLDERS

Stakeholders are those individuals with valuable experiences and perspectives who will provide the team with important input, feedback, and guidance. Stakeholders must be engaged in the process to meet requirements of participating federal programs. Documentation of stakeholder involvement must be maintained by the school. Suggested stakeholder participation includes the following roles. **A parent is required.**

Positions and Roles to consider when developing the SIP Committee.

<b>Required Stakeholders</b>	<b>Suggested Stakeholders</b>
Administrative Team	Parent Facilitators
Content or Grade Level Teachers	Media Specialists
Local School Academic Coaches	Public Safety Officers
District Academic Coaches	Business Partners
<b>Parent (a Non-CCSD Employee)</b>	Social Workers
<b>Student (Required for High Schools)</b>	Community Leaders
<b>Structured Literacy Coach (For CSI/ TSI Schools)</b>	School Technology Specialists
<b>MRESA School Improvement Specialist (For Federally Identified Schools)</b>	Community Health Care Providers
	Universities or Institutes of Higher Education

**SCHOOL IMPROVEMENT PLAN COMMITTEE MEMBERS - SIGNATURE PAGE**

The comprehensive needs assessment (CNA) and school improvement plan (SIP) team consists of individuals responsible for working collaboratively throughout the needs assessment and plan development process. Ideal team members possess knowledge of programs, the capacity to plan and implement the needs assessment, and the ability to ensure stakeholder involvement. Documentation of team member involvement must be maintained by the school. Multiple meetings should occur and a sign-in sheet must be maintained for each meeting.

<b>Meeting Dates:</b>	April 17, 2025	April 28, 2025	May 5, 2025	May 8, 2025
-----------------------	----------------	----------------	-------------	-------------

<b>Position/Role</b>	<b>Printed Name</b>	<b>Signature</b>

## Comprehensive Needs Assessment Evaluation of Goal(s)

(References: Schoolwide Checklist Section 1114(b)(1)(A))

Collaborate with your team to complete the questions below regarding the progress the school has made toward each goal in the School Improvement Plan (SIP).

<b>Previous Year's Goal #1</b>	<p>By May 2027, the graduation rate of the FY27 cohort will increase from our current <del>74.33</del> 77.39 to 78.39%.</p> <ul style="list-style-type: none"> <li>May 2023: 498 Graduated /670 FY23 Cohort = 74.33 Graduation Rate</li> <li>May 2024: 499 Graduated/654 FY24 Cohort = <del>77.63</del> 77.39 Graduation Rate</li> <li>Benchmark 1: May 2024: 575 (0.753 x 764) students will be on track for graduation. (Completed) <ul style="list-style-type: none"> <li>FY27 Cohort May 2024 Progress: 525/764 (69%) of current 9th graders are on track to graduate. (Before Course Ext)</li> </ul> </li> <li>Benchmark 2: May 2025: 579 (0.763 0.785 x 738) students will be on track for graduation. <ul style="list-style-type: none"> <li>FY27 Cohort January 2025 Progress: 611/738 (83%) of current sophomores are on track to graduate. 127 students are off cohort.</li> </ul> </li> <li>Benchmark 3: May 2026: 587 (<del>0.773</del> 0.795 x <del>764</del> 738) students will be on track for graduation.</li> <li>Benchmark 4: May 2027: 594 (<del>0.783</del> 0.785 x <del>764</del> 738) students will graduate (Graduation Rate of 78.39%).</li> </ul>
<b>Was the goal met?</b> <input checked="" type="checkbox"/> YES <input type="checkbox"/> NO <input type="checkbox"/> Partially	
What data supports the outcome of the goal?	CCRPI Graduation Rate 9 <sup>th</sup> Grade Intervention Students' Course Pass Rates 11 <sup>th</sup> and 12 <sup>th</sup> Students' Course Pass Withdrawal Spreadsheet
<b>Reflecting on Outcomes</b>	
If the goal was <b>not met</b> , what actionable strategies could be implemented to address the area of need?	
If the goal was <b>met or exceeded</b> , what processes, action steps, or interventions contributed to the success of the goal and continue to be	<p>9th Grade Interventional Team: The goal of the team was to provide early interventions to target students who were most at-risk of not graduating in 4 years to positively impact the 4-year graduation rate. The team was formed of teachers, counselors, instructional coaches, and administrators. Each team member mentored students identified from the Title I Rank Order List and monitored their progress towards earning two core content credits and one elective credit each semester. Students were provided incentives by their mentor for reaching attendance targets and grade targets.</p> <p>Edmentum: Based on the 2023 Edmentum training, 100% of Core teachers implemented Cardinal Grade Repair initiative by utilizing Edmentum to allow students to repair their grades every 7 weeks throughout the semester. The non-core teachers implemented the Cardinal Grade Repair initiative through their department Collaborative Team (CT) recovery plan. Edmentum</p>

implemented to sustain progress?	<p>reports show increased student usage from September to December, based on the students receiving ongoing support in person for the 2024 and 2025 semester. In addition, 100% of the core courses utilized Edmentum for Cardinal Grade Repair and 100% of Non-Core CTs have created and implemented a recovery plan per content. There was a decrease in the number of overall courses that fell between a 69 and below. For all course that fell below 69, 39.9% of students failed by January 2025, which was 833 out of 2085 courses. When looking at core courses, 30.3%, which was 633 out of 2085 final grade fell below 69. The number of students with a 69 and below in the courses offered in the Fall 2024 during each of CGR sessions. There was a decrease in the number seniors in courses failed from the first grade pull to the last, by 18.24% 60 out of 329. This prompted and additional session to be added after final grades were</p> <p>Cohort Cleanup: The goal for FY 23-24 was for 542 students to be on track for graduation out of 780 (69.5% graduation rate). As of graduation 5/22/24, we graduated 496 students out of 654 (76% graduation rate,) which exceeds the previous goal of 74.1% by May 2027 and exceeds the previously written benchmark goals for 2024-2027. This was accomplished by determining who, when, and why we are losing students through withdrawals, transfers, course failure, and dropping out as addressed in the FY24 Plan. These determinations were made through the development of a committee to address these graduation cohort concerns. Trend data and cohort withdrawal data were monitored to help address these concerns and positively impact graduation rate. To address the cohort concerns, a committee made up of administrators, counselors, a clerk, and an instructional coach met to review data and identify students at risk of not graduating. The committee looked at withdrawals, transfers, course failures, drop out lists as well as other data points. Once students were identified, processes were put in place to remove them from the graduating cohort if they were no longer attending the school or interventions were put in place to help students achieve graduation.</p> <p>ELlevation: The teachers continued to go through the modules in ELlevation to support our multilingual learners (ELLs) in the school. For the SY 24-25 school year 96.95% of teacher completed the pathways. Although the goal was to have a 100% completion rate, 3.05% left before the end of the year resulting in us not meeting the 100% completion goal.</p>
----------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

<b>Previous Year's Goal #2</b>	Students scoring proficient or distinguished on the Algebra EOC will increase from 30.49% to 31.40% as indicated by the CCRPI data (Closing the Gap, 3% increase).
<b>Was the goal met?</b> <input type="checkbox"/> YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> Partially	
What data supports the outcome of the goal?	147 of the 751 students tested, scored proficient or distinguished. This makes a 19.57% proficiency rate. This data comes from the EOC scores (SLDS Longitudinal Data).
<b>Reflecting on Outcomes</b>	

If the goal was <b>not met</b> , what actionable strategies could be implemented to address the area of need?	Utilize a backward design to plan units based on EOC assessment blueprints, emphasizing both content and depth of knowledge. Establish a systematic approach to data collection and analysis using formative and benchmark aligned with EOC standards. Use data protocols to adjust instruction, group students for targeted interventions, and identify learning gaps early. Integrate more performance tasks and real-world applications to build reasoning, modeling, and problem-solving skills. Administer diagnostic assessments at the beginning of each unit to identify prerequisite skill gaps. Implement targeted intervention or remediation plans for students with foundational deficiencies. Utilize vetted resources to support diverse learning styles.
If the goal was <b>met or exceeded</b> , what processes, action steps, or interventions contributed to the success of the goal and continue to be implemented to sustain progress?	

<b>Previous Year's Goal #3</b>	Students scoring proficient plus advanced on the CCRPI American Lit EOC will increase from 29.84% to 30.7% (CCRPI Closing the Gap). Our goal is for 203 (685 approximate total) students to be proficient plus advanced by May 2025.
<b>Was the goal met?</b> <input type="checkbox"/> YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> Partially	
What data supports the outcome of the goal?	26% (160 students) of 627 students scored proficient + distinguished, based on local school raw data.
<b>Reflecting on Outcomes</b>	

<p>If the goal was <b>not met</b>, what actionable strategies could be implemented to address the area of need?</p>	<p>The English team will implement targeted strategies to strengthen students' literacy and language development through explicit instruction in vocabulary, reading comprehension, and text analysis. Students will engage in regular, structured writing activities—particularly writing on demand—to build fluency and confidence in expressing their ideas under time constraints. Teachers will conduct one-on-one and small group reading and writing conferences to provide personalized feedback and support, while also guiding students in setting and reflecting on individual literacy goals. These strategies aim to create a responsive, student-centered learning environment, with progress monitored through formative assessments, student work samples, and ongoing instructional walkthroughs.</p>
<p>If the goal was <b>met or exceeded</b>, what processes, action steps, or interventions contributed to the success of the goal and continue to be implemented to sustain progress?</p>	

**Comprehensive Needs Assessment – Summary of Findings (Schoolwide)** Section 1114(b)(1)(A)

## GRADUATION RATE DATA IMPROVEMENT PLAN

<b>GOAL #1: Graduation Rate</b>	<p>By May 2027, the graduation rate of the FY27 cohort will increase from our current 74.33 77.39 to 78.39%.</p> <ul style="list-style-type: none"> <li>May 2023: 498 Graduated /670 FY23 Cohort = 74.33 Graduation Rate</li> <li>May 2024: 499 Graduated/654 FY24 Cohort = 77.63 77.39 Graduation Rate</li> </ul> <p><b>Benchmark 1: May 2024: 575 (0.753 x 764) students will be on track for graduation. (Completed)</b></p> <ul style="list-style-type: none"> <li>FY27 Cohort May 2024 Progress: 525/764 (69%) of current 9th graders are on track to graduate. (Before Course Ext)</li> </ul> <p><b>Benchmark 2: May 2025: 579 (0.763 0.785 x 738) students will be on track for graduation.</b></p> <ul style="list-style-type: none"> <li>FY27 Cohort January 2025 Progress: 611/738 (83%) of current sophomores are on track to graduate. 127 students are off cohort.</li> <li><i>Benchmarks 2 – 4: Adjusted to reflect 1% incremental growth from our current goal of 77.39 and the current enrollment of the FY27 Cohort (738 students). These numbers will adjust over time.</i></li> </ul> <p><b>Benchmark 3: May 2026: 587 (0.773 0.795 x 764 738) students will be on track for graduation.</b></p> <p><b>Benchmark 4: May 2027: 594 (0.783 0.785 x 764 738) students will graduate (Graduation Rate of 78.39%).</b></p>
<b>Root Cause(s) to be Addressed:</b>	<p>First time 9<sup>th</sup> grade students need a system of support with specific interventions aimed at keeping them on track for graduating on time.</p> <p>Parents, teachers and students are not clear on all of the available opportunities for students to repair their grades in order to get on track with their cohort (grade repair, CVA, GVA, etc).</p> <p>Strong cohort monitoring systems are in place; continued progress requires refining and scaling these efforts to increase personalized support and re-engagement of withdrawn students.</p> <p>Teachers need to be equipped with more instructional strategies to provide language support for our growing population of multilingual learners.</p>

