[Student Device Liability Agreement](#)

While the primary purpose of the Cobb County School District's (District) technology equipment is for use on site during the instructional day, there are times when it is appropriate for students to check out equipment to be used for educational purposes beyond the school day and outside of the school environment. All students/parents/guardians will be required to agree to the terms set forth below before a computing device can be taken to a location other than a District facility.
