

the **STEAM** club

Robotek

After School Enrichment Classes Grades 2 - 5 | Wednesday 3:40p - 4:40p

In The STEAM Club's Lego Robotics program, students will work to build robotic models featuring working motors and sensors. Next, students will program their models and explore a series of cross-curricular, theme-based activities, while developing their skills in science, technology, engineering, and mathematics!

Students will be grouped based on grade level and experience. Each semester will feature all new builds as students progress through each level of our engaging and fun Lego Education Robots.