ELA DATA ANALYSIS & FINDINGS		
<b>AMERICAN LITERATURE &amp; COMPOSITION (3-year trends)</b>  <b>What trends exist for all students in the:</b>	<b>Strengths</b> According to the Longitudinal EOC data, from 22-23-24, overall our level 4 students improved- 0% to 2% to 4%.	<b>Weaknesses</b> According to the Longitudinal EOC data, from 22-23-24, all of our students need to be moving up more clearly. The data seems inconsistent.
<b>Percentage of students reading on grade level or below grade level?</b>	Students are improving overall  2.5% of Distinguished Learners	A significantly high percentage of Beginning Learners (63.81%) and 0% of Distinguished Learners. A significantly high percentage of Beginning Learners (61.25%).
<b>Percentage of students scoring in Level 1, 2, 3, 4 (increases, decreases, no increase or decrease)?</b>	SY22 to SY23 In Winter, the percentage of students scoring at Level 4 increased by 2%. In Winter, the percentage of students scoring at Level 4 increased by 1%. In Winter, the percentage of students scoring at Level 3 increased by 6%. In Winter, the percentage of students scoring at Level 2 decreased by 5%.	SY22 to SY23 In Winter, the percentage of students scoring at Level 1 increased by 3%. In Spring, the percentage of students scoring at Level 2 increased by 3%. In Spring, the percentage of students scoring at Level 1 increased by 8%. SY23 to SY24  In Spring, the percentage of students scoring at Level 3 decreased by 11%.

	<p>In Spring, the percentage of students scoring at Level 4 increased by 1%.</p> <p>In Spring, the percentage of students scoring at Level 3 increased by 6%.</p> <p>SY23 to SY24</p> <p>In Winter, the percentage of students scoring at Level 2 decreased by 4%.</p> <p>In Winter, the percentage of students scoring at Level 1 decreased by 2%.</p> <p>In Spring, the percentage of students scoring at Level 2 decreased by 5%.</p> <p>In Spring, the percentage of students scoring at Level 1 decreased by 1%.</p>	
<b>Reading domain increases or decreases?</b>	<p><b>Reading and Vocabulary:</b></p> <ul style="list-style-type: none"> <li>• Level 3 increased from 15% to 18%</li> <li>• Level 1 decreased from 69% to 63%</li> </ul> <p><b>Reading Literary Text:</b></p> <ul style="list-style-type: none"> <li>• Level 3 increased from 12% to 18%</li> <li>• Level 1 decreased from 57% to 53%</li> </ul> <p><b>Reading Informational:</b></p> <ul style="list-style-type: none"> <li>• Level 3 increased from 13% to 16%</li> <li>• Level 1 decreased from 63% to 59%</li> </ul> <p>Level 3 Accelerate Learning (Met Target):</p> <p>Winter to Spring: The percentage of students increased from 15% to 19%.</p> <p>Level 2 Monitor Learning (Approaching Target):</p> <p>Winter to Spring: The percentage of students remained relatively stable, with a 2 percent decrease from 31% to 29%.</p> <p>Level 1 Remediate Learning (Below Target):</p> <p>Winter to Spring:</p> <p>Reading Vocabulary - The percentage of students decreased from 69% to 63%.</p>	<p>Grade Level and Above:</p> <p>Spring 23 to Winter 23: The percentage of students at grade level and above decreased from 60% to 58%.</p> <p>Winter 23 to Spring 24: The percentage of students at grade level and above decreased from 58% to 38%.</p> <p>Below Grade Level:</p> <p>Spring 23 to Winter 23: The percentage of students below grade level increased from 40% to 42%.</p> <p>Winter 23 to Spring 24: The percentage of students below grade level increased from 42% to 56%.</p>

	<p>Reading Literary Text - The percentage of students decreased from 57% to 53%.</p> <p>Reading Informational - The percentage of students decreased from 63% to 59%.</p>	
<b>Writing domain increases or decreases?</b>	<p>Significant growth in higher mastery levels (Level 4) for both Extended Writing Task Ideas and Narrative Writing Response.</p> <p>Decrease in lower mastery levels (Level 1) for Writing and Language, and Extended Writing Task Ideas.</p> <p>Writing and Language: Level 1 (Remediate Learning) decreased from 63% to 57%.</p> <p>Language: Level 2 (Monitor Learning) decreased from 26% to 0%. Level 1 (Remediate Learning) decreased from 58% to 0%.</p> <p>Extended Writing Task Ideas: Level 4 (Distinguished) increased from 5% to 6%. Level 1 (Basic) decreased from 21% to 16%.</p> <p>Narrative Writing Response: Level 4 (Distinguished) increased from 19% to 25%. Level 2 (Developing) decreased from 22% to 21%.</p>	<p>Writing and Language: Level 3 (Accelerate Learning) no change from 13% to 13%. Level 2 (Monitor Learning) increased from 18% to 24%.</p> <p>Language: Level 3 (Accelerate Learning) decreased from 9% to 0%.</p> <p>Extended Writing Task Ideas: Level 3 (Proficient) decreased from 27% to 23%. Level 2 (Developing) increased from 42% to 52%.</p> <p>Narrative Writing Response: Level 3 (Proficient) decreased from 35% to 33%. Level 1 (Basic) increased from 13% to 13%.</p>
<p><b>How do the trends differ for EL students?</b></p> <p><b>How do the trends differ for SWD students?</b></p>	<p>ELs Proficiency was at 9.52%.</p> <p>English Learners (ELs) growth target: 22.86 met and exceeded the target of 21.84 showing measurable growth from the previous year.</p>	<p>While the majority of students across most demographic groups are distributed between the Developing and Proficient levels, ELs and SWDs are disproportionately represented in the Beginning Learner category—63.81% and 61.25%, respectively.</p> <p>SWDs (24.38) did not meet the 30.42 improvement target.</p>

How do the trends differ for EL students?	<b>Progress Learning Strengths (Reading Domain):</b>  Highest reading standard: RI3 – Analyze complex ideas/events (84%) Other strong areas: RI4 – Meaning of words/phrases (82%) EL Data Strengths (Reading Domain):  Multiple standards above 85%, including: RL7 – Multiple interpretations (100%) RI4 – Word meanings (91%)	<b>Progress Learning Weaknesses (Reading Domain):</b>  RI2 – Determine themes/central ideas (57%) RI9 – Analyze foundational U.S. documents (58%) Moderate weaknesses in RI5 (74%) and RL4 (66%) EL Data Weaknesses (Reading Domain):  RI7 – Integrate/evaluate sources (56%) RI8 – Evaluate reasoning (62%) L4b – Patterns of word changes (0%)																																																				

	<p>RI5 – Analyze structure (86%)  RI1 – Cite textual evidence (85%)  RL3 – Author’s choices (85%)</p> <p>EL students show stronger performance across a broader range of reading standards, with 9 standards ≥ 85%, compared to only 2 standards ≥ 80% in the general Progress Learning data.</p>	<p>Several standards in the 70–84% range, including RI2 (84%), RI6 (75%), and RL2 (75%)</p> <p>While both groups struggle with RI2 (themes/central ideas) and RI9 (foundational documents), EL students also show extreme lows in L4b (0%) and RI7 (56%), indicating specific gaps in vocabulary development and source evaluation.</p>
<p><b>How do the trends differ for SWD students?</b></p>	<p><b>Progress Learning Strengths (Reading &amp; Writing):</b></p> <p>RI3 – Analyze complex ideas/events: 84%  RI4 – Word meanings: 82%  W8 – Gather info from sources: 93%  L2b – Spell correctly: 81%  Speaking &amp; Listening: 82%  SWD Strengths (Reading &amp; Writing):</p> <p>RL6 – Distinguish indirect meaning: 100%  L4b – Patterns of word changes: 100%  W1b – Develop claims/counterclaims: 100%  W1e – Provide concluding statement: 100%  W3c – Sequence events: 100%  W8 – Gather info from sources: 86%</p> <p>SWD students show perfect mastery (100%) in several targeted standards, especially in writing structure and vocabulary, while Progress Learning students show broader but slightly lower mastery across more general reading and writing skills.</p>	<p><b>Progress Learning Weaknesses (Reading &amp; Writing):</b></p> <p>RI2 – Determine themes/central ideas: 57%  RI9 – Analyze foundational U.S. documents: 58%  L2a – Hyphenation conventions: 61%  W2d – Use precise language: 68%  SWD Weaknesses (Reading &amp; Writing):</p> <p>RL2 – Determine themes/central ideas: 0%  RL7 – Multiple interpretations: 0%  W2a – Introduce a topic: 0%  W3e – Provide a conclusion: 0%  W4 – Clear/coherent writing: 49%  RI7 – Evaluate sources: 58%  L5b – Nuances: 20%</p> <p>SWD students show more extreme lows, with multiple 0% scores in foundational comprehension and writing tasks. This contrasts with Progress Learning students, who have fewer critical gaps but still need support in theme identification and document analysis.</p>
<p><b>Check the system that contributes to the root cause:</b></p> <p><input checked="" type="checkbox"/> Coherent Instruction  <input checked="" type="checkbox"/> Professional Capacity  <input type="checkbox"/> Effective Leadership  <input checked="" type="checkbox"/> Supportive Learning Environment</p>	<p><b>Root Cause:</b>  Students need reading/literacy interventions.  Students need more writing opportunities and feedback.</p>	

