

COLA Newsletter

THIS ISSUE:

back to
SCHOOL

This is a student-led newsletter that aims to highlight student and teacher stories and share important dates for standardized testing (PSAT, SAT, Milestones, etc.), college applications, field trips, and any other COLA events. We hope to use this to share more about student and community organizations and events inside and outside of school, and to highlight club activities and involvement. Our goal for this newsletter is to use it as a way for students and teachers to connect and learn more about their peers, and to have a resource for students looking to get more involved in both COLA and their community!

Monthly Movie Review

By: Juan Quezada, 10th Grade

Inspired by Jules Verne's classic novel, *Journey to the Center of the Earth*, this family adventure movie presents an interesting college professor named Trevor Anderson, played by Brenden Frasier. Anderson's nephew joins him on a trip using a book with references listed by his brother from his last journey. This adventure movie is full of action, incredible creatures, and exciting moments. I highly recommend this movie to anyone that loves Brenden Frasier, adventure, and films inspired by novels.
