What is a School-Parent Compact?

A School-Parent Compact is an agreement that parents, students, and teachers, develop together. It explains how parents and teachers will work together to make sure all of our students succeed. This compact includes strategies to help connect learning at school to learning at home.

Jointly Developed

The parents, students, and staff of Acworth Elementary worked together and shared ideas to develop the school-parent compact for achievement. Teachers suggested home learning strategies, parents added ideas to make them more specific, and students told us what would help them learn. Parents are encouraged to participate in the annual review process of the compact and make changes based on students' needs. Parents are welcome to contribute comments at any time. Please contact Liz Herrera at 770-975-6600 or elizabeth.herrera@cobbk12.org to provide feedback.

Acworth Elementary Activities to Build Partnerships

Please consider joining us through some of the events listed below. Volunteer opportunities may be virtual or face to face.

Teachers, Parents, and Students-Together for Success

Acworth Elementary Teachers

Provide students with CTLS math Core Package and manipulatives that can be used for independent practice work time during math workshop. Students will continue to use homework assignments to work towards proficiency with math strategies and concepts.

Share information with parents about CTLS math Core Package to provide additional support with at home practice and encourage them to help students make real-world application of math concepts.

Apply math strategies and concepts during science and STEM-related activities at school and encourage students to apply strategies and concepts outside of school to reinforce real-world connections.

Acworth Elementary Families

Support students with at-home practice using CTLS math Core Package. Encourage students to make real-world connections and apply math concepts outside of school.

Utilize CTLS parent resources to support students use of instructional strategies during at home practice.

Support students in finding examples of math in the world.

Acworth Elementary Students

Use CTLS math Core Package to practice working towards proficiency with math strategies and concepts at school and/or home.

Utilize CTLS math Core Package and Zearn to work towards proficiency with math strategies and concepts.

Share with parents the math strategies and concepts you are learning during math workshop. Share examples of real-world application and

One Team, One Goal, Student Success!