SCHOOL INSTRUCTIONAL WALKS - ELA	Strengths	Weaknesses
<ul style="list-style-type: none"> <li>What instructional practices /processes are consistently observed during ELA walks?</li> <li>What instructional practices /processes are consistently missing or ineffective during ELA walks?</li> </ul>	<p><b>Instructional Framework Trends</b></p> <p>The most frequently observed instructional framework components were:</p> <p>Most common configuration:</p> <p>Learning Questions are posted;</p> <ul style="list-style-type: none"> <li>Learning Targets are listed under Learning Question 1</li> <li>Open, Work and Closing detailed in Learning Question 2</li> <li>All Formative and Summative Assessments are listed in Learning Question 3</li> <li>All assignments and activities are standards-aligned to the learning target.</li> </ul> <p>→ Observed in 10 English classrooms</p> <p>Frequency of students being able to articulate their learning:</p> <ul style="list-style-type: none"> <li>What they are learning today: Frequently marked "Yes"</li> <li>Why they are learning it: Also commonly "Yes"</li> <li>How they are expected to demonstrate mastery: Slightly less consistent, but still mostly "Yes"</li> </ul> <p>Overall:</p> <ol style="list-style-type: none"> <li>Student Engagement – Active participation in discussions and group work.</li> <li>Differentiation – Tasks tailored to student needs and learning styles.</li> </ol>	<p><b>Instructional Framework Trends</b></p> <p>Some observations included only partial elements (e.g., missing LQ3 or assessment alignment), indicating inconsistency in full framework implementation.</p> <p>Identified Areas of Improvement:</p> <ul style="list-style-type: none"> <li>Clarity of Instructional Framework – Improve visibility and readability of posted learning questions and targets.</li> <li>Student Roles and Routines – Establish clearer expectations for group work and seminars.</li> <li>Engagement of All Students – Especially those seated at the back or less involved.</li> <li>Differentiation for Diverse Learners – More targeted support for SPED and ESOL students.</li> <li>Active Monitoring – Increase teacher movement and formative check-ins during lessons.</li> </ul>

	<p>3. Collaborative Teaching – Effective co-teaching and shared responsibilities.</p> <p>4. Use of Scaffolds – Graphic organizers, modeling, and guided practice.</p> <p>5. Positive Classroom Culture – Community feeling and student confidence.</p>	
<p><b>Check the system that contributes to the root cause:</b></p> <p><input checked="" type="checkbox"/> Coherent Instruction</p> <p><input checked="" type="checkbox"/> Professional Capacity</p> <p><input checked="" type="checkbox"/> Effective Leadership</p> <p><input checked="" type="checkbox"/> Supportive Learning Environment</p>	<p><b>Root Cause Explanation:</b> Inconsistent implementation and visibility of the instructional framework across classrooms is limiting the effectiveness of student engagement and clarity in learning expectations.</p>	
<p><b>Survey Summary Data</b></p> <p><input type="checkbox"/> Teacher Survey</p> <p><input type="checkbox"/> Parent Survey</p> <p><input checked="" type="checkbox"/> Professional Learning Survey</p> <p><input checked="" type="checkbox"/> Climate Survey</p>	<p><b>Strengths</b></p> <p>OHS PL Survey Fall 2024 Most 8 respondents scored themselves proficient in all nine TKES Standards, including Professional Knowledge, Instructional Strategies, Differentiation and Assessment Strategies. 4/8 respondents rated themselves a Level 4 on professionalism.</p> <p>School Climate Survey: Personnel Attendance is excellent at 95.21%, showing high reliability and presence of school staff. Administrator Attendance is perfect at 100%, indicating strong leadership presence. Staff Attendance is also high at 95.04%, demonstrating consistent attendance among school staff.</p>	<p><b>Weaknesses</b></p> <p>OHS PL Survey Fall 2024 Only 1/8 who responded to the survey identified needing support for assessment strategies.</p> <p>School Climate Survey Student survey score is 65.87%, indicating room for improvement in student perceptions of the school's climate. The Teacher / Staff / Administrator survey score is 66.85%, suggesting that staff perceptions of the school's climate could be improved. The Parent survey score is 68.53%, showing that parent perceptions of the school's climate need enhancement. Discipline: Student Attendance is 68.14%, highlighting the need for strategies to improve student attendance rates.</p>
<p><b>Check the system that contributes to the root cause:</b></p> <p><input checked="" type="checkbox"/> Coherent Instruction</p>	<p><b>Root Cause Explanation:</b> There is a disconnect between staff self-perception of instructional proficiency and the broader school climate, particularly in student engagement and attendance.</p>

## ELA - IMPROVEMENT PLAN

<b>GOAL #2: ELA</b>	Students scoring proficient plus advanced on the CCRPI English II EOC will increase from 26% to 29% (3% increase). Our goal is for 240 (826 approximate 10 <sup>th</sup> graders) students to be proficient plus advanced by May 2026.		
<b>Root Cause(s) to be Addressed:</b>	Students need explicit writing instruction, frequent practice and immediate feedback.		
<b>Funding Source(s)</b> <i>SWP Checklist 5.e</i>	<input checked="" type="checkbox"/> Title I Funds <input checked="" type="checkbox"/> Local School Funds <input checked="" type="checkbox"/> Other: District

## MATH DATA ANALYSIS & FINDINGS

ALGEBRA EOC (3-year trends)	Strengths	Weaknesses
<ul style="list-style-type: none"> <li>• <b>What trends exist for all students in the:</b> <ul style="list-style-type: none"> <li>○ <b>Percentage of students scoring in Level 1, 2, 3, 4 (increases, decreases, no increase or decrease)?</b></li> <li>○ <b>Algebra EOC domain increases or decreases?</b></li> </ul> </li> <li>• <b>How do the trends differ for EL students?</b></li> <li>• <b>How do the trends differ for SWD students?</b></li> </ul>	<ol style="list-style-type: none"> <li>1. Based on The Algebra EOC results, our students have demonstrated strengths in <b>Numerical Reasoning: Rational and Irrational Numbers Domain Achievement A.NR.5 (Unit 3)</b> with 23% meeting the target established.</li> <li>2. Based on The Algebra EOC results, our students have demonstrated strengths in <b>Patterning &amp; Algebraic Reasoning: Linear Inequalities Domain Achievement A.PAR.4 (Unit 2)</b> with 23% meeting the target established.</li> <li>3. Based on The Algebra EOC results, our students have demonstrated strengths in <b>Patterning &amp; Algebraic Reasoning: Quadratic Expressions and Equations Domain Achievement A.PAR.6 (Unit 4)</b> with 21% meeting the target established.</li> <li>4. According to the EL Achievement Historical trend data, the beginning level of EL students has decreased by almost 17 percentage points from the year 2023 to 2024.</li> </ol>	<ol style="list-style-type: none"> <li>1. Based on The Algebra EOC results, our students have demonstrated weaknesses in <b>Data &amp; Statistical Reasoning: One- and Two-Variable Statistics Domain Achievement A.DSR.10 (Unit 7)</b> with 6% meeting target established.</li> <li>2. Based on The Algebra EOC results, our students have demonstrated weaknesses in <b>Geometric &amp; Spatial Reasoning: Distance, Midpoint, Slope, Area, and Perimeter Domain Achievement A.GSR.3 (Unit 8)</b> with 9% meeting the target established.</li> <li>3. Based on The Algebra EOC results, our students have demonstrated weaknesses in <b>Functional &amp; Graphical Reasoning: Arithmetic Sequences and Linear Functions Domain Achievement A.FGR.2 (Unit 1)</b> with 10% meeting the target established.</li> <li>4. Based on the Algebra Historical Content Mastery data, there is little to no difference in proficiency performance in the ELL and SWD student groups over the last 5 years of testing. Both groups are performing the same in comparison to each other.</li> </ol>

COMMON ASSESSMENTS - Current Year	Strengths	Weaknesses
<ul style="list-style-type: none"> <li>• <b>What trends exist for all students in the:</b> <ul style="list-style-type: none"> <li>• Percentages mastering standards aligned to math domains - identify both standards of strength and weakness</li> </ul> </li> <li>• <b>How do the trends differ for EL students?</b></li> <li>• <b>How do the trends differ for SWD students?</b></li> </ul>	<p>1. Based on Advanced Algebra Summative results for units 3 (Radicals) and 7 (Matrices), our students have demonstrated proficiency in computation with radicals with 64.1% scoring Proficient or Distinguished, and only 13.9% scoring Beginning. Our students have demonstrated proficiency in computation with matrices with 81.4% scoring Proficient or Distinguished, and only 10.1% scoring Beginning.</p> <p>2. Based on the school access scores for the 2024-2025 school year, as there are 385 students' level 3 or higher in reading compared to 193 in listening of students have demonstrated at least expanding in the writing domain.</p> <p>3. Based on the summative data in geometry, our students have shown an increase in proficiency over time from unit one starting at 18.1% developing to 13.64% developing.</p>	<p>1. 100% of CTs did not/do not routinely update their data monitoring forms and/or provided incomplete data monitoring form. Data from the form is not broken down enough to track SWD and EL students.</p> <p>2. From the Algebra Semester Spring 25 Data Monitoring Form, there appears to be little to no growth in proficiency from the unit common formative to the unit common summative. Unit 1 Quiz: 42% proficiency, Unit 1 Test: 31% Proficiency. Unit 2 Quiz: 41% Proficiency, Unit 2 Test: 47% proficiency.</p>
<p><b>Check the system that contributes to the root cause:</b></p> <ul style="list-style-type: none"> <li><input checked="" type="checkbox"/> Coherent Instruction</li> <li><input checked="" type="checkbox"/> Professional Capacity</li> <li><input checked="" type="checkbox"/> Effective Leadership</li> <li><input checked="" type="checkbox"/> Supportive Learning Environment</li> </ul>	<p><b>Root Cause Explanation:</b></p> <p>Curriculum Misalignment - The taught curriculum may not be fully aligned with EOC standards or depth of knowledge required.</p> <p>Learning Gaps- Conceptual understanding of functions and sequences may be weak due to prior math gaps.</p> <p>Instructional Practices- Possible inconsistency in instructional quality or lack of targeted scaffolding and differentiation. There is a possible lack of engaging instructional strategies.</p> <p>Assessment Rigor- Students may not be adequately prepared for the format, language, or rigor of the EOC assessment. Formative and Summative assessments may not be measuring the same skill or rigor levels.</p> <p>Ineffective Data Monitoring and Accountability Structures- Data monitoring form isn't specific enough to track student groups (ELL &amp; SWD) and there is a lack of clear expectations or follow-up for CTs to update data consistently.</p> <p>Weak connections between mathematical concepts- Connections between algebraic &amp; geometric thinking may not be emphasized. More emphasis placed on computation versus reasoning, modeling and application.</p>	

