

PBIS is an evidence-based framework used at Awtrey to promote a healthy culture for learning. A key aspect of PBIS is focusing on positive behaviors and less on negative behaviors. Our students enjoy PBIS behavior incentives such as PTSA school store purchases and celebrations.

SOURCES OF STRENGTH

Sources of Strength is a student suicide prevention and health initiative at Awtrey. Student leaders and trusted adults work together to implement wellness campaigns in the school. Sources of Strength is an evidence-based program used throughout the Cobb County School District.
