

# Adjust Search Box and Icon

These directions on the Search Box and Search Icon allows users to minimize and maximize the search area on the taskbar.

## Search Box Options

1. To access the **Search Box** and **Search Icon** features, right-click on the **Taskbar** at the bottom of the screen and select **Search**.

2. Select from one of the **Search** options from the sub-menu:

- a. **Hidden** – removes the search box and icon.

- b. **Show search icon** – displays only the search icon.

- c. **Show search box** – displays the search box and icon.

3. Once selected the **Search Box** area will change to reflect the change.

*Note: This change increases or decreases the amount of space on the **Taskbar**.*