<b>SCHOOL INSTRUCTIONAL WALKS - MATH</b> <ul style="list-style-type: none"> <li>• <b>What instructional practices / processes are consistently observed during MATH walks?</b></li> <li>• <b>What instructional practices / processes are consistently missing or ineffective during MATH walks?</b></li> </ul>	<b>Strengths</b> <ol style="list-style-type: none"> <li>1. Based on the school-developed instructional walk form, about 80% (71/88 entries) of teachers showed proper use of the instructional framework.</li> <li>2. Based on the summary data from the Instructional Focus Walks, teachers ensured students were engaged during class by action taken by teachers to invoke engagement of students: using 360 boards, using instructional strategies such as turn-and-talk, etc).</li> <li>3. Based on the summary data from the Instructional Focus Walks, teachers ensured students were engaged during class by action taken by teachers to invoke engagement of students: using 360 boards, using instructional strategies such as turn-and-talk, etc).</li> </ol>	<b>Weaknesses</b> <ol style="list-style-type: none"> <li>1. Based on the school-developed instructional walk form, students were unable to communicate why they were learning information more than 50% of the time classes were observed.</li> <li>2. Teachers are not using a variety of teaching models in their classes, as seen on the Instructional Focus Walks</li> <li>3. As evidenced by the instructional walk forms or classroom observations, there is inconsistency in the connection between the implemented lesson and the learning target.</li> </ol>
<b>Check the system that contributes to the root cause:</b> <ul style="list-style-type: none"> <li><input checked="" type="checkbox"/> Coherent Instruction</li> <li><input type="checkbox"/> Professional Capacity</li> <li><input type="checkbox"/> Effective Leadership</li> <li><input type="checkbox"/> Supportive Learning Environment</li> </ul>	<b>Root Cause Explanation:</b> <p>Teachers focus on content delivery rather than making connections in the material.</p> <p>Lack of collaboration and resources to implement a varied approach to teaching. Insufficient exposure or training in various teaching models.</p> <p>Misalignment between lessons and learning targets. Inadequate lesson planning.</p>	
<b>Survey Summary Data</b> <ul style="list-style-type: none"> <li><input type="checkbox"/> Teacher Survey</li> <li><input type="checkbox"/> Parent Survey</li> <li><input type="checkbox"/> Professional Learning Survey</li> <li><input type="checkbox"/> _____</li> </ul>	<b>Strengths</b> <ol style="list-style-type: none"> <li>1. Based on the results from OHS Math Needs Survey, 80% agree or strongly agree that the math curriculum and resources are adapted for advanced, EL, and SWD students.</li> <li>2. Based on the results from the OHS Math Dept Needs Survey, 68% of the department members noted that their collaborative team discusses lessons/lesson plans daily or once per week.</li> </ol>	<b>Weaknesses</b> <ol style="list-style-type: none"> <li>1. Based on the results from the collaborative team survey, 2 out of the 6 Math CTs that completed the survey displayed a need for more collaboration with a majority of members rating collaboration at a 5 out of 10.</li> <li>2. The Needs Survey results showed the top three out of eight areas for professional development with 32% of teachers ranking Active Learning Strategies as number one, 27% of teachers ranking supporting English Language Learners as number two, and</li> </ol>

		<p>14% of teachers ranking remediation and enrichment plans as number three.</p> <p>3. Based on the results from the OHS Math Dept Needs Survey, 54% of the department stated that they analyze data in their collaborative teams once per unit or hardly ever.</p>
<p><b>Check the system that contributes to the root cause:</b></p> <p><input checked="" type="checkbox"/> Coherent Instruction</p> <p><input checked="" type="checkbox"/> Professional Capacity</p> <p><input type="checkbox"/> Effective Leadership</p> <p><input type="checkbox"/> Supportive Learning Environment</p>	<p><b>Root Cause Explanation:</b></p> <p>Teachers may be unclear about the expectations and goals of collaboration (what should be focused on during meetings, how they should interact, and expected outcomes) causing disengagement.</p> <p>Teachers have limited professional development surrounding language support strategies, active learning strategies, and differentiated instruction.</p> <p>There is an absence of a clear data analysis process/protocol (what to look for and how to use it).</p>	

## MATH - IMPROVEMENT PLAN

<b>GOAL #3: MATH</b>	<b>EOC COURSES:</b> The total percentage of students scoring proficient or distinguished on the Georgia Milestones Algebra EOC will increase from 18.1% to 21.1%. <b>NON-EOC COURSES:</b> 20% of students will show proficiency (80% or higher) on their cumulative final exam (baseline year).		
<b>Root Cause(s) to be Addressed:</b>	<ul style="list-style-type: none"> <li>• Misalignment of lessons and learning targets</li> <li>• Lack of collaboration, training, and resources to implement a varied approach to teaching.</li> <li>• Gaps in data monitoring, data analysis, and formative assessment needed to drive instructional decisions.</li> </ul>

## SCIENCE DATA ANALYSIS & FINDINGS

BIOLOGY EOC (3-year trends)	Strengths	Weaknesses
<ul style="list-style-type: none"> <li>What trends exist for all students in the:                             <ul style="list-style-type: none"> <li>Percentage of students scoring in Level 1, 2, 3, 4 (increases, decreases, no increase or decrease)?</li> <li>Biology EOC domain increases or decreases?</li> </ul> </li> </ul>	<ul style="list-style-type: none"> <li>Isolated domain gains were noted, particularly in Genetics (Domain 2) and Evolution, where students showed measurable growth from Winter to Spring.</li> <li>The department has established consistent processes for common formative assessments and data tracking within collaborative teams.</li> <li>Level 2 performance has remained relatively stable over time, suggesting a strong core of students consistently approaching proficiency.</li> </ul>	<ul style="list-style-type: none"> <li>EOC performance has remained flat or declined, with Level 1 rates peaking at 43% in SY25.</li> <li>Critical regression occurred in Cells and Ecology domains, with inconsistent domain gains overall.</li> <li>Significant performance gaps persist for SWD, ELL, and Dual Served students, with low proficiency and high remediation rates.</li> <li>Changes to ELL accommodations (loss of extended time) may have negatively impacted scores.</li> <li>CARD Block scheduling reduced core instructional time, contributing to possible score declines.</li> </ul>

<ul style="list-style-type: none"> <li>• <b>How do the trends differ for EL students?</b></li> <li>• <b>How do the trends differ for SWD students?</b></li> </ul>	<ul style="list-style-type: none"> <li>• Teachers identified some stability in year-to-year domain data, with minimal fluctuation across semesters in certain content areas.</li> <li>• The vertically aligned Science Department and CT structures provided a strong foundation for the current root cause analysis and SIP action planning.</li> </ul>	<ul style="list-style-type: none"> <li>• Common assessments overestimate student readiness, showing misalignment with EOC results.</li> <li>• Inconsistent use of formative assessments limits timely instructional adjustments.</li> <li>• Co-teaching and intervention models lack consistency, reducing support for high-needs students.</li> <li>• Teacher planning time is limited by operational demands, affecting the ability to plan for differentiation.</li> <li>• Chronic attendance concerns have limited student learning continuity and may have contributed to low assessment performance.</li> <li>• Level 4 (Distinguished Learner) scores have remained persistently low, with very few students reaching this highest level of proficiency.</li> </ul>
<b>COMMON ASSESSMENTS - Current Year</b>	<b>Strengths</b>	<b>Weaknesses</b>
<ul style="list-style-type: none"> <li>• <b>What trends exist for all students in the:</b> <ul style="list-style-type: none"> <li>○ <b>Percentages mastering standards aligned to Bio domains - identify both standards of strength and weakness</b></li> </ul> </li> <li>• <b>How do the trends differ for EL students?</b></li> <li>• <b>How do the trends differ for SWD students?</b></li> </ul>	<ul style="list-style-type: none"> <li>• High participation rates with 100% of students completing Progress Learning common assessments, providing a strong data set for instructional reflection.</li> <li>• Unit 3 Summative Assessment showed a high percentage of Distinguished Learner performance, indicating mastery of specific content standards.</li> <li>• Evidence of midyear instructional pivot from a literacy strategy focus to a more data-driven model, using Osborne Biology Data Reflection Forms to guide planning.</li> <li>• Consistent data monitoring and reflection cycles have been established as part of the department's PLC work.</li> </ul>	<ul style="list-style-type: none"> <li>• Common assessment scores are consistently higher than EOC scores, indicating a lack of alignment and possible overestimation of student readiness.</li> <li>• A proficiency gap exists between Progress Learning common assessments and EOC outcomes, highlighting misalignment.</li> <li>• Assessment rigor is insufficient, with questions perceived as too easy compared to EOC standards.</li> <li>• Students are not consistently challenged at the appropriate cognitive level, limiting preparation for state assessments.</li> <li>• Summative and formative assessment results do not reliably predict EOC performance, reducing their effectiveness for intervention planning.</li> <li>• SWD and ELL accommodations are inconsistent, with some students lacking full access to read-aloud, extended time, or dictionary supports.</li> <li>• The growing ELL population has outpaced available ESOL teacher support, leading to inconsistent delivery of testing accommodations and classroom supports.</li> </ul>
<b>Check the system that contributes to the root cause:</b> <ul style="list-style-type: none"> <li><input checked="" type="checkbox"/> Coherent Instruction</li> <li><input checked="" type="checkbox"/> Professional Capacity</li> <li><input checked="" type="checkbox"/> Effective Leadership</li> <li><input type="checkbox"/> Supportive Learning Environment</li> </ul>	<b>Root Cause Explanation:</b> <ul style="list-style-type: none"> <li>• Common assessments and daily instruction have not consistently matched the rigor of the Biology EOC, resulting in inflated classroom performance that does not translate to state assessments.</li> <li>• Overly supportive learning environments and lack of high-level questioning have limited student preparation for EOC expectations.</li> <li>• Assessment integrity concerns have arisen, particularly in large class settings (34:1 ratio), with reports of students using technology to gain unfair advantage.</li> <li>• Teachers have increased monitoring and begun shifting to CTLS platforms to lock down tests, but challenges remain.</li> <li>• Persistent domain-specific gaps in content mastery, especially in Cells and Ecology, suggest inconsistent instructional focus on priority standards.</li> </ul>	

	<ul style="list-style-type: none"> <li>A proficiency gap exists between Progress Learning common assessments and EOC outcomes, reflecting misalignment and reducing the usefulness of assessment data for instructional decisions.</li> </ul>	
<b>SCHOOL INSTRUCTIONAL WALKS - SCIENCE</b> <ul style="list-style-type: none"> <li><b>What instructional practices / processes are consistently observed during SCIENCE walks?</b></li> <li><b>What instructional practices / processes are consistently missing or ineffective during SCIENCE walks?</b></li> </ul>	Strengths	Weaknesses
	<ul style="list-style-type: none"> <li>Science classrooms consistently exhibit strong classroom management and structured learning environments.</li> <li>Collaborative learning structures, including group work and lab-based activities, are regularly implemented to support student engagement.</li> <li>Learning targets and essential questions were posted in 100% of walkthroughs, ensuring clear learning expectations for students.</li> <li>High frequency of instructional walkthroughs conducted in Science, particularly in Biology and Environmental Science.</li> <li>Teachers are friendly, communicative, and effectively explain the purpose of walkthroughs, creating a culture of trust and professionalism.</li> </ul>	<ul style="list-style-type: none"> <li>Immediate, actionable feedback is not consistently provided to teachers following walkthroughs.</li> <li>A stronger culture of regular, purpose-driven walkthroughs needs to be established.</li> <li>Communication of walkthrough purpose, expectations, and feedback processes is inconsistent.</li> <li>Limited classroom observations for ELL and SWD classes; small-group instruction was not observed.</li> <li>Instructional walkthrough data lacks specificity for Science and must be refined for comparative analysis and clearer trends.</li> <li>Inconsistent use of the full instructional framework: only 26.9% of lessons had a clear opening, and no lessons observed included a structured closing.</li> <li>Students could often articulate what they were learning but struggled to explain why it mattered or how it connected to larger concepts.</li> <li>Successful walkthrough culture requires increased teacher vulnerability and openness to feedback.</li> </ul>
<b>Check the system that contributes to the root cause:</b> <ul style="list-style-type: none"> <li><input checked="" type="checkbox"/> Coherent Instruction</li> <li><input checked="" type="checkbox"/> Professional Capacity</li> <li><input checked="" type="checkbox"/> Effective Leadership</li> <li><input type="checkbox"/> Supportive Learning Environment</li> </ul>	<b>Root Cause Explanation:</b> <ul style="list-style-type: none"> <li>Lack of a strong culture of ongoing, routine walkthroughs, partly due to a need for increased teacher receptiveness to constructive feedback.</li> <li>Inconsistent communication of walkthrough purpose, expectations, and feedback processes, limiting their effectiveness.</li> <li>Feedback following walkthroughs is not always immediate, reducing the opportunity for timely instructional adjustments.</li> <li>Inconsistent use of structured lesson components, particularly the absence of consistent openings and closings to frame learning.</li> <li>Mismatch between classroom assessment rigor and the Biology EOC, as reflected by the gap between Progress Learning results and EOC performance.</li> </ul>	
<b>Survey Summary Data</b> <ul style="list-style-type: none"> <li><input checked="" type="checkbox"/> Teacher Survey</li> <li><input type="checkbox"/> Parent Survey</li> <li><input type="checkbox"/> Professional Learning Survey</li> <li><input type="checkbox"/> _____</li> </ul>	Strengths	Weaknesses
	<ul style="list-style-type: none"> <li>Half of teachers (5 of 10) reported being very comfortable using student data to guide instruction, reflecting strong professional capacity.</li> <li>Teachers clearly prioritized professional learning topics aligned with high-impact instructional practices, including inquiry-based learning, strategies for ELL and SWD students, and data-driven instruction.</li> <li>High openness to collaborative support, with preferences for small group sessions and department-wide professional learning, demonstrating a strong team culture.</li> </ul>	<ul style="list-style-type: none"> <li>Limited planning time and access to instructional resources were the most frequently cited barriers, identified by 9 out of 10 teachers.</li> <li>Ongoing challenges with student engagement and differentiation for diverse learners point to a need for stronger scaffolding and universal design strategies.</li> <li>Inconsistent comfort levels with using data to inform instruction, with one-third of teachers reporting only moderate confidence or a need for additional guidance.</li> <li>Lack of clarity and consistency in how instructional support is delivered, with teachers preferring a wide range of</li> </ul>

	<ul style="list-style-type: none"><li>• Strong interest in improving student engagement and differentiation, indicating teacher recognition of areas for instructional growth.</li><li>• Many teachers prefer direct, as-needed coaching support, showing self-awareness and autonomy in seeking instructional help when needed.</li></ul>	communication methods and coaching models, leading to potential gaps in follow-through.
<b>Check the system that contributes to the root cause:</b>  <input checked="" type="checkbox"/> Coherent Instruction <input checked="" type="checkbox"/> Professional Capacity <input checked="" type="checkbox"/> Effective Leadership <input checked="" type="checkbox"/> Supportive Learning Environment	<b>Root Cause Explanation:</b> While science teachers are committed to improving student learning, a lack of dedicated planning time, access to resources, and structured data-use support has limited the department’s ability to fully implement differentiated, engaging instruction for all learners. <ul style="list-style-type: none"><li>• Coherent Instruction: Teachers need more targeted support to implement engagement strategies, differentiation, universal design approaches, and formative assessment practices with fidelity.</li><li>• Professional Capacity: Gaps in data literacy persist, as not all teachers feel confident using student data to inform instruction and plan responsive interventions.</li><li>• Supportive Learning Environment: Limited planning time and inconsistent access to instructional materials restrict teachers’ ability to innovate and adjust instruction effectively.</li><li>• Effective Leadership: Inconsistent communication methods and unclear coaching expectations point to the need for a more structured and equitable support system.</li></ul>	
<b>Summary Statement</b> Analysis of walkthroughs, teacher surveys, assessment data, and student outcomes reveals consistent strengths in classroom management, collaborative learning, and structured environments. However, instruction often lacks clear learning purpose, consistent engagement strategies, and aligned formative assessment. Common assessments overestimate student readiness compared to EOC results, reflecting a misalignment with state standards. Teachers cite limited planning time, inconsistent access to resources, and varying comfort with data use as barriers. Additional gaps exist in differentiation for high-needs students, inconsistent accommodations, and loss of instructional time due to scheduling changes. These findings highlight the need for more coherent curriculum, assessment, and professional learning systems to close persistent gaps, particularly for SWD, ELL, and Dual Served students.		
<b>Data Analysis Narrative</b> The Science Department, organized into vertically aligned grade bands, and school leadership used EOC data, domain mastery, common assessments, classroom observations, CT meeting artifacts, and the Instructional Support Survey to identify key performance trends. All stakeholders provided feedback on the CNA and SIP via Microsoft Forms. FY25 Biology data showed mixed domain gains and ongoing performance gaps. Cells mastery fell from 21.5% to 15.8%, and Ecology remediation exceeded 58%. Notable growth occurred in Evolution (+12.4%) and Classification & Phylogeny (+9.1%).  EOC data over four years revealed low Distinguished Learner rates (4–5%) and a decline in Proficient scores from 33% to 26%, while Beginning Learner rates rose to 43%. Subgroup analysis exposed significant gaps: only 24.5% of English Learners, 8.8% of SWDs, and 12.5% of Dual Served students achieved proficiency, compared to 91.7% of Gifted and 58% of Honors students.  These results informed targeted action steps in the SIP to address instructional rigor, data use, and support structures, especially for underperforming student groups.		

## BIOLOGY DATA/IMPROVEMENT PLAN

<b>GOAL #4: Science</b>	By May 2026, the percentage of students scoring proficient and distinguished on the Biology EOC will increase from 30.91% to 33%, as measured by the Georgia Milestones Assessment.		
<b>Root Cause(s) to be Addressed:</b>	<input type="checkbox"/> <b>Coherent Instruction:</b> Instruction or assessment practices are inconsistently aligned to the rigor and content of the Biology EOC between common summative and EOC Data. Common assessments often overestimate student readiness, and daily instruction lacks consistent incorporation of formative assessments to monitor learning. <input type="checkbox"/> <b>Professional Capacity:</b> While teachers are collaborative and committed, many report inconsistent confidence in using data to inform planning, differentiation, and extension. Professional learning has focused on resources rather than building data fluency, limiting the department's ability to execute DuFour's Questions 2–4 consistently and effectively. <input type="checkbox"/> <b>Supportive Learning Environment:</b> Although CARD Block provides responsive intervention time for students, teachers report that cumulative demands from collaborative team meetings, professional learning sessions, class coverage, and duties reduce their protected planning time. These constraints limit their ability to plan for data-informed differentiation, especially for high-needs students such as SWDs and ELLs who could benefit from CARD Block. <input type="checkbox"/> <b>Effective Leadership:</b> Department-wide systems for assessment design, calibration, and instructional feedback are not yet fully established. Teachers report inconsistent expectations and limited professional learning of how to use student learning data to inform instruction. This weakens the implementation of DuFour-aligned instructional practices and contributes to regression in EOC performance.

## SOCIAL STUDIES DATA ANALYSIS & FINDINGS

	Strengths	Weaknesses
<p><b>U.S. HISTORY EOC (3-year trends)</b></p> <ul style="list-style-type: none"> <li><b>What trends exist for all students in the:</b>  <b>Percentage of students scoring in Level 1, 2, 3, 4 (increases, decreases, no increase or decrease)?</b></li> <li><b>U.S. History EOC domain increases or decreases?</b></li> <li><b>How do the trends differ for ESL students?</b></li> <li><b>How do the trends differ for SWD students?</b></li> </ul>	<p><b>3-Year Trends (SY23, SY24, SY25)</b></p> <ul style="list-style-type: none"> <li>SY23 increase Level 4 by 2%</li> <li>From Winter 24 to Spring 25 there was an increase of Level 4 by 3.15%</li> <li>Percentage of students scoring in level one is decreasing from SY24 has decreased by 13.83%</li> <li>SWD-17% growth in achievement and outpaced on-level</li> </ul> <p><b>SY 24-25-Growth Percentages</b></p> <ul style="list-style-type: none"> <li><b>Level 4</b> increased by 5.22%</li> <li><b>Level 3</b> increased by 2.28%</li> <li><b>Level 2</b> decreased by -10.41% and <b>Level 1</b> by -1.50% demonstrating a decline in the number of students scoring at this level.</li> </ul> <p>Student Groups Trend of Improvement from S23 to S25:</p> <ul style="list-style-type: none"> <li><b>GEN (General Education):</b> Increased from 75.73 to 78.08, a growth of 2.35 points (3.10%).</li> <li><b>GIFT (Gifted Students):</b> Increased from 77.37 to 82.50, a growth of 5.13 points (6.64%).</li> <li><b>ESL (English as a Second Language):</b> Increased from 69.27 to 71.39, a growth of 2.12 points (3.06%).</li> <li><b>SWD (Students with Disabilities):</b> Increased significantly from 68.80 to 79.08, a growth of 10.28 points (14.94%).</li> </ul>	<p><b>3-Year Trends</b></p> <ul style="list-style-type: none"> <li>Level 3 decreases 4% SY22; Level 1 1%</li> <li>Level 1 Increase 5% SY 23</li> </ul> <p>Domain 4 had <b>-4 %</b> change from SY23-SY24</p> <p><b>Current Year-Domain 1-</b>Although there was a decrease in the number of students below target and an increase in students approaching target, there was little movement of those students that met target (<b>Level 3</b>) from the Fall 24 to the Spring 25 by <b>0.27% and</b> in approaching target (<b>Level 2</b>) there was an increase in the number of students by <b>7.48 %</b></p> <ul style="list-style-type: none"> <li><b>Dual Served:</b> Decreased from 71.30 to 67.13, a decline of 4.17 points (-5.85%).</li> </ul>

<b>Check the system that contributes to the root cause:</b> <input checked="" type="checkbox"/> Coherent Instruction <input checked="" type="checkbox"/> Professional Capacity <input type="checkbox"/> Effective Leadership <input checked="" type="checkbox"/> Supportive Learning Environment	<b>Root Cause Explanation:</b> The analysis of the data based on the decline in domain performance can be tied to core literacy skills necessary to meet grade-level expectations. In addition, there is a lack of intentional vertical and horizontal alignment across content areas to build and apply these skills overtime. In addition, instructional feedback is often too vague and does not consistently provide students with clear, actionable next steps, specifically in areas like reading comprehension, analytical writing, and academic vocabulary development. As a result, students are not consistently receiving the guidance needed to progress toward proficiency.	
<b>SCHOOL INSTRUCTIONAL WALKS – SOCIAL STUDIES</b>  <ul style="list-style-type: none"> <li><b>What instructional practices/processes are consistently observed during SOCIAL STUDIES walks?</b></li> <li><b>What instructional practices/processes are consistently missing or ineffective during SOCIAL STUDIES walks?</b></li> </ul>	<b>Strengths</b>  8% of the 88 classes observed 100% of those teachers had the instructional framework posted.  The ESOL sheltered SS class displayed a visual (anchor charts) aligned with the text and students also had access to an image to accompany the text.  Teachers observed were very knowledgeable of their content  Students understood the expectation for the day and what/why they should complete it and the teacher was able to make connections made to U.S. History (vertical alignment)  SS teachers effectively utilized digital tools to check for understanding, for the introduction and facilitation of the lesson, and to display the instructional framework in CTLS for student engagement and for students to know what they would be learning for that day.	<b>Weaknesses</b>  Based on the instructional walks data form, which is aligned with the IFW, students struggled with explain  LQ1 contains broad and multiday learning targets opposed to a specific, daily target.  Learning Question 3 tends to still be inconsistent across content teams and identifies the product but not the strategy or output of the product.  Student progress could be monitored more closely. Some students were off task talking or on phones and never redirected, which is evident that more high-engagement strategies are needed for student engagement as well and differentiation of the learning to support the various learners in the class. Most of the class observed lectured and teachers did more of the heavy lifting instead of allowing students to engage more in productive struggle to enhance their processing and analytical skills.
<b>Check the system that contributes to the root cause:</b> <input checked="" type="checkbox"/> Coherent Instruction <input type="checkbox"/> Professional Capacity <input type="checkbox"/> Effective Leadership	<b>Root Cause Explanation:</b> Social Studies instruction is inconsistent because lessons lack specific, daily learning targets and clear strategies for achieving them. Teachers rely too much on lectures and do not provide enough opportunities for students to engage in critical thinking or problem-solving. Additionally, student progress is not closely monitored, and there is limited differentiation in instruction, leading to off-task behaviors and disengagement. This highlights the need for more focused planning, student-centered activities, and better monitoring to meet the diverse needs of all students.

Strengths	Weaknesses					
Based on the Professional Learning Survey as it relates to Professional Knowledge (TKES 1) Out of the 88 teachers that took the survey <ul style="list-style-type: none"> <li>Level 3 78% (64) feels comfortable in classroom as it relates to the following: Content knowledge through Unit Planning, Unpacking the Standards, and Writing Learning Targets to Design Relevant Learning Experiences.</li> <li>Social Studies Level 3 (13 out of 17) 76%; Level 4 11.76% (2/17) feels comfortable leading a PL</li> </ul>	Level 2-need support (out of 88 teachers that took the survey): <ul style="list-style-type: none"> <li>12% (10) Instructional Planning (TKES2)</li> <li>10% (8) Academically Challenging Environment</li> <li>9% (7) Differentiation (TKES 4)</li> <li>7% (6) Instructional Strategies (TKES 3) and Assessment Strategies (TKES 5)</li> <li>6% (5) Assessment Uses (TKES 6)</li> </ul> Social Studies data is in alignment with needing support in instructional planning, assessment strategies and uses, academically challenging environment with 11.76% (2/17)					
<b>Check the system that contributes to the root cause:</b>  <input checked="" type="checkbox"/> Coherent Instruction <input checked="" type="checkbox"/> Professional Capacity <input type="checkbox"/> Effective Leadership <input type="checkbox"/> Supportive Learning Environment	<b>Root Cause Explanation:</b> The data shows that many teachers need support with instructional planning, using assessments effectively, and creating academically challenging lessons. These areas are connected and suggest that teachers may not have had enough training or support to plan strong lessons, use data to guide instruction, or push students to think deeply. The Social Studies results match this trend, showing a need for focused professional development in these key areas.					
<b>Additional Data Analysis</b> (If needed)  <b>Other(s):</b> <input checked="" type="checkbox"/> ACCESS <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	<table border="1"> <thead> <tr> <th data-bbox="531 963 1228 1019">Strengths</th> <th data-bbox="1228 963 2001 1019">Weaknesses</th> </tr> </thead> <tbody> <tr> <td data-bbox="531 1019 1228 1456">           Based on the ACCESS Scores 2025           <ul style="list-style-type: none"> <li>10% (81/804) students exited Active classification.</li> <li>1% (9/804) exited Active classification with a score of 5.0.</li> <li>5% (38/804) exited Active classification based on last year's criteria (4.5)</li> <li>An additional 4% (34/804) exited Active classification based on this year's new criteria for reclassification (4.3 and 4.4)</li> <li>3% (30/804) exited Active classification are 9<sup>th</sup> graders.</li> </ul> </td> <td data-bbox="1228 1019 2001 1456">           We currently have 738 Active students based on the results of the 2025 Access Results.           <ul style="list-style-type: none"> <li>9<sup>th</sup> Grade 319/738</li> <li>10<sup>th</sup> Grade 196/738</li> <li>11<sup>th</sup> Grade 101/738</li> <li>12<sup>th</sup> Grade 122/738</li> </ul>           34% (273/804) did not increase by at least one decimal from their last year's score.            ACCESS 2024 Results- Students are lowest % in speaking skills and reading skills. 41% of students are developing or higher speaking skills.         </td> </tr> </tbody> </table>	Strengths	Weaknesses	Based on the ACCESS Scores 2025 <ul style="list-style-type: none"> <li>10% (81/804) students exited Active classification.</li> <li>1% (9/804) exited Active classification with a score of 5.0.</li> <li>5% (38/804) exited Active classification based on last year's criteria (4.5)</li> <li>An additional 4% (34/804) exited Active classification based on this year's new criteria for reclassification (4.3 and 4.4)</li> <li>3% (30/804) exited Active classification are 9<sup>th</sup> graders.</li> </ul>	We currently have 738 Active students based on the results of the 2025 Access Results. <ul style="list-style-type: none"> <li>9<sup>th</sup> Grade 319/738</li> <li>10<sup>th</sup> Grade 196/738</li> <li>11<sup>th</sup> Grade 101/738</li> <li>12<sup>th</sup> Grade 122/738</li> </ul> 34% (273/804) did not increase by at least one decimal from their last year's score. ACCESS 2024 Results- Students are lowest % in speaking skills and reading skills. 41% of students are developing or higher speaking skills.	
Strengths	Weaknesses					
Based on the ACCESS Scores 2025 <ul style="list-style-type: none"> <li>10% (81/804) students exited Active classification.</li> <li>1% (9/804) exited Active classification with a score of 5.0.</li> <li>5% (38/804) exited Active classification based on last year's criteria (4.5)</li> <li>An additional 4% (34/804) exited Active classification based on this year's new criteria for reclassification (4.3 and 4.4)</li> <li>3% (30/804) exited Active classification are 9<sup>th</sup> graders.</li> </ul>	We currently have 738 Active students based on the results of the 2025 Access Results. <ul style="list-style-type: none"> <li>9<sup>th</sup> Grade 319/738</li> <li>10<sup>th</sup> Grade 196/738</li> <li>11<sup>th</sup> Grade 101/738</li> <li>12<sup>th</sup> Grade 122/738</li> </ul> 34% (273/804) did not increase by at least one decimal from their last year's score. ACCESS 2024 Results- Students are lowest % in speaking skills and reading skills. 41% of students are developing or higher speaking skills.					

	<p>ACCESS 2024- 82% of ESOL students are developing or higher in their listening skills.</p> <p>75% of ESOL students are developing or higher in their writing skills.</p>	<p>44% of students are developing or higher reading skills.</p> <p>ACCESS 2024 Results- There are 10 LTELs (Long term ELs) that are entering or lower</p> <p>2024 ACCESS- 54 % (437/804 tested) of our ESOL students (437/804) are LTELs; 2025 Access – 66% (487/738) current enrollment are LTELs</p> <p>There is a need for enhanced, differentiated instruction that specifically targets speaking and reading proficiency for all ELs, with a strong focus on supporting LTELs who may require additional intervention and sustained support to make meaningful progress.</p>
<p><b>Check the system that contributes to the root cause:</b></p> <p><input checked="" type="checkbox"/> Coherent Instruction</p> <p><input checked="" type="checkbox"/> Professional Capacity</p> <p><input type="checkbox"/> Effective Leadership</p> <p><input checked="" type="checkbox"/> Supportive Learning Environment</p>	<p><b>Root Cause Explanation:</b></p> <p>Our EL students are not making enough progress in speaking and reading skills, with 34% showing no growth in their ACCESS scores. Most students struggle with speaking (41%) and reading (44%), and the number of Long-Term English Learners (LTELs) has increased to 66%. This shows that the current support and instruction provided aren't effectively meeting the needs of these students, especially LTELs. We need targeted strategies and more focused support to improve their language skills and help them make better progress by incorporating the language domains as part of the instructional framework and differentiating the learning based on the WIDA can-do descriptors with in the ELlevation platform and monitored through the ESOL tracker forms. Also, more target support is needed for the whole staff on planning and strategies to implement in the learning as well.</p>	
<p><b>COMMON ASSESSMENTS – Current Year Current Year</b></p> <ul style="list-style-type: none"> <li><b>What trends exist for all students in the:</b> <ul style="list-style-type: none"> <li>Percentages mastering standards aligned to US domains - identify both standards of strength and weakness</li> </ul> </li> <li><b>How do the trends differ for EL students?</b></li> </ul>	<b>Strengths</b>	<b>Weaknesses</b>
	<p>Students performed better overall on Domain 1 (70.5) and Domain 3 (62.4) based on diagnostic assessment</p> <p>SWD's better on D2 on summative with an average of 75.7</p> <p>ELs strongest in Domain 1 with an average of 64.9</p> <p>SWD students in team taught classes with our performed best overall in Domain 1 (67.7) and Domain 3 (64.3) performed best overall</p>	<p>Diagnostic Domain 2 (57.7) lower than on the summative (CTLS ASSESS)</p> <p>All other domains saw a drop from the summative (CTLS ASSESS)</p> <p>ELs low in domain 2 (48.9) and domain 5 (48.7)</p> <p>SWD student in the team-taught classes lowest domain was Domain 5 (69.9) and Domain 2 (50.2)</p>

<ul style="list-style-type: none"> <li>• <b>How do the trends differ for SWD students?</b></li> </ul>		
<p><b>Check the system that contributes to the root cause:</b></p> <p><input checked="" type="checkbox"/> <b>Coherent Instruction</b></p> <p><input checked="" type="checkbox"/> <b>Professional Capacity</b></p> <p><input type="checkbox"/> <b>Effective Leadership</b></p> <p><input checked="" type="checkbox"/> <b>Supportive Learning Environment</b></p>	<p><b>Root Cause Explanation:</b></p> <p>Students need more foundational skills in literacy and these domains where students performed the lowest requires students to apply critical thinking, analyze cause-and-effect relationships, and make connections across historical events. The drop in performance from diagnostic to summative assessments shows that students are not receiving enough targeted instruction or practice in these skill areas. More focused support, scaffolding, and opportunities to engage with complex tasks are needed to improve understanding and performance in these key domains.</p>	

## SOCIAL STUDIES-IMPROVEMENT PLAN

<b>GOAL #5: Social Studies</b>	Students scoring proficient plus advanced on the CCRPI United States History EOC will increase from <b>32.31% to 35.31%</b> (CCRPI Closing the Gap). Our goal is for <b>196 (557 approximate total)</b> students to be proficient plus advanced by May 2026.		
<b>Root Cause(s) to be Addressed:</b>	Students lack consistent opportunities to practice analyzing primary and secondary sources using content-specific vocabulary.

Osborne High School Open House	<input type="checkbox"/> 1 <input checked="" type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4 <input type="checkbox"/> 5 <input type="checkbox"/> 6	<input type="checkbox"/> Goal 1 <input type="checkbox"/> Goal 2 <input type="checkbox"/> Goal 3 <input type="checkbox"/> Goal 4 <input type="checkbox"/> Goal 5	Title III Parent Facilitator  Communities in Schools  Parent Resource Center Supplies	Title I  Title III  Local	Fall 2025 & Spring 2026	Activities are monitored and evaluated by the Principal and Title I Administrator. The parent facilitator keeps a Teams folder updated with artifacts (i.e., sign in sheets, agendas, supplemental pay forms, parent input data, etc.).	Principal  Title 1 Admin  Teachers  Title 1 Parent Facilitator

**GaDOE required six “Shall’s”. Each shall must be addressed at least once during the school year:**

1. Assist parents in understanding state academic standards, state and local assessments, and how to monitor their child’s academic progress.
2. Provide materials and training to help parents work with their child to improve academic achievement. (Ex. Literacy training, technology training)
3. Educate school staff in the value and utility of the contributions of parents, and how to reach, communicate with, and partner with parents to implement parent programs to build ties between parents and the school.

4. Coordinate and integrate parent programs and activities with other Federal, State, and local programs (Preschool to Kindergarten, transitions, parent resource centers, etc.) to support parents in more fully participating in their child's education.
5. Ensure information related to school and parent programs/meetings are sent in a format and language parents can understand.
6. Provide other reasonable support for parental involvement activities as parents may request. These are school developed activities based upon parent input. (#14 in list of "shalls" and "mays")

## School Improvement Plan Required Questions

### Schoolwide Plan Development – Section 1114(2)(B) (i-iv)

1. Cobb County’s schoolwide plans are developed during a 1-year period; unless – the school is operating a schoolwide program on the day before the date of the enactment of Every Student Succeeds Act, in which case such school may continue to operate such program but shall develop amendments to its existing plan during the first year of assistance after that date to reflect the provisions of the section. **Evidence to support this statement includes: The dated schoolwide plans, dated budget meeting agendas and signature pages, and dated committee and input meeting signature pages. SWP Checklist 5(a)**
2. Cobb County’s schoolwide plans are developed with the involvement of parents and other members of the community to be served and individuals who will carry out such plan, including teachers, principals, other school leaders, paraprofessionals present in the school, administrators (including administrators of programs described in other parts of this title), the local educational agency, to the extent feasible, tribes and tribal organizations present in the community, and , if appropriate specialized instructional support personnel, technical assistance providers, school staff, if the plan relates to a secondary school, students, and other individuals determined by the school. **Evidence to support this statement includes: The schoolwide plan committee signature page and the Family Engagement fall and spring input meetings. Schoolwide Checklist 5(b)**
3. Cobb County’s schoolwide plans remains in effect for the duration of the school’s participation under Sec. 114(b)(1-5) of ESSA, except that the plan and its implementation shall be regularly monitored and revised as necessary based on student needs to ensure that all students are provided opportunities to meet the challenging State academic standards. **Evidence to support this statement includes: The Title I midyear and end of year monitoring of SWP goals, monitoring and approving all Title I expenditures, and revision dates listed on the SWP cover page. SWP Checklist 5(c)**
4. Cobb County’s schoolwide plans are available to the local education agency, parents, and the public, and the information contained in such plan shall be in an understandable and uniform format and, to the extent practicable, provided in a language that the parents can understand. **Evidence to support this statement includes: Every Title I school post the Title I plan, Title I budget, and Family Engagement Components on the school’s website and in multiple languages. SWP Checklist 5(d)**
5. Describe how the schoolwide plan has been developed in coordination and integration with other Federal, State and local services, resources, and programs, such as programs supported under this Act, violence prevention programs, nutrition programs, housing programs, Head Start programs, adult education programs, career and technical education programs, and schools implementing comprehensive support and improvement activities or targeted support and improvement activities under section 1111 (d), if appropriate and applicable. **SWP Checklist 5(e) Include district initiatives that are supported with Title I Funds (For example: Early Literacy Framework (ELF), Math Fluency Initiative (MFI), LETRS, Read 180, etc.)**

#### **SCHOOL RESPONSE:**

This year, each core department, as well as the Administration Team, met over the course of four meetings to determine root causes, action steps, implementation plans, and monitoring plans for our goals. In addition, requests for other significant stakeholder input were sent out by email along with the Title I Parent Facilitator gathering information from parents. We followed the Title I recommendations to include input from stakeholders such as our Food Services Manager, School Social Worker, Course Extension Coordinators, Professional School Counselors, Students, Parents, District Title I Supervisor, District Title I Academic Coach, and Media Specialist. Information was compiled from the meetings and emails and was reviewed by members of the team to use in developing the plan.

The district will provide support for the plan as well with resources such as Read 180 licenses, consumable materials, Edmentum licenses (we formerly used GradPoint), Delta Math, and CTLS Resources. In addition, Title II will provide professional development resources and support, and Title III will provide support for EL and dual-served students, including a Title III Parent Facilitator. The International Welcome Center is utilized for interpretation and translation support

and as an initial intake center for our IEL students. 20-day funds will be utilized for tutoring and summer learning support for our students struggling to meet state standards. Osborne Nest (Wraparound Services) receives multiple resources from our community members and partners. Title I will continue to fund our reading and math interventionists as well as course extension, summer bridge, tutoring and local school resources. These federal, state, and local programs will work together to meet the needs of the students and families.

#### ESSA Requirements to Include in the Schoolwide Plan – Section 1116(B)(1)

6. Jointly develop with, and distribute to, parents and family members of participating children a written parental and family engagement involvement policy, agreed on by such parents, that shall describe the means for carrying out the requirements of Subsections (c) through (f). Parents shall be notified of the policy in an understandable and uniform format and, to the extent practicable, provided in a language the parents can understand. Such policy shall be made available to the local community and updated periodically to meet the changing needs of parents and the school. **Evidence to support this statement includes Posting every Title I school's parent policy on the school's website in multiple languages where practicable, Fall and Spring input meeting agendas and sign in sheets providing parents the opportunity to assist in the development of the school's parent policy, compact and parent engagement budget.**

*SWP Checklist 4*

#### Evaluation of the Schoolwide Plan - 34 CFR § 200.26

7. Describe how the school regularly monitors and the implementation of, and results achieved by, the schoolwide program, using data from the State's annual assessments and other indicators of academic achievement. *SWP Checklist 3(a)*

##### **SCHOOL RESPONSE:**

Teachers actively participate in Collaborative Teams (known as CTs) on a weekly basis, and through this process regularly monitor student progress toward meeting state standards. The school conducts school-level semester data analysis twice a year (EOC, Course Pass Rates, etc.) and analysis of progress toward meeting the CCRPI goals. A Title I rank-order list is created annually to help in appropriately placing students in 9th grade.

In addition, the Cobb Teaching and Learning System (especially CTLS ASSESS) provides ongoing monitoring of student performance and achievement. I-Ready assessments are given to ESOL students, 9th and 10th grade students at least twice a semester. Results of several district assessments (-i-Ready, formatives and summatives, etc.) are given and reviewed as well. Local School Academic Coaches meet with the Administration Team, and periodically with the Title I Supervisors and District Title I Coaches, to review progress toward meeting the goals of the plan.

8. Describe how the school determines whether the schoolwide program has been effective in increasing the achievement of students in meeting the challenging State academic standards, particularly for those students who had been farther from achieving the standards. *SWP Checklist 3(b)*

##### **SCHOOL RESPONSE:**

The school uses GaDOE CCRPI Content Mastery, Progress, Closing the Gap, and Graduation Rate provide a standard, measurable way for us to monitor the school's academic progress. The CCRPI allows us to determine our performance targets for the next year. A combination of course pass rates, EOC scores, EOC Domain data, ACCESS scores, and performance on common formative and summative assessments provide data for CTs to determine the content-specific needs of students.

9. Describe how the schoolwide plan will be revised, as necessary, based on regular monitoring to ensure continuous improvement of students in the schoolwide program. *SWP Checklist 3(c)*

##### **SCHOOL RESPONSE:**

Each year, the Title I Supervisor conducts a mid-year monitoring plan meeting to discuss the progress of the implementation and monitoring plans. Local school CTs meet regularly to monitor student progress, discuss strategies for supporting students, and determining next steps. Weekly meetings between the Administration Team and Academic Coaches allow for continuous monitoring. As we move through the implementation plan of each action step, we can determine if the plan is working or needs to be revised.

**Schoolwide Plan Reform Strategies – Section 1114(b)(7)(A)(i-iii)(I-V)**

10. Address the reform strategies the school will implement to meet the school needs, including a description of how such strategies will: Provide opportunities for all children, including all subgroups defined in section 1111 (c)(2), to meet the State’s challenging academic standards. **Evidence to support this statement includes: Specific schoolwide plan action steps, the method for monitoring and evaluating those action steps and the schoolwide plan student groups page specifically identifying supports to assist various student groups in meeting the State’s challenging academic standards, where applicable. SWP Checklist 2(a)**

11. Address the reform strategies the school will implement to meet the school needs, including a description of how such strategies will: use methods and instructional strategies that strengthen an academic program in the school, will increase the amount and quality of learning time, and help provide an enriched and accelerated curriculum, which may include programs, activities, and courses necessary to provide a well-rounded education. **Evidence to support this statement includes: Specific schoolwide plan action steps, the method for monitoring and evaluating those action steps, where applicable. SWP Checklist 2(b)**

12. Address the reform strategies the school will implement to meet the school needs, including a description of how such strategies will: address the needs of all children in the school, but particularly the needs of those at risk of not meeting the challenging State academic standards through activities which may include - counseling, school-based mental health programs, specialized instructional support services and other strategies to improve students’ skills outside the academic subject areas. **Evidence to support this statement includes: Specific schoolwide plan action steps, the method for monitoring and evaluating those action steps, where applicable. SWP Checklist 2(c)(i)**

13. Describe the implementation of your schoolwide tiered model to prevent and address problem behavior and early intervening services, coordinated with similar activities and services carried out under the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.). *SWP Checklist 2.c(iii)*

**SCHOOL RESPONSE:** Osborne High School has an operational Positive Behavioral Intervention Strategies (PBIS) program, which we refer to as SOAR (Supportive, Open-minded, Accountable, & Respectful). The aim of SOAR is to serve as a tiered approach for staff when addressing student behaviors. This year we have refocused on our knowledge of the existing PBIS matrix (i.e., SOAR) and its application with students. We have provided training twice this year in understanding the matrix and we have provided resources to identify and distinguish between minor and major infractions. SOAR emphasizes a progressive approach to discipline; before a student is referred for minor discipline they must have gone through several corrective steps within the classroom. Major discipline infractions are addressed by administration. Monthly discipline reviews occur in SOAR Team meetings as well as faculty/staff meetings. In a recent review of the year's comprehensive discipline data, there was a need to revise the attributes of our matrix to focus on safety, open-mindedness, accountability, and resilience; additionally, we revised the rules expected in the common areas throughout the building (i.e., hallway, cafeteria, restrooms, arrivals/departures, and extra-curriculars) to support our students in reducing our biggest disciplinary issues (i.e., tardies, insubordination, out-of-area/skipping).

14. Describe professional development and other activities for teachers, paraprofessionals, and other school personnel to improve instruction and use of data from academic assessments, and to recruit and retain effective teachers, particularly in high need subjects. *SWP Checklist 2.c(iv)*

**SCHOOL RESPONSE:**

Professional learning is customized to meet the needs of CTs (in Cobb known as CCCs), departments, or individual teachers. Core as well as non-core teams are supported. Teachers work collaboratively with guidance from Instructional Coaches to plan, deliver, assess, and reflect on instruction. Instructional Coaches support core content teams as well as non-core teams. As part of their work, Instructional Coaches develop periodic needs assessment surveys for teachers, which allows them to customize PL in a way that meets teacher, team, and department needs. All teachers can attend conferences or workshops designed to enhance professional practice (co-coordinated through District, Title I, Title II, Title III, SFPSPD, and Local Funds)

The Fall 2024 Teacher PL Needs Survey asked teachers to identify professional learning needs as it related to the TKES standards. Teachers self-rate their proficiency in each standard and the survey gave teachers and opportunity to sign up to lead professional learning. Due to our growing population of Multilingual Learners all staff members were assigned two ELlevation modules to module to complete one each semester. Our teachers were offered additional professional learning opportunities during the Digital Learning Days covering CTLS, Ellevation, Progress Learning, Edmentum, & PBIS. Content specific trainings was offered for IRR teachers from district personnel, ELA teachers for MyAccess, and i-Ready and Math and Science teachers for PRISMS.

New teacher Induction is differentiated among Year 0-3 Teachers and Veteran Teachers New to Osborne. First year teachers attended monthly professional learning while third year teachers attended semester training sessions focused on instructional strategies. New this year was our monthly Lunch and Learn sessions where the new to Osborne faculty members able to learn about different aspects of our school culture, resources, and hear from experienced colleagues while building staff-wide connections. Also, we initiated a CT Leads monthly book study on Learn by Doing to support the PLC process within in our school-wide CTs.

The schoolwide professional learning topics were determined by the Admin, Instructional Coaches and Departments during the leadership retreat after reflecting on the instructional and post pl surveys. The professional learning topics chunked the components of the unit plan. Professional Learning was delivered and followed up with walkthroughs by guiding coalition, Admin/IC/DC walkthroughs, and then peer walkthroughs. Instructional Coaches also conducted classroom walkthroughs by department, by CCC, by new teacher groups, and cross-departments.

Osborne works collaboratively with District Title I Supervisors and District Title I Academic Coaches to design the school's improvement plan, facilitate professional learning, assist with classroom walkthroughs, conduct data analysis, model instructional strategies, and ensure alignment of curriculum, instruction, assessments, and pacing. The school also collaborates with Columbia University Teachers College to provide onsite PL (i.e, engagement strategies for core teachers this Spring, follow-up classroom visits with teachers requesting feedback, teacher leader development, etc.).

**15. ONLY MIDDLE AND ELEMENTARY SCHOOL RESPONSE REQUIRED** Describe the transition activities provided for preschool children to kindergarten, 5<sup>th</sup> grade students to 6<sup>th</sup> grade and 8<sup>th</sup> grade students to 9<sup>th</sup> grade. *SWP Checklist 2.c(v)*

**SCHOOL RESPONSE:**

**16. ONLY HIGH SCHOOL RESPONSE REQUIRED** Describe how the school prepares and makes aware of opportunities for postsecondary education and the workforce, which may include career and technical education programs and broadening secondary school students' access to coursework to earn postsecondary credit while still in high school (such as Advanced Placement, International Baccalaureate, dual or concurrent enrollment, or early college high schools. *SWP Checklist 2.c(ii)*

**SCHOOL RESPONSE:**

Our professional school counselors offer various Financial Aid and college and career workshops. The Naviance program and its various activities is used to work with students to help them find potential careers and help them with future goals by providing career matchmaker assessments, ability profiler assessments, and post-secondary goal setting that addresses education/financial/career planning. The Osborne Counseling Department hosts Apply to College Day and informs students about Dual Enrollment opportunities (part of Bridge Law) with local technical colleges and universities, as well as Dual Achievement Option B, and conducts “check-in days” where our students can ask post-secondary questions in an open forum.

Osborne High School’s CTAE Department currently offers 11 pathways within 9 career clusters. Students learn the technical or occupational skills necessary to obtain employment or advance within an occupation. Students participating in the CITA program interact regularly with industry professionals and students can earn industry certifications in their classes.

The Counselor Corners’ Series focused on giving information about the college application process, partnership with Georgia Hope, financial aid and FAFSA, and our Communities in Schools Rep has planned college visits. The Counseling Department posts a monthly student newsletter to access applications for available scholarship opportunities.

Osborne High School offers a Work Based Learning Program where students can explore a career based on their interests. Students get real-world experience and a chance to apply their academic knowledge in a professional setting. Teachers and students, led by the Osborne High School Work Based Learning Program, have established relationships with local businesses by attending the Smyrna Business Association monthly. Osborne High School also established a partnership with Great Promise Partnership, an organization which “empowers students to stay in school while also addressing Georgia’s workforce needs” (<http://gpppartnership.org/>).

#### Comprehensive Needs Assessment – Section 1114(b)(1)(A)

17. Cobb County’s schoolwide plans are based on a comprehensive needs assessment of the entire school, that considers information on the academic achievement of children in relation to the challenging State academic standards, particularly the needs of those children who are failing, or are at-risk of failing, to meet the State academic standards and any other factors as determined by the local educational agency. **Evidence to support this statement includes: The comprehensive needs assessment section of the schoolwide plan. SWP Checklist 1**

## Title I Personnel/Positions Hired to Support the School Improvement Goals

*SWP Checklist 2.c(iv) - Section 1114(b)(7)(A)(i-iii)(I-V)*

Position	Supports Goal(s)	Supports which system(s)	How will the primary actions of this position support the implementation of the School Improvement Plan?
Paige Roberts Instructional Coach	<input checked="" type="checkbox"/> Goal 1 <input type="checkbox"/> Goal 2 <input checked="" type="checkbox"/> Goal 3 <input type="checkbox"/> Goal 4	<input checked="" type="checkbox"/> Coherent Instruction <input checked="" type="checkbox"/> Professional Capacity <input checked="" type="checkbox"/> Effective Leadership <input checked="" type="checkbox"/> Supportive Learning Environment <input checked="" type="checkbox"/> Family Engagement	The academic coaches will support teachers in content areas to provide professional learning, modeling of strategies, and instructional feedback to teachers.
Miranda Sanders Instructional Coach	<input checked="" type="checkbox"/> Goal 1 <input type="checkbox"/> Goal 2 <input checked="" type="checkbox"/> Goal 3 <input type="checkbox"/> Goal 4	<input checked="" type="checkbox"/> Coherent Instruction <input checked="" type="checkbox"/> Professional Capacity <input checked="" type="checkbox"/> Effective Leadership <input checked="" type="checkbox"/> Supportive Learning Environment <input checked="" type="checkbox"/> Family Engagement	The academic coaches will support teachers in content areas to provide professional learning, modeling of strategies, and instructional feedback to teachers.
April Hamilton-Williams Instructional Coach	<input checked="" type="checkbox"/> Goal 1 <input type="checkbox"/> Goal 2 <input type="checkbox"/> Goal 3 <input type="checkbox"/> Goal 4 <input checked="" type="checkbox"/> Goal 5	<input checked="" type="checkbox"/> Coherent Instruction <input checked="" type="checkbox"/> Professional Capacity <input checked="" type="checkbox"/> Effective Leadership <input checked="" type="checkbox"/> Supportive Learning Environment <input checked="" type="checkbox"/> Family Engagement	The academic coaches will support teachers in content areas to provide professional learning, modeling of strategies, and instructional feedback to teachers.
Deidra Carter Math Interventionalist	<input type="checkbox"/> Goal 1 <input type="checkbox"/> Goal 2 <input checked="" type="checkbox"/> Goal 3 <input type="checkbox"/> Goal 4	<input checked="" type="checkbox"/> Coherent Instruction <input type="checkbox"/> Professional Capacity <input type="checkbox"/> Effective Leadership <input checked="" type="checkbox"/> Supportive Learning Environment <input type="checkbox"/> Family Engagement	The FLP Instructor will support an identified group of at-risk incoming 9th graders to provide foundational math skills in the FLP to Foundations of Algebra looping cohort designed to help them obtain a math credit for graduation and promote to 10th grade.
TBH Reading Interventionalist	<input checked="" type="checkbox"/> Goal 1 <input checked="" type="checkbox"/> Goal 2 <input type="checkbox"/> Goal 3 <input type="checkbox"/> Goal 4	<input checked="" type="checkbox"/> Coherent Instruction <input type="checkbox"/> Professional Capacity <input type="checkbox"/> Effective Leadership <input checked="" type="checkbox"/> Supportive Learning Environment <input checked="" type="checkbox"/> Family Engagement	The Reading Interventionist will support an identified group of at-risk incoming 9th graders in improving their reading and writing skills in the Comm. Skills to 9th Lit looping cohort designed to help them obtain an ELA credit for graduation and promote to 10th grade.

Joseph Rice 9-12 Edmentum	<input checked="" type="checkbox"/> Goal 1 <input checked="" type="checkbox"/> Goal 2 <input type="checkbox"/> Goal 3 <input type="checkbox"/> Goal 4	<input checked="" type="checkbox"/> Coherent Instruction <input type="checkbox"/> Professional Capacity <input type="checkbox"/> Effective Leadership <input checked="" type="checkbox"/> Supportive Learning Environment <input checked="" type="checkbox"/> Family Engagement	The Grad Point Instructor will provide credit recovery opportunities to students who, during the pandemic, have fallen behind on credits toward graduation (primarily 10th and 11th graders).
